Watson's Really Big Wwii Almanac Patrick Watson, 2007-12-11 Named as the North American Book Exchanges winner of the 2008 Pinnacle Book Achievement Award in the Reference category this book is laid out like a calendar containing information pertaining to World War II. In going to a specific date you will find it divided by area i.e. Western Europe North America etc. Those areas are further divided by year. What makes it unique is that those years range from the 1800s to the present day. The information includes everything from actual battles to the final fate of a favorite ship to the activities of movie stars during the war. It covers the first six months of the year. Volume Two takes care of the last six months.

**Fighters and Bombers of World War II ,      An Air Power Bibliography** Raymond Estep, 1956      **The Army Air Forces in World War II, Volume Six: Men and Planes ,      West Point History of World War II, Vol. 2** The United States Military Academy, 2016-11-08 The definitive must have military history of World War II spanning 1942 until the end of the war packed with the same expert analysis exclusive tactical maps unique graphics and historical images used by The United States Military Academy at West Point to teach the art of war to its own cadets. Since its founding West Point has taught its cadets the history of warfare and since 1847 it has done so through a singular text. The West Point History of Warfare. That text has been updated repeatedly and now through a unique partnership with West Point graduates. The West Point History of Warfare has been completely rewritten. Volume 1 concluded with the midpoint of World War II in 1942 which is where this latest edition begins covering all aspects of the war in chapters such as Strategic Seapower and Airpower by Richard J. Overy. The Defeat of Japan by Robert W. Love Jr. The Allies Turn the Tide by Robert M. Citino and Occupation Demobilization and Assessing Victory by Steve R. Waddell. As with previous volumes. The West Point History of World War II Volume 2 boasts rich full color illustrations with unique tactical maps created by expert cartographers in collaboration with West Point's military historians as well as dozens of graphics uniquely created for this volume and hundreds of historical images many of which are from the West Point archives. Authoritative compelling a goldmine for history lovers this essential resource belongs in the library of every serious student of World War II.      **Air University Library Index to Military Periodicals ,** 1969

**Special Operations Consolidated B-24 Liberators** William Wolf, 2025-08-05 For anyone interested in the B 24 and some of its more unusual applications details that most books gloss over and in some interesting tales of little known aspects of the air war this is certainly a book to read and read closely. The Journal of the Air Force Historical Foundation. Despite being America's most produced bomber the Consolidated B 24 Liberator has forever flown in the shadow of its more famous and glamorous B 17 rival. The workmanlike B 24 performed multiple unheralded roles in all theatres beyond its also multiple offensive missions making it the war's most versatile heavy bomber. Besides its offensive bombing anti submarine and mining missions the Liberator performed many little known inoffensive duties. Undoubtedly the most colorful of all Liberators were the so called assembly ships of the Groups of the 2nd Air Division. Their unique paint schemes of stripes polka dots and

checkerboard were designed to make them ultra conspicuous for their task of acting as leaders on which a Group formation could assemble their combat formations more quickly for a combat mission The Consolidated F 7 was a photographic reconnaissance version of the B 24 Liberator The F 7 saw service in most theatres of the war The long range of the Liberator also made it well suited to mapping missions during the war and post war Beginning in early 1944 to aid the Allied liberation of Europe Carpetbagger B 24s were utilized to parachute spies called Joes or Janes or provide aerial supply of weapons and other material to resistance fighters in occupied Europe Liberators also participated in the dropping of 2.75 billion propaganda leaflets using various techniques and delivery devices Electronic Warfare played an important part in Allied global pre invasion plans to discover the location of enemy radars and if possible destroy them This interception and analysis of an enemy electronic radiation was the origin of present day ELINT Electronic Intelligence Modified RAF B 24D Airborne Electronic Reconnaissance Liberators codenamed Ferret were Radio Counter Measures and Electronic Intelligence aircraft that played a major role in European air operations During 1942 the AAF became interested in aerial refueling as a means to bombing Japan A shorter range B 17E was selected as the receiver aircraft while the more spacious B 24D acted as the tanker Although these tests were considered to be successful the availability of longer ranging B 29s and bases ever closer to Japan diminished the urgency of wartime aerial refueling During the war eighty three B 24s crashed or made forced landings in Switzerland sixty in Sweden and several in Russia Spain Portugal and Turkey Many of these Liberators landed undamaged or were repaired to be flown by these nations Of particular interest are the six Liberators that were captured and flown by the Luftwaffe Packed with a unique collection of photographs Special Operations Consolidated B 24 Liberators reveals the most unusual and little known facets of the Second World War's most versatile bomber

West Point History of World War II, Vol. 1 The United States Military Academy, 2015-11-03 An outstanding new military history of the first half of World War II featuring a rich array of images exclusive graphics superb new maps and expert analysis commissioned by the United States Military Academy to teach the art of war to West Point cadets Since 1836 United States Military Academy texts have been the gold standard for teaching military history and the operational art of war Now the USMA has developed a new military history series for the public featuring the story of World War II in two volumes of which this is the first The West Point History of World War II combines the expertise of preeminent historians with hundreds of maps and images many created for this volume or selected from Army collections The first volume offers a balanced narrative analyzing the rising tide of Axis conquest from 1939 to mid 1942 ranging from battlefield decisions to operational and strategic plans all set in their proper political context The closing chapter provides a thematic treatment of the mobilization of the warring nations economies and home fronts for the conduct of total war The West Point History of World War II has been tested checked and polished by West Point cadets faculty and graduates to make this the best military history of its kind

**The Army Air Forces in World War II, Volume One: Plans and Early Operations, January 1939 to August 1942** , *Royal Air Force Quarterly and*

*Commonwealth Air Forces Journal* ,1949      **The North African Air Campaign** Christopher M. Rein,2012-11-30 In the summer of 1942 Axis forces controlled almost the entire southern shore of the Mediterranean Less than a year later they had been swept from the African continent thanks in no small part to efforts of the fledgling U S Army Air Force Indeed USAAF in North Africa emerged as a senior partner in the Alliance supplying aircraft and crews at a rate the other partners were unable to match Going beyond the spare analysis of North African air operations in previous accounts Christopher Rein shows how American fighter planes and heavy bombers employed in almost exclusively tactical and operational roles played a pivotal role in the Alliance s successful ground campaigns This aerial armada also had a significant negative impact on enemy logistics through its bombing raids on Axis ports shipping and airfields In the process USAAF helped foster and develop a pattern of inter service cooperation that remains at the foundation of American close air support doctrine today Rein chronicles the emergence of USAAF in the late interwar and early WWII periods as a more heterogeneous and creative fighting force than earlier works have led us to believe He then analyzes little known aspects of the war including early air operations in the eastern Mediterranean and in the TORCH landings He explores some of the key issues confronting Eisenhower such as how to establish USAAF priorities and how to deploy long range bombers fighters and attack forces In describing the struggle for balance in the employment of air assets between strategic bombing and interdiction in a time fraught with inter service rivalry he shows how despite occasional mistakes such as the heavy losses involved in the Ploesti raids USAAF struck a suitable balance and even invested more assets in interdiction than traditional accounts of strategic bombardment would suggest A virtual operational level history of the USAAF during the formative period of American airpower Rein s account pulls together material from diverse sources to demonstrate that today s Air Force emphasis on mobility intelligence reconnaissance and close support for ground forces have deep roots By showing that the Army Air Force in World War II did not neglect support for ground and naval forces in order to concentrate exclusively on strategic bombing it suggests lessons for military and civilian leaders in the employment of air forces in current and future conflicts      **Fifth Air Force Light and Medium Bomber Operations During 1942 and 1943: Building the Doctrine and Forces That Triumphed in the Battle of the Bismarck Sea and the Wewak Raid** ,      World War II Spencer C. Tucker,2016-09-06 With more than 1 700 cross referenced entries covering every aspect of World War II the events and developments of the era and myriad related subjects as well as a documents volume this is the most comprehensive reference work available on the war This encyclopedia represents a single source of authoritative information on World War II that provides accessible coverage of the causes course and consequences of the war Its introductory overview essays and cross referenced A Z entries explain how various sources of friction culminated in a second worldwide conflict document the events of the war and why individual battles were won and lost and identify numerous ways the war has permanently changed the world The coverage addresses the individuals campaigns battles key weapons systems strategic decisions and technological developments of the

conflict as well as the diplomatic economic and cultural aspects of World War II The five volume set provides comprehensive information that gives readers insight into the reasons for the war s direction and outcome Readers will understand the motivations behind Japan s decision to attack the United States appreciate how the concentration of German military resources on the Eastern Front affected the war s outcome understand the major strategic decisions of the war and the factors behind them grasp how the Second Sino Japanese War contributed to the start of World War II and see the direct impact of new military technology on the outcomes of the battles during the conflict The lengthy documents volume represents a valuable repository of additional information for student research

American Military History, Vol. 2, The United States Army in a Global Era, 1917--2003, 2005 ,2006 Luftwaffe Viermot Aces 1942-45 Robert Forsyth,2022-09-15 A full account of the German airmen who achieved ace status by destroying Allied bombers Viermot Aces were pilots who shot down five or more USAAF and RAF bombers during the daylight Defence of the Reich missions from May 1942 through to VE Day This book tells the complete story of the men and the planes that challenged the great bomber offensive Flying a number of different aircraft including the Bf 110G Me 210 and the Me 410 they fought their desperate battles against the numerous machine guns of B 17s and Lancasters This book also covers the jet aces that flew the Me 262 jet powered interceptors in the closing days of the war to wage a desperate last ditch fight against the endless Allied bomber fleets

*Collision of Empires* A. D. Harvey,1992-01-01 The only previous war to match the world wars of the twentieth century in scale and impact was the French War of 1793 1815 This book is the first book to compare these conflicts which together shaped the history of the modern world A D Harvey relates the causes conduct and outcome of these wars to the fundamental nature of the societies which fought them Political decisions economic power and social attitudes interfaced with the demands of military technology to determine the outcome of each case Britain is the centre of focus but is seen against a background of the other combatants Harvey s ability to make large scale generalisations is backed up by a wealth of fascinating and carefully documented detail making this outstanding and exceptionally well written book a pleasure to read The author has tackled a huge subject and has not been afraid to face up to either its complexities or its implications By asking new questions and using a range of unfamiliar sources this book provides an unusually profound analysis not only of these wars but also of the nature of modern society and of our understanding of the past

*An Aerospace Bibliography* Raymond Estep,1962 *Lectures of the Air Corps Tactical School and American Strategic Bombing in World War II* Phil Haun,2019-04-12 Following the cataclysmic losses suffered in World War I air power theorists in Europe advocated for long range bombers to overfly the trenches and strike deep into the enemy s heartland The bombing of cities was seen as a means to collapse the enemy s will to resist and bring the war to a quick end In the United States airmen called for an independent air force but with the nation s return to isolationism there was little appetite for an offensive air power doctrine By the 1930s however a cadre of officers at the US Army Air Corps Tactical School ACTS had articulated an operational concept of high

altitude daylight precision bombing HADPB that would be the foundation for a uniquely American vision of strategic air attack In Lectures of the Air Corps Tactical School and American Strategic Bombing in World War II editor Phil Haun brings together nine ACTS lecture transcripts which have been preserved in Air Force archives exactly as delivered to the airmen destined to lead the US Army Air Forces in World War II Presented is a distinctive American strategy of high altitude daylight precision bombing as told through lectures given at the ACTS during the interwar period and how these airmen put the theory to the test The book examines the Air Corps theory of HADPB as compared to the reality of combat in World War II by relying on recent revisionist histories that have given scholars a deeper understanding of the impact of strategic bombing on Germany     *Battle of Berlin 1943-44* Richard Worrall, 2019-09-19 This illustrated study explores in detail the controversial Battle of Berlin RAF Bomber Command's costly brutal attempt to prove that strategic bombing alone could bring an end to World War II Throughout late 1943 into early 1944 an epic struggle raged over the skies of Germany between RAF Bomber Command and the Luftwaffe This campaign had been undertaken by the Commander in Chief Bomber Command Air Chief Marshal Sir Arthur Harris and was baptized The Battle of Berlin The Berlin campaign was a hard desperate slog Struggling against dreadful and bitter winter weather Bomber Command went to Berlin a total of sixteen times suffering increasingly severe losses throughout the winter of 1943-44 in the face of a revitalized German air defence The campaign remains controversial and the jury even today is ultimately undecided as to what it realistically achieved Illustrated throughout with full colour artwork depicting the enormous scale of the campaign this is the story of the RAF's much debated attempt to win the war through bombing alone     *An Aerospace Bibliography* Air University (U.S.). Aerospace Studies Institute. Documentary Research Division, 1965
