Rousing the Nation Laura Browder,1998 **Rousing the Nation** Laura Browder,1998 Browder first considers authors James T Farrell Josephine Herbst and John Dos Passos arguing that their work successfully sparked a discussion about what it meant to be American at a time when the country's very future seemed in doubt She then examines the Living Newspaper productions of the Federal Theatre Project which brought politically and aesthetically provocative drama to twenty five million Americans **Twentieth-Century Americanism** Andrew Yerkes,2013-10-31 First Published in 2005 The main purpose of the book is to expand the scope of revisionary studies of the thirties by analyzing novels using recent innovations in critical theory The book adds to the research of Barbara Foley Michael Denning Alan Wald and others who have challenged Cold War era accounts of the decade's socialist and communist culture The book explores leftist literature from the thirties as balanced between two antithetical philosophical modalities identity and ideology Writers create identitarian fiction he argues as they attempt to appeal to a mainstream audience using familiar types and patterns culled from mass culture They engage ideology on the other hand when they use narrative as a means of critiquing those same types and patterns using strategies of ideological critique similar to those of their European contemporary Georg Lukacs

Lost Homelands Audrey Goodman, 2022-02-08 Before the 1930s landscapes of the American Southwest represented the migrant's dream of a stable and bountiful homeland Around the time of the Great Depression however the Southwest suddenly became integrated into a much larger economic and cultural system Audrey Goodman examines how since that time these southwestern landscapes have come to reveal the resulting fragmentation of identity and community Through analyzing a variety of texts and images Goodman illuminates the ways that modern forces such as militarization environmental degradation internal migration and an increased border patrol presence have shattered the perception of a secure homeland in the Southwest The deceptive natural beauty of the Southwest deserts shields a dark history of trauma and decimation that has remained as a shadow on the region's psyche The first to really synthesize such wide ranging material about the effects of the atomic age in the Southwest Goodman realizes the value of combined visual and verbal art and uses it to put forth her own original ideas about reconstructing a new sense of homeland *Lost Homelands* reminds us of the adversity and dislocation suffered by people of the Southwest by looking at the ways that artists photographers filmmakers and writers have grappled with these problems for decades In assessing the ruination of the region however Goodman argues that those same artists and writers have begun to reassemble a new sense of homeland from these fragments

Faulkner and the Great Depression Ted Atkinson, 2010-04-15 Remarkably writes Ted Atkinson during a period roughly corresponding to the Great Depression Faulkner wrote the novels and stories most often read taught and examined by scholars This is the first comprehensive study to consider his most acclaimed works in the context of those hard times Atkinson sees Faulkner's Depression era novels and stories as an ideological battleground in much the same way that 1930s America was With their contrapuntal narratives that present alternative accounts of the same events these works order multiple perspectives under the design of narrative unity Thus Faulkner's ongoing engagement with cultural politics gives aesthetic expression to a fundamental ideological challenge of Depression era America how to shape what FDR called a new order of things out of such conflicting voices as the radical left the Popular Front and the Southern Agrarians Focusing on aesthetic decadence in *Mosquitoes* and dispossession in *The Sound and the Fury* Atkinson shows how Faulkner anticipated and mediated emergent sociocultural forces of the late 1920s and early 1930s In *Sanctuary* *Light in August* *Absalom Absalom* and *Dry September* Faulkner explores social upheaval in the form of lynching and mob violence fascism and the appeal of strong leadership during troubled times As *I Lay Dying* *The Hamlet* *Barn Burning* and *The Tall Men* reveal his ambivalent agrarianism his sympathy for yet anxiety about the legions of poor and landless farmers and sharecroppers In

The Unvanquished Faulkner views Depression concerns through the historical lens of the Civil War highlighting the forces of destruction and reconstruction common to both events Faulkner is no proletarian writer says Atkinson However the dearth of overt references to the Depression in his work is not a sign that Faulkner was out of touch with the times or consumed with aesthetics to the point of ignoring social reality Through his comprehensive social vision and his connections to the rural South Hollywood and New York Faulkner offers readers remarkable new insight into Depression concerns **The**

History, Memory, and the Literary Left John Lowney, 2006-10 In this nuanced revisionist history of modern American poetry John Lowney investigates the Depression era's impact on late modernist American poetry from the socioeconomic crisis of the 1930s through the emergence of the new social movements of the 1960s Informed by an ongoing scholarly reconsideration of 1930s American culture and concentrating on Left writers whose historical consciousness was profoundly shaped by the Depression World War II and the Cold War Lowney articulates the Left's challenges to national collective memory and redefines the importance of late modernism in American literary history The late modernist writers Lowney studies most closely Muriel Rukeyser Elizabeth Bishop Langston Hughes Gwendolyn Brooks Thomas McGrath and George Oppen are not all customarily associated with the 1930s nor are they commonly seen as literary peers By examining these late modernist writers comparatively Lowney foregrounds differences of gender and sexuality race and ethnicity and social class and region while emphasizing how each writer developed poetic forms that responded to the cultural politics and socioaesthetic debates of the 1930s In so doing he calls into question the boundaries that have limited the scholarly dialogue about modern poetry No other study of American poetry has considered the particular gathering of careers that Lowney considers As poets whose collective historical consciousness was profoundly shaped by the turmoil of the Depression and war years and the Cold War's repression or rewriting of history their diverse talents represent a distinct generational impact on U S and international literary history

The Playbook James Shapiro, 2024-05-28 One of The Smithsonian's Ten Best History Books of the Year A brilliant and daring account of a culture war over the place of theater in American democracy in the 1930s one that anticipates our current divide by the acclaimed Shakespeare scholar James Shapiro From 1935 to 1939 the Federal Theatre Project staged over a thousand productions in 29 states that were seen by thirty million or nearly one in four Americans two thirds of whom had never seen a play before At its helm was an unassuming theater professor Hallie Flanagan It employed at its peak over twelve thousand struggling artists some of whom like Orson Welles and Arthur Miller would soon be famous but most of whom were just ordinary people eager to work again at their craft It was the product of a moment when the arts no less than industry and agriculture were thought to be vital to the health of the republic bringing Shakespeare to the public alongside modern plays that confronted the pressing issues of the day from slum housing and public health to racism and the rising threat of fascism The Playbook takes us through some of its most remarkable productions including a groundbreaking Black production of Macbeth in Harlem and an adaptation of Sinclair Lewis's anti fascist novel It Can't Happen Here that opened simultaneously in 18 cities underscoring the Federal Theatre's incredible range and vitality But this once thriving Works Progress Administration relief program did not survive and has left little trace For the Federal Theatre was the first New Deal project to be attacked and ended on the grounds that it promoted un American activity sowing the seeds not only

for the McCarthyism of the 1950s but also for our own era of merciless polarization It was targeted by the first House un American Affairs Committee and its demise was a turning point in American cultural life for as Shapiro brilliantly argues the health of democracy and theater twin born in ancient Greece have always been mutually dependent A defining legacy of this culture war was how the strategies used to undermine and ultimately destroy the Federal Theatre were assembled by a charismatic and cunning congressman from East Texas the now largely forgotten Martin Dies who in doing so pioneered the right wing political playbook now so prevalent that it seems eternal

Brecht at the Opera Joy H. Calico, 2019-10-22 From an award winning author the first thorough examination of the important influence of opera on Brecht's writings Brecht at the Opera looks at the German playwright's lifelong ambivalent engagement with opera An ardent opera lover in his youth Brecht later denounced the genre as decadent and irrelevant to modern society even as he continued to work on opera projects throughout his career He completed three operas and attempted two dozen more with composers such as Kurt Weill Paul Hindemith Hanns Eisler and Paul Dessau Joy H Calico argues that Brecht's simultaneous work on opera and Lehrstück in the 1920s generated the new concept of audience experience that would come to define epic theater and that his revisions to the theory of Gestus in the mid 1930s are reminiscent of nineteenth century opera performance practices of mimesis
