The Royal Hordes Eustace Dockray Phillips,1965 *Royal Hordes Nomad Peoples of the Steppes (library of the Early Civilisations).* Bib E. D. PHILLIPS,1965 **Nomadic Art of the Eastern Eurasian Steppes** Emma C. Bunker,James C. Y. Watt,Zhixin Sun,2002 This fascinating book examines the artistic exchange between the nomadic peoples of what is now Inner Mongolia and their settled Chinese neighbors during the first millennium B C Understanding War Christian P. Potholm,2016-08-03 The third book in Professor Christian Potholm s war trilogy which includes *Winning at War* and *War Wisdom* *Understanding War* provides a most workable bibliography dealing with the vast literature on war and warfare As such it provides insights into over 3000 works on this overwhelmingly extensive material *Understanding War* is thus the most comprehensive annotated bibliography available today Moreover by dividing war material into eighteen overarching themes of analysis and fifty seminal topics and focusing on these *Understanding War* enables the reader to access and understand the broadest possible array of materials across both time and space beginning with the earliest forms of warfare and concluding with the contemporary situation Stimulating and thought provoking this volume is essential for an understanding of the breadth and depth of the vast scholarship dealing with war and warfare through human history and across cultures

By Steppe, Desert, and Ocean Barry Cunliffe,2015-09-24 *By Steppe Desert and Ocean* is nothing less than the story of how humans first started building the globalized world we know today Set on a huge continental stage from Europe to China it is a tale covering over 10 000 years from the origins of farming around 9000 BC to the expansion of the Mongols in the thirteenth century AD An unashamedly big history it charts the development of European Near Eastern and Chinese civilizations and the growing links between them by way of the Indian Ocean the silk Roads and the great steppe corridor which crucially allowed horse riders to travel from Mongolia to the Great Hungarian Plain within a year Along the way it is also the story of the rise and fall of empires the development of maritime trade and the shattering impact of predatory nomads on their urban neighbours Above all as this immense historical panorama unfolds we begin to see in clearer focus those basic underlying factors the acquisitive nature of humanity the differing environments in which people live and the dislocating effect of even slight climatic variation which have driven change throughout the ages and which help us better understand our world today **Redefining Politics** Adrian Leftwich,2013-04-15 This book challenges conventional conceptions of politics which focus largely on the institutions of government and the associated struggles for power around them It argues that politics is involved in all the activities of cooperation and conflict whereby people organize the use production and distribution of human natural and material resources Found in all human groups institutions and societies politics everywhere influences and reflects the structures of power social organization culture and ideology These central themes are illustrated by drawing on a wide range of societies including the Kung hunter gatherers the pre Columbian Aztecs and the Pastoral Maasai as well as modern Britain and Third World societies from Chile to China Other examples of village

communities a typical university department and the World Bank show how institutions may also be analyzed in terms of the definition of politics used here It is equally central to the argument that many of the most critical problems occurring in societies can be attributed to their politics and this theme is explored looking at such problems as poverty famines epidemics violence and unemployment in Britain and throughout the world *Medieval Ethnographies* Joan-Pau Rubies,2017-05-15 From the twelfth century a growing sense of cultural confidence in the Latin West at the same time that the central lands of Islam suffered from numerous waves of conquest and devastation was accompanied by the increasing importance of the genre of empirical ethnographies From a global perspective what is most distinctive of Europe is the genre's long term impact rather than its mere empirical potential or its ethnocentrism all of which can also be found in China and in Islamic cultures Hence what needs emphasizing is the multiplication of original writings over time their increased circulation and their authoritative status as a scientific discourse The empirical bent was more characteristic of travel accounts than of theological disputations in fact the less elaborate the theological discourse the stronger the ethnographic impulse although many travel writers were clerics This anthology of classic articles in the history of medieval ethnographies illustrates this theme with reference to the contexts and genres of travel writing the transformation of enduring myths ranging from oriental marvels to the virtuous ascetics of India or Prester John the practical expression of particular encounters from the Mongols to the Atlantic and the various attempts to explain cultural differences either through the concept of barbarism or through geography and climate **History of Central Asia, The: 4-volume set** Christoph Baumer,2018-04-18 This set includes all four volumes of the critically acclaimed History of Central Asia series The epic plains and arid deserts of Central Asia have witnessed some of the greatest migrations as well as many of the most transformative developments in the history of civilization Christoph Baumer's ambitious four volume treatment of the region charts the 3000 year drama of Scythians and Sarmatians Soviets and transcontinental Silk Roads trade routes and the transmission of ideas across the steppes and the breathless and brutal conquests of Alexander the Great and Chinghiz Khan Masterfully interweaving the stories of individuals and peoples the author's engaging prose is richly augmented throughout by colour photographs taken on his own travels This set includes The Age of the Steppe Warriors Volume 1 The Age of the Silk Roads Volume 2 The Age of Islam and the Mongols Volume 3 and The Age of Decline and Revival Volume 4 **Foes From the Northern Frontier** Edwin M. Yamauchi,2003-04-15 Are there any biblical references to territories in what is today the country of Russia The author's answer is yes but Ezekiel's reference to Rosh and Meshech is not one of them In a thoroughly documented discussion the author describes the Urartians Mannaeans Cimmerians and Scythians Three of these northern foes of Israel are referred to by Jeremiah in 51:27 the Cimmerians by Ezekiel 38:6 with the exception of Egypt writes the author almost all of Israel's enemies came from the north though from the viewpoint of a modern map many of these came ultimately from the east The Urartians occupied what is now Soviet Armenia southeastern Turkey and northwestern Iran The Mannaeans lived south of Lake Urmia

between Urartu and Assyria The Cimmerians first appeared in the steppes north of the Caucasus then crossed the Caucasus and eventually invaded Asia Minor The Scythians were nomadic tribes from the Russian steppes some of whom settled in the Ukraine north of the Black Sea others east of the Caspian But what of Rosh Meshech and other names in Ezekiel 38 2 Is Rosh Russia and Meshech Moscow Rosh cannot possibly be related to Russia insists the author Nor can the terms Gog and Magog no proposed identification for which has yet to win universal consent Meshech and Tubal on the other hand have been located for certain in central and eastern Anatolia

The Archaeology of Power and Politics in Eurasia Charles W. Hartley, G. Bike Yazicioğlu, Adam T. Smith, 2012-11-19 This book brings together archaeological investigations of Eurasian regimes and revolutions ranging from the Bronze Age to the modern day

Facing Each Other (2 Volumes) Anthony Pagden, 2017-09-08 The perception of Europeans of the world and of the peoples beyond Europe has become in recent years the subject of intense scholarly interest and heated debate both in and outside the academy So too has the concern with how it was that those peoples who were variously discovered and then as often as not colonised understood the strangers in their midst This volume attempts to cover both these topics as well as to provide a number of crucial articles on the difficulties faced by modern historians in understanding the complex relationship between them and us Inevitably such relationships not only changed over time they also varied greatly from culture to culture The articles therefore cover most of the areas with which the European world came into contact from the earliest Portuguese incursions into Africa in the mid fifteenth century until the explorations of Cook and Bougainville in the Pacific in the late eighteenth It ranges too from Brazil to Russia from Tahiti to China

The Role of Migration in the History of the Eurasian Steppe NA NA, 2016-04-30 Throughout their entire history the sedentary civilizations of China and Europe had to deal with nomads and barbarians This unique volume explores their drastically different responses China chose containment while Europe chose expansion Migration played a crucial role in this interaction Issuing from two population centers the sedentary one in the West and the nomadic one in the East two powerful population streams confronted each other in the Eurasian Steppe This confrontation was a crucial factor in determining patterns of Eurasian history it destroyed existing states created new ones and drastically changed the balance of power Even today while Russian populations in Asia contract the population pressures in China and Central Asia continue to build and are likely to spill over across the border This book shows how we are witnessing the beginning of a new cycle of the age old contest

Redefining Politics Routledge Library Editions: Political Science Volume 45 Adrian Leftwich, 2013-04-15 This book challenges conventional conceptions of politics which focus largely on the institutions of government and the associated struggles for power around them It argues that politics is involved in all the activities of cooperation and conflict whereby people organize the use production and distribution of human natural and material resources Found in all human groups institutions and societies politics everywhere influences and reflects the structures of power social organization culture and ideology These central themes are illustrated by drawing on a wide range of societies

The Huns, Rome and the Birth of Europe Hyun Jin Kim,2013-04-18 A comparative and interdisciplinary study arguing for a more sophisticated appreciation of the rise of the Hunnic Empire *Eastern Europe!* Tomek E. Jankowski,2014-05-20 Eastern Europe is a brief and concise but informative introduction to Eastern Europe and its myriad customs and history When the legendary Romulus killed his brother Remus and founded the city of Rome in 753 BCE Plovdiv today the second largest city in Bulgaria was already thousands of years old Indeed London Paris Berlin Vienna Madrid Brussels Amsterdam are all mere infants compared to Plovdiv This is just one of the paradoxes that haunts and defines the New Europe that part of Europe that was freed from Soviet bondage in 1989 which is at once both much older than the modern Atlantic facing power centers of Western Europe while also being in some ways much younger than them Even those knowledgeable about Western Europe often see Eastern Europe as terra incognita with a sign on the border declaring Here be monsters This book is a gateway to understanding both what unites and separates Eastern Europeans from their Western brethren and how this vital region has been shaped by but has also left its mark on Western Europe Central Asia the Middle East and North Africa Ideal for students businesspeople and those who simply want to know more about where Grandma or Grandpa came from Eastern Europe is a user friendly guide to a region that is all too often mischaracterized as remote insular and superstitious Illustrations throughout include 40 photos 40 maps and 40 figures tables charts etc From the Trade Paperback edition
