Royal Crimes:

The Hidden Histories of War Crimes Trials Kevin Heller, Gerry Simpson, 2013-10-31 This is an open access title available under the terms of a CC BY NC ND 3.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. Several instances of war crimes trials are familiar to all scholars but in order to advance understanding of the development of international criminal law it is important to provide a full range of evidence from less familiar trials. This book therefore provides an essential resource for a more comprehensive overview uncovering and exploring some of the lesser known war crimes trials that have taken place in a variety of contexts international and domestic northern and southern historic and contemporary. It analyses these trials with a view to recognising institutional innovations clarifying doctrinal debates and identifying their general relevance to contemporary international criminal law. At the same time the book recognises international criminal law's history of suppression or sublimation. What stories has the discipline refused to tell? What stories have been displaced by the ones it has told? Has international criminal law's framing or telling of these stories excluded other possibilities? And perhaps most important of all how can recovering the lost stories and imagining new narrative forms reconfigure the discipline? Many of the trials examined in this book have hardly ever before been discussed others have been examined only in the most cursory manner. Indeed until now no volume has been dedicated to telling the story of these trials that have yet to find a place in the international criminal law canon. Providing a detailed analysis of these trials which took place in Europe Africa South America and Australasia in both historical and contemporary contexts this book is essential reading for anyone concerned with the development of international criminal law.

Crime and Punishment in the Middle Ages and Early Modern Age Albrecht Classen,Connie Scarborough,2012-10-30 All societies are constructed based on specific rules norms and laws Hence all ethics and morality are predicated on perceived right or wrong behavior and much of human culture proves to be the result of a larger discourse on vices and virtues transgression and ideals right and wrong The topics covered in this volume addressing fundamental concerns of the premodern world deal with allegedly criminal or simply wrong behavior which demanded punishment Sometimes this affected whole groups of people such as the innocently persecuted Jews sometimes individuals such as violent and evil princes The issue at stake here embraces all of society since it can only survive if a general framework is observed that is based in some way on justice and peace But literature and the visual arts provide many examples of open and public protests against wrongdoings ill conceived ideas and concepts and stark crimes such as theft rape and murder In fact poetic statements or paintings could carry significant potentials against those who deliberately transgressed moral and ethical norms or who even targeted themselves

Crime, Justice and Public Order in Old Regime France Julius R. Ruff,2015-08-27 This title first published in 1984 is a case study of crime and criminal justice in rural southwestern France in the last century of the Old Regime Based on extensive research in criminal court records often the only documentary evidence of the poor and illiterate the study is a valuable addition both to our knowledge of Old Regime society and to our understanding of its judicial institutions Rural Old Regime France seethed with violence Assault homicide and a violence of speech occurred frequently at all levels of society The author s finding that royal fiscal and judicial officials were recurring targets of this violence additionally contributes to our understanding of the revolutionary events ending the Old Regime This system providing in principle for judicial torture and corporal and capital punishments for relatively minor crimes has long epitomized much that was wrong with pre revolutionary France But the law in principle is not the law in practice and the author finds that both local and appeals courts seldom decreed such measures This book will be of interest to students of history and criminology

Community-Making in Early Stuart Theatres Anthony W. Johnson,Roger D. Sell,Helen Wilcox,2016-10-14 Twenty two leading experts on early modern drama collaborate in this volume to explore three closely interconnected research questions To what extent did playwrights represent dramatis personae in their entertainments as forming or failing to form communal groupings How far were theatrical productions likely to weld or separate different communal groupings within their target audiences And how might such bondings or oppositions among spectators have tallied with the community making or breaking on stage Chapters in Part One respond to one or more of these questions by reassessing general period trends in censorship theatre attendance forms of patronage playwrights professional and linguistic networks their use of music and their handling of ethical controversies In Part Two responses arise from detailed re examinations of particular plays by Shakespeare Chapman Jonson Beaumont and Fletcher Cary Webster Middleton Massinger Ford and Shirley Both Parts cover a full range of early Stuart theatre settings from the public and popular to the more private circumstances of hall playhouses court masques women s drama country house theatricals and school plays And one overall finding is that although playwrights frequently staged or alluded to communal conflict they seldom exacerbated such divisiveness within their

audience Rather they tended toward more tactful modes of address sometimes even acknowledging their own ideological uncertainties so that at least for the duration of a play their audiences could be a community within which internal rifts were openly brought into dialogue

The Quarterly Review William Gifford, Sir John Taylor Coleridge, John Gibson Lockhart, Whitwell Elwin, William Macpherson, William Smith, Sir John Murray IV, Rowland Edmund Prothero (Baron Ernle), 1845 The Quarterly Review (London), 1820 "The" Quarterly Review, 1820 **The London and Westminster Review**, 1840 **The Westminster Review**, 1840 *The Official History of Criminal Justice in England and Wales* Paul Rock, 2019-04-30 Volume II of The Official History of Criminal Justice in England and Wales traces for the first time the genesis and early evolution of two principal institutions in the criminal justice system the Crown Court and the Crown Prosecution Service This volume examines the origins and shaping of two critical institutions the Crown Court which rose from the ashes of the Courts of Assize and Quarter Sessions and the Crown Prosecution Service which replaced a rather haphazard system of police prosecuting solicitors The 1971 Courts Act and the 1985 Prosecution of Offences Act were to reconfigure the architecture of criminal justice transforming the procedures by which people were charged prosecuted and in the weightier cases demanding a judge and jury tried in the criminal courts of England and Wales One stemmed from a crisis in a medieval system of travelling justices that tried people in the wrong places and for inadequate lengths of time The other was precipitated by a scandal in which three men were wrongly convicted for the murder of a bisexual prostitute Theirs is an as yet untold history that can be explored in depth because it is recent enough in the words of Harold Wilson to have been written while the official records could still be supplemented by reference to the personal recollections of the public men who were involved This book will be of much interest to students of criminology and British history politics and law
