The Encyclopedia of New York City Kenneth T. Jackson, Lisa Keller, Nancy Flood, 2010-12-01 Covering an exhaustive range of information about the five boroughs the first edition of The Encyclopedia of New York City was a success by every measure earning worldwide acclaim and several awards for reference excellence and selling out its first printing before it was officially published But much has changed since the volume first appeared in 1995 the World Trade Center no longer dominates the skyline a billionaire businessman has become an unlikely three-term mayor and urban regeneration Chelsea

Piers the High Line DUMBO Williamsburg the South Bronx the Lower East Side has become commonplace To reflect such innovation and change this definitive one volume resource on the city has been completely revised and expanded The revised edition includes 800 new entries that help complete the story of New York from Air Train to E ZPass from September 11 to public order The new material includes broader coverage of subject areas previously underserved as well as new maps and illustrations Virtually all existing entries spanning architecture politics business sports the arts and more have been updated to reflect the impact of the past two decades The more than 5 000 alphabetical entries and 700 illustrations of the second edition of The Encyclopedia of New York City convey the richness and diversity of its subject in great breadth and detail and will continue to serve as an indispensable tool for everyone who has even a passing interest in the American metropolis

Letter John O'Hara, Harold Wallace Ross, 1949 Accepts Ross's counter offer of 1 200 for O'Hara's next five stories for the New Yorker magazine O'Hara had originally demanded 2 000 *Anonymous in Their Own Names* Susan Henry, 2021-04-30 *Anonymous in Their Own Names* recounts the lives of three women who while working as their husbands' uncredited professional partners had a profound and enduring impact on the media in the first half of the twentieth century With her husband Edward L. Bernays Doris E. Fleischman helped found and form the field of public relations Ruth Hale helped her husband Heywood Brown become one of the most popular and influential newspaper columnists of the 1920s and 1930s In 1925 Jane Grant and her husband Harold Ross started the New Yorker magazine Yet these women's achievements have been invisible to countless authors who have written about their husbands This invisibility is especially ironic given that all three were feminists who kept their birth names when they married as a sign of their equality with their husbands then battled the government and societal norms to retain their names Hale and Grant so believed in this cause that in 1921 they founded the Lucy Stone League to help other women keep their names and Grant and Fleischman revived the league in 1950 This was the same year Grant and her second husband William Harris founded White Flower Farm pioneering at that time and today one of the country's most celebrated commercial nurseries Despite strikingly different personalities the three women were friends and lived in overlapping immensely stimulating New York City circles Susan Henry explores their pivotal roles in their husbands' extraordinary success and much more including their problematic marriages and their strategies for overcoming barriers that thwarted many of their contemporaries *Mumford on Modern Art in the 1930s* Lewis Mumford, 2007-02-05 Superbly crafted little essays Lewis Mumford's New Yorker pieces called *The Art Galleries* well deserve this handsome republication They offer supremely tasteful guided tours of the galleries and museums of Manhattan at the time when the canon of Western art including modernism was being secured against a background of tension between abstraction and realism and between aestheticism and social commitment The essays are a gift for our own troubled times from one of the great humane and versatile critics of the twentieth century they offer the reassurance of urbanity poise and commitment to art as a primary social necessity Alan Trachtenberg Neil Grey Emeritus Professor of English Yale University
