Venanzio Raspa, 2013-05-02 The traditional and lively interest in Meinong's philosophy and related topics among Italian philosophers gives rise to this volume of MEINONG STUDIES. As more than an introduction, Venanzio Raspa presents an enlightening historical presentation of Meinong's reception in Italy from his lifetime to the present day. Riccardo Martinelli offers a reconstruction of the Meinongian theory of musical objects of higher order. Francesca Modenato gives the outlines of Meinong's object theory as a theory of the pure object, separating it from ontology and associating it rather with gnoseology. From a less historical than systematic analytic perspective, Andrea Bottani deals with incomplete objects. Mario Alai investigates the problem of propositions concerning non-existent objects, and Carola Barbero proposes a realistic theory of the emotions aroused by reading literary texts. As themes related to Meinongian ones, Alberto Voltolini discusses the concept of existence as a property. Francesco Orilia validates an intuition of Meinong by adopting an approach called fact infinitism, and Guido Bonino deals with Gustav Bergmann's interpretation of Meinong's ontology. Das traditionelle und lebhaftes Interesse italienischer Philosophen an Meinongs Philosophie und damit zusammenhängenden Themen gibt Anlass für diesen Band der MEINONG STUDIEN. Weit über die Anforderungen an eine Einleitung hinausgehend präsentiert Venanzio Raspa eine erhellende Studie der Rezeption Meinongs in Italien von seinen Lebzeiten bis zum heutigen Tag. Riccardo Martinelli rekonstruiert Meinongs Theorie musikalischer Objekte höherer Ordnung, und Francesca Modenato umreißt Meinongs Objekttheorie als Theorie reiner Objekte, welche sie eher der Gnoseologie denn der Ontologie zuordnet. Aus einer weniger historischen als systematisch analytischen Perspektive befassen sich Andrea Bottani mit unvollständigen Objekten, Mario Alai mit der Frage nicht existierender Objekte betreffender Aussagen, und Carola Barbero präsentiert eine realistische Theorie von Emotionen, die durch die Lektüre literarischer Texte erweckt werden. Als Meinong bezogene Themen diskutiert Alberto Voltolini den Begriff der Existenz als Eigenschaft, Francesco Orilia besttigt in seinem Fakteninfinitismus genannten Zugang eine Meinongsche Intuition, und Guido Bonino befaßt sich mit Gustav Bergmanns Interpretation der Meinongschen Ontologie.

**Alexius Meinong** Mauro Antonelli, Marian David, 2014-06-18 The volume collects papers on central aspects of Alexius Meinong's Gegenstandstheorie (Theory of Objects) and its transformation in contemporary logic, semantics, and ontology, covering the impact of his views on grasping and representation, the status of nonexistent or inconsistent objects, and their incorporation in theories like Noneism and Possible World Semantics. In addition, it presents studies on Meinong's notion of probability and on Auguste Fischer, a student and collaborator of Meinong. **New Essays in Free Logic** Edgar

Morscher, Alexander Hieke, 2001-12-31 Free logic, i.e. logic free of existential presuppositions in general and with respect to singular terms in particular, began to come into its own as a field of research in the 1950s. As is the case with so many

developments in Western philosophy its roots can be traced back to ancient Greek philosophy It is only during the last fifty years however that it has become well established as a branch of modern logic The name of Karel Lambert is most closely connected with this development he gave it its name and its profile as a well defined field of research After a development of fifty years it is time to look back and take stock while at the same time scanning for new perspectives This is the purpose of the papers collected in this volume The first paper is written by Karel Lambert himself who also comments on all the papers of the other authors In an introductory essay we give a survey of the present status of and new directions in free logic
