*The Alphorn through the Eyes of the Classical Composer* Frances Jones,2021-04-06 The Alphorn through the Eyes of the Classical Composer is the first and definitive book to be written about the alphorn in English It has been written with English speaking readers in mind as it examines the extensive interest of primarily non Swiss composers writers and artists in the alphorn as a symbol of the Alps the influence and significance of the

alphorn in culture literature and the arts across the globe and the ways in which the instrument has been specifically utilised by the Swiss as the iconic representation of their country This book also explores the use of the musical language of the alphorn call to ascertain why and how such references as those of Berlioz or Beethoven can convey so much meaning Dr Jones seeks out what it is that a composer brings into the concert hall the theatre the opera house the church or the drawing room by such a quotation to what heritage they are referring and upon what basis there are grounds for an assumption that such a reference will be understood by an audience The book which will be of interest to researchers in Swiss cultural studies and ethnomusicology builds on Dr Jones s research and PhD thesis The six chapters deal with a variety of topics including a basic introduction to the alphorn and an exploration of the promotion of the instrument as the symbol of Switzerland as well as the reasons behind symbolic references to alphorn motifs by European and British composers in concert repertoire jazz and film

Reading in Time Cristanne Miller,2012 This book provides new information about Emily Dickinson as a writer and new ways of situating this poet in relation to nineteenth century literary culture examining how we read her poetry and how she was reading the poetry of her own day Cristanne Miller argues both that Dickinson s poetry is formally far closer to the verse of her day than generally imagined and that Dickinson wrote circulated and retained poems differently before and after 1865 Many current conceptions of Dickinson are based on her late poetic practice Such conceptions Miller contends are inaccurate for the time when she wrote the great majority of her poems Before 1865 Dickinson at least ambivalently considered publication circulated relatively few poems and saved almost everything she wrote in organized booklets After this date she wrote far fewer poems circulated many poems without retaining them and took less interest in formally preserving her work Yet Miller argues even when circulating relatively few poems Dickinson was vitally engaged with the literary and political culture of her day and in effect wrote to her contemporaries Unlike previous accounts placing Dickinson in her era Reading in Time demonstrates the extent to which formal properties of her poems borrow from the short lined verse she read in schoolbooks periodicals and single authored volumes Miller presents Dickinson s writing in relation to contemporary experiments with the lyric the ballad and free verse explores her responses to American Orientalism presents the dramatic lyric as one of her preferred modes for responding to the Civil War and gives us new ways to understand the patterns of her composition and practice of poetry
