BESTSELLER From the beloved author of the Vampire Chronicles the first installation of her spellbinding Mayfair Chronicles the inspiration for the hit television series Extraordinary Anne Rice offers more than just a story she creates myth The Washington Post Book World Rowan Mayfair a beautiful woman a brilliant practitioner of neurosurgery aware that she has special powers but unaware that she comes from an ancient line of witches finds the drowned body of a man off the coast of California and brings him to life He is Michael Curry who was born in New Orleans and orphaned in childhood by fire on Christmas Eve who pulled himself up from poverty and who now in his brief interval of death has acquired a sensory power that mystifies and frightens him As these two fiercely drawn to each other fall in love and in passionate alliance set out to solve the mystery of her past and his unwelcome gift an intricate tale of evil unfolds Moving through time from today's New

Orleans and San Francisco to long ago Amsterdam and a chateau in the Louis XIV's France and from the coffee plantations of Port au Prince where the great Mayfair fortune is made and the legacy of their dark power is almost destroyed to Civil War New Orleans The Witching Hour is a luminous deeply enchanting novel The magic of the Mayfairs continues THE WITCHING HOUR LASHER TALTON **To Speak for the Trees** Diana Beresford-Kroeger, 2019-09-24 Canadian botanist biochemist and visionary Diana Beresford Kroeger's startling insights into the hidden life of trees have already sparked a quiet revolution in how we understand our relationship to forests Now in a captivating account of how her life led her to these illuminating and crucial ideas she shows us how forests can not only heal us but save the planet When Diana Beresford Kroeger whose father was a member of the Anglo Irish aristocracy and whose mother was an O'Donoghue one of the stronghold families who carried on the ancient Celtic traditions was orphaned as a child she could have been sent to the Magdalene Laundries Instead the O'Donoghue elders most of them scholars and freehold farmers in the Lisheens valley in County Cork took her under their wing Diana became the last ward under the Brehon Law Over the course of three summers she was taught the ways of the Celtic triad of mind body and soul This included the philosophy of healing the laws of the trees Brehon wisdom and the Ogham alphabet all of it rooted in a vision of nature that saw trees and forests as fundamental to human survival and spirituality Already a precociously gifted scholar Diana found that her grounding in the ancient ways led her to fresh scientific concepts Out of that huge and holistic vision have come the observations that put her at the forefront of her field the discovery of mother trees at the heart of a forest the fact that trees are a living library have a chemical language and communicate in a quantum world the major idea that trees heal living creatures through the aerosols they release and that they carry a great wealth of natural antibiotics and other healing substances and perhaps most significantly that planting trees can actively regulate the atmosphere and the oceans and even stabilize our climate This book is not only the story of a remarkable scientist and her ideas it harvests all of her powerful knowledge about why trees matter and why trees are a viable achievable solution to climate change Diana eloquently shows us that if we can understand the intricate ways in which the health and welfare of every living creature is connected to the global forest and strengthen those connections we will still have time to mend the self-destructive ways that are leading to drastic fires droughts and floods
