The Secret Stream Rudolf Steiner, 2000 Rosicrucianism is one of the most important and least recognized streams of Western spirituality Forced underground in the maelstrom of the Thirty Years War Rosicrucianism was passed down secretly by alchemists hermetists and Masons into the nineteenth century when it inspired new spiritual

movements including theosophy the Order of the Golden Dawn and Rudolf Steiner's spiritual science This book collects from many different sources Steiner's discussions on Rosicrucianism the Tao and the Rose Cross the history and mission of Christian Rosenkreutz the nature of Rosicrucian practice and experience the meaning of The Chemical Wedding Goethe's Rosicrucian poem The Mysteries and how to meditate on the Rose Cross itself **Rosicrucianism Renewed** Rudolf Steiner, 2006-03 After Rudolf Steiner had left us in the body the gifts of the spirit that were offered by him in such overflowing measure could not continue It must now happen that a community of human beings takes over the results of his spiritual research takes them in such a way that they remain alive in the community People must come together in anthroposophic work united in such a way that Anthroposophy comes into its own Carl Unger Oct 29 1928 This volume provides perhaps the most comprehensive and profound exegesis of Rudolf Steiner's Anthroposophy especially his book titled Anthroposophical Leading Thoughts That book provides Steiner's final and most complete explanation of his Spiritual Science through brief aphoristic thoughts or meditations on the profound esoteric meaning of the modern spiritual path he called Anthroposophy In The Language of the Consciousness Soul Carl Unger unfolds and expands Rudolf Steiner's leading thoughts in 78 brief meditative chapters to help the reader comprehend the deeper meaning behind the Leading Thoughts Unger helps us see how Steiner created a mandala like image of Anthroposophy revealing an ever expanding cosmology and epistemology that goes far beyond mere philosophy or a belief system to a practical path of spiritual investigation and knowledge for modern humankind Rudolf Steiner had this to say about Carl Unger Dr Carl Unger for many years past has always been the most industrious and devoted collaborator in the anthroposophic movement At an early date Dr Unger saw that Anthroposophy before all needs a strong foundation of the theory of knowledge With a deep understanding he took up what I myself many years ago was able to give in my books Goethe's Theory of Knowledge Truth and Knowledge and Intuitive Thinking as a Spiritual Path A Philosophy of Freedom he developed independently what I had intimated Supported by mental discernment his goal was to see through the nature of the human process of knowledge in a clear analysis and from that to form its true picture Dr Unger is not dialectical but an observer of empirical facts This is why through the years he has been able to give results of the highest value showing how the process of knowledge in ordinary consciousness produces always and everywhere out of itself the impulses to anthroposophic investigation Moreover Dr Unger's method of thinking trained through technical problems is free from subjective vagueness and thus his scientific collaboration in Anthroposophy is the most important that we can have The Language of the Consciousness Soul is an indispensable guidebook for group study and for individuals who wish to penetrate the depths of Anthroposophy and apply its principles both inwardly and to daily life This volume is an edited translation by Effie Grace Wilson of Aus der Sprache der Bewusstseinsseele Unter Zugrundelegung der Leitsätze Rudolf Steiners **Learning to Experience the Etheric World** Baruch Luke Urieli, Hans Müller-Wiedemann, 2020-12-16 Our world today is increasingly characterized by speed movement and flux There is often a

lack of sufficient time to do what needs to be done and life seems to be marked by change upheaval and revolution But in the midst of this turmoil say the authors people are having conscious and semiconscious experiences of the etheric world the world that comprises the forces of life However this growing sensitivity to the etheric realm only intensifies experiences of movement and upheaval To counter such feelings we should take hold of our inner life and strengthen the I our true self Featuring essays supplemented with a substantial amount of source material from Rudolf Steiner and other authors this book is an invaluable resource for inner development and the beginnings of true spiritual vision We learn to practise the ability to add to every physical perception whether of stone plant animal or another person the etheric reality associated with that entity This process leads us to become more aware of the after image and to become conscious within the etheric realm Baruch Urieli comments that this is not an esoteric path but is rather an endeavour to bring the beginnings of a natural consciousness of the etheric to full consciousness and hence under the rulership of the ego Spiritualism, Madame Blavatsky and Theosophy Rudolf Steiner,2002-11 This work builds on the foundation of the Popol Vuh the document that retraces in mythical language the four ages or stages of civilization that all of America has undergone to some degree It also moves from the Popol Vuh into later times through myths and legends of the Aztec and Iroquois Myth and history are placed side by side in a scientific and imaginative approach that documents the correlation between pre historical and historical periods and the spiritual events that ushered them in as narrated in the myths and legends of North America This approach reconciles Western analytical consciousness with the Native American language of myths and legends All of this is placed first in the perspective of Maya spiritual tradition and then from the perspective that the twentieth century research of Rudolf Steiner brought to light especially in relation to the events that took place in Central America two thousand years ago about which only Rudolf Steiner has spoken The first part of the work explores events of 2 000 years ago and their consequences in the onset of Maya civilization The second part researches the rise of new spiritual influences around the time just before the arrival of Columbus in America At the extremes of the spectrum we find Aztec and Iroquois worldviews Both cosmologies have links subtle or obvious with the Popol Vuh whether continuing or reinterpreting its original message This polarity carries momentous consequences for global social trends in modern world history *Spiritual Turning Points of North American History* brings a fresh perspective to North American history and the meeting of European and First Nations worldviews *The Spiritual Hierarchies and the Physical World* Rudolf Steiner,2008-08 10 lectures in D sseldorf April 12 18 1909 participants notes from Q the nine choirs of angels elemental beings and nature spirits and the elements of fire earth air and water *The Spiritual Hierarchies and the Physical World* Zodiac Planets Cosmos is a translation from German of *Geistige Hierarchien und ihre Widerspiegelung in der physischen Welt Tierkreis Planeten Kosmos* GA 110 *The Spiritual Hierarchies and the Physical World* Reality and Illusion 1996 contained a previous edition of this lecture course

Supersensible Impulses Rudolf Steiner,2024-05-08 When you perform a ritual it is an appeal to the spiritual powers of

the universe an appeal to the powers that are meant to connect with the earth precisely through what people do Rudolf Steiner With rituals or cultic forms as his central motif Rudolf Steiner refers extensively to Indian Persian and in particular Egyptian initiation rites and how these enabled people of antiquity to connect with specific spiritual beings He explains the practical purpose of mummification for the religious life of ancient Egypt and of the use of ritual in certain secret societies or brotherhoods today as in turn a mummification of Egyptian rites But he also points to the future describing how truly formulated rituals have a positive effect on human development Whilst inhalation exercises were relevant to cultures of the past the principle of exhalation is important for future evolution On the one hand these extraordinary lectures relate to Rudolf Steiner's ceremonial work in the Esoteric School of 1906-1914 but more significantly they were given in parallel to the founding of the Christian Community for which Rudolf Steiner mediated its sacraments Today he states Christ must be sought through a new access to the spiritual world and any remaining traditional ritualistic forms should be permeated with the power of the Mystery of Golgotha The lectures are accompanied with an introduction by Dale Brunsvold editorial notes and an index Eight lectures Dornach Sept Oct 1922 GA 216

The Etheric Ernst Marti, 2017-05-08 Ernst Marti devoted his life to researching the etheric realm a subtle area that exists between the physical and spiritual Taking the numerous statements and references by Rudolf Steiner as his starting point Marti develops our understanding of the etheric world in various fields from the theory of knowledge to the natural world through to music the realm of colours eurythmy and medicine In doing so he proposes exciting bridges from the ancient and medieval worldview to the present and future of natural and spiritual science The Etheric explores the fourfold realm of the ethers Giving an overview of their cosmic origins in the evolution of the earth Dr Marti shows how the ethers work in phenomena of warmth light sound and organic life He brings a contemporary understanding and insight to the classical elements fire air water and earth as the media through which ethericity manifests and works in the world Four physical forces are also explored which as opposites to the ethers have a constant tendency to break down and annul what life giving ether creates Dr Marti then studies the shadow aspects of the ethers connected to what he terms the sub natural forces of electricity magnetism and nuclear force Given that the author was unable to complete this book in his lifetime his pupil and colleague Irmgard Rossmann edited the final version in the spirit of her teacher It is published here in two volumes with this first focusing on The World of the Ethers and the forthcoming volume on The World of Formative Forces

The World of the Senses Rudolf Steiner, 2014-09-04 When we consider the plant world in all its greenery or the stars with their golden glory when we look at all this without forming any judgement from within ourselves but instead permit the things to reveal themselves to us then all things are transformed from what they were in the world of the senses into something entirely different something for which no word exists other than one which is taken from our very life of soul Rudolf Steiner One of Rudolf Steiner's most fundamental objectives was to show how the spiritual world connects to and penetrates the material world In doing so he was pioneering a modern form of

Rosicrucianism countering traditional religious conceptions that spirit and matter are polar opposites as well as contemporary materialistic science that ignores the existence of spiritual phenomena altogether In this concise series of lectures Rudolf Steiner shows how the human senses reveal the mysterious world of the will which is at once a spiritual and physical phenomenon The senses act as a portal connecting our physical and etheric bodies with what Steiner refers to as worlds of all pervading will and all pervading wisdom He elaborates this theme giving some unexpected and delightful insights into the senses of hearing and sight and in particular how we experience colour Steiner suggests that divine spiritual beings had different intentions for the formation of physical human beings but that adversary powers caused disruption leading to a more materialized constitution He describes disorders in the connections between the human physical etheric astral and ego bodies and the ill effects of one aspect overpowering the others He gives insight into human glandular secretions and why we need to eat and digest also connected to the intervention of adversary beings Among the many other themes tackled here Rudolf Steiner describes the transformation of the human senses and organs giving special consideration to the function of the larynx which in future times will develop a special kind of reproductive power Gnosis Dan Merkur,1993-10-05 Gnosis traces the use of powerful gnostic visionary techniques from Hellenistic Gnosticism and Jewish merkabah mysticism through Muhammad the Ismaeilis and theosophical Sufism to medieval neoplatonism and renaissance alchemy **Prospero's Powers** John O'Meara,2006-10-29 As the third part of his trilogy on Shakespeare Prospero's Powers extends the study of the late plays O'Meara offered in Othello's Sacrifice to consider more closely how Shakespeare fulfills his personal artistic development in The Tempest The play is seen as expressing in its structure the whole of Shakespeare's tragic development up to that time Great powers of self knowledge and of inner knowledge of the cosmos are shown to have emerged from this development which Prospero now embodies Structural links are pursued that further connect Prospero's powers with the mysterious process of self growth that is dramatized in The Chymical Wedding of Christian Rosenkreutz Behind both works and the Renaissance alchemical tradition they mediate lies the mystery of the sacrificial death of the Sophia into human consciousness that was taking place at the time Shakespeare was writing From the event of this death come the great possibilities of self development and inner power over the world that Shakespeare was boldly prophesizing in the play that brings his artistic career to consummation an excellent and profound study Richard Ramsbotham Who Wrote Bacon William Shakespeare Francis Bacon and James I The Imagination of Pentecost Richard Leviton,1994 Carlo Pietzner speaks out of his own ego directed inner experiences about several motifs inherent to inner striving the problem of self in relationship to the world the disintegration of the three soul forces the transition from sense perception to spiritual perception the reality of evil the condition of loneliness and more **From the History of the Dornach Hill...** Locher Angela,2024-11-25 Focusing on Marie Steiner von Sivers distinctive collaboration with Rudolf Steiner From the History of the Dornach Hill offers an engaging lively narrative of the early decades of the anthroposophical

movement Utilizing eye witness accounts and primary sources Angela Locher creates vivid images of the developing arts at the Goetheanum in particular eurythmy speech formation and the dramatic arts but also describes many fascinating aspects of general anthroposophical history The latter include the period of cooperation with the Theosophical Society the design and building of the first and second Goetheanums travels tours and visits overseas with Rudolf Steiner the pivotal Christmas Conference of 1923 4 stage performances including the Mystery Dramas and Rudolf Steiner s unexpected death and its aftermath Locher structures her absorbing study around the life of Marie Steiner from her birth in 1867 and childhood in Russia to her eventual passing in Switzerland in 1948 I have written this book especially for subsequent generations of eurythmists actors and speakers who could not experience what had been achieved in the previous century the vital processes of the development of eurythmy and the dramatic arts These created the foundation on which we stand today and from which we can carry on into the future Angela Locher This work by Angela Locher can be greeted with enthusiasm In view of the difficult challenges of our time more people than ever are beginning to experience that the arts are not merely a beautiful addition to life but are profoundly connected to our humanity Virginia Sease **Spiritual Art and Art Education**
