## **Royal Navy Seapower And Strategy Between The Wars:**

*The Royal Navy, Seapower and Strategy between the Wars* C. Bell, 2000-08-02 This revisionist study shows how the Royal Navy's ideas about the meaning and application of seapower shaped its policies during the years between the wars. It examines the navy's ongoing struggle with the Treasury for funds, the real meaning of the one power standard naval strategies for war with the United States, Japan, Germany and Italy, the influence of Mahan, the role of the navy in peacetime and the use of propaganda to influence the British public.

*The Royal Navy, Seapower and Strategy Between the Wars* Christopher M. Bell, 2000 This is the first study to show how the Royal Navy's ideas about the meaning and application of seapower shaped its policies in the interwar period. It challenges the accepted view that the shortcomings of Britain's naval leaders resulted in poor strategic planning and an inability to meet the challenges of World War II.

**The Royal Navy's Home Fleet in World War 2** J. Levy, 2003-10-23 This book marks the first comprehensive history of Britain's naval bulwark, the Home Fleet. It illuminates the vital role that fleet played in preserving Britain as a base of operations against Hitler. We see portrayed the hard days of blockade patrol and battle that encompassed the Home Fleet's war. And we see how that war was made harder by weaknesses at the Admiralty and by the damaging interference of the Minister of Defence Winston Churchill.

Seapower Geoffrey Till, 2013-02-21 This is the third revised and fully updated edition of Geoffrey Till's *Seapower: A Guide for the 21st Century*. The rise of the Chinese and other Asian navies, worsening quarrels over maritime jurisdiction and the United States maritime pivot towards the Asia Pacific region reminds us that the sea has always been central to human development as a source of resources and as a means of transportation, information exchange and strategic dominion. It has provided the basis for mankind's prosperity and security and this is even more true in the early 21st century with the emergence of an increasingly globalized world trading system. Navies have always provided a way of policing and sometimes exploiting the system. In contemporary conditions, navies and other forms of maritime power are having to adapt in order to exert the maximum power ashore in the company of others and to expand the range of their interests, activities and responsibilities. While these new tasks are developing, fast traditional ones still predominate. Deterrence remains the first duty of today's navies, backed up by the need to fight and win if necessary. How navies and their states balance these two imperatives will tell us a great deal about our future in this increasingly maritime century. This book investigates the consequences of all this for the developing nature, composition and functions of all the world's significant navies and provides a guide for anyone interested in the changing and crucial role of seapower in the 21st century. *Seapower* is essential reading for all students of naval power, maritime security and naval history and highly recommended for students of strategic studies, international security and International Relations.

*The Royal Navy* Duncan Redford, Philip D. Grove, 2014-03-27 Since 1900 the Royal Navy has seen vast changes to the way it operates. This book tells the story not just of defeats and victories but also of how the navy has adjusted to over 100 years of rapid technological and social change. The navy has changed almost beyond

recognition since the far reaching reforms made by Admiral Fisher at the turn of the century Fisher radically overhauled the fleet replacing the nineteenth century wooden crafts with the latest in modern naval technology including battleships such as the iconic dreadnoughts aircraft carriers and submarines In World War I and World War II the navy played a central role especially as unrestricted submarine warfare and supply blockades became an integral part of twentieth century combat However it was the development of nuclear and missile technology during the Cold War era which drastically changed the face of naval warfare today the navy can launch sea based strikes across thousands of miles to reach targets deep inland This book navigates the cross currents of over 100 years of British naval history As well as operational issues the authors also consider the symbolism attached to the navy in popular culture and the way naval personnel have been treated looking at the changes in on board life and service during the period as well as the role of women in the navy In addition to providing full coverage of the Royal Navy s wartime operations the authors also consider the functions of the navy in periods of nominal peace including disaster relief diplomacy and exercises Even in peacetime the Royal Navy had a substantial role to play Covering the whole span of naval history from 1900 to the present this book places the wars and battles fought by the navy within a wider context looking at domestic politics economic issues and international affairs It will be essential reading for anyone interested in naval history and operations as well as military history more generally

#### Sea Power and the Asia-Pacific Geoffrey Till, Patrick

Bratton, 2012-02-07 With particular focus on the Asia Pacific region this book examines the rise and fall of sea powers In the Asia Pacific region there has been significant expansion of sea based economies together with burgeoning naval power Many claim that these processes will transform the world s future economic and security relationships The book addresses the question of to what extent the notion of Asia rising is reflected by and dependent on its developing sea power A central theme is the Chinese challenge to long term Western maritime ascendancy and what might be the consequences of this In order to situate current and future developments this book includes chapters which analyse what sea power means and has meant as well as its role both historic and contemporary in the rise and fall of great powers This book will be of much interest to students of naval power Asian politics strategic studies war and conflict studies IR and security studies

#### **The British**

**Defence of Egypt, 1935-40** Steve Morewood, 2004-11-25 A comprehensive and challenging analysis of the British defence of Egypt primarily against fascist Italy in the critical lead up period to the Second World War Culminating in the decisive defeat of the Italian military threat at Sidi Barrani in December 1940 this is a fascinating new contribution to the field The security of Egypt a constant of British imperial strategy is a curiously neglected dimension of the still burning appeasement debate Steven Morewood adds to the originality of his interpretation by suggesting the old view should be reinstated that Mussolini should and could have been stopped in his empire building at the Abyssinian hurdle Thereafter as Nazi Germany

tore the Versailles peace settlement to shreds the drift to war accelerated as British resolve and credibility were brought into question The fascist dictators in Rome and Berlin held no respect for weakness and Mussolini became the conduit through which Hitler could apply pressure to a sensitive British interest through reinforcing Libya at critical moments

**A Hard Fought Ship** John A Rodgaard,2024-06-30 Here is the exhaustive and exhilarating story of HMS Venomous one of sixty seven V W destroyers built at the end of the Great War that were to play a key role in the struggle to keep the sea lanes open in the Atlantic Home Waters and the Mediterranean during the following war Her story was perhaps the most memorable of all her class When war broke out she was to find herself in the front line as the German blitzkrieg swept across Europe in 1940 and the V Ws made high speed dashes across the Channel to bring troops and civilians back from Calais Boulogne and Dunkirk and prepared for the expected invasion Later that year she and her sister ships escorted the Atlantic convoys which supplied our Russian allies with the weapons to halt the German advance She returned to the Mediterranean and took part in Operation Pedestal to save Malta and as the allies prepared for the landings in North Africa she was ordered to escort the destroyer depot ship HMS Hecla to the invasion beaches When Hecla was torpedoed off the coast off Morocco Venomous fought the attacking U boat and rescued 500 survivors She escorted convoys along the coast of North Africa including the first through convoy from Gibraltar to Alexandria and she joined the invasion force to Sicily during Operation Husky In October 1943 she returned to Britain for a major refit at Falmouth when she was converted to an air target ship for training Barracuda torpedo bombers based at Douglas Isle of Man and then after being transferred to the east coast she was nearly lost in a hurricane before being sent to Kristiansand to accept the surrender of German naval forces Venomous and her sister ships were all scrapped after the War but her extraordinary career during which she fought without cessation is brought to life in this rousing and beautifully told ship biography a fitting memorial to the V Ws and the men who served in them I would rate this as being in the same class as The Cruel Sea for a picture of small ship life in World War Two The Naval Review A portrayal of life on a wartime destroyer with a depth and insight that is possible unequalled by any previously published work Warship Annual This book is outstanding for its detailed insight into the life on not just a single destroyer but by extension life at sea aboard and Royal Navy destroyer The Northern Mariner A Hard Fought Ship is a vivid portrait of a fighting vessel and the men who operated her Warships International Fleet Review Highly recommended to both naval historians and the general public Mariner s Mirror It is an exemplary ship biography where a detailed narrative of the destroyer s exploits are brought to life by a wealth of first hand accounts Navy News This book is a detailed and thrilling account of the life of a typical V W class destroyer Sea Breezes

McKercher, Antoine Capet, 2019-01-24 Although remembered and even lauded in the public mind as the British prime minister during the Second World War who played a major role in Allied victory over the Axis Powers and Japan Winston Churchill had a life and political career before 1939 conditioned by fighting other wars and in peacetime thinking about war While historians debate his achievements and failures between 1939 and 1945 a less explored dimension is Churchill's earlier connexion with war and warfare This book explores Churchill's earlier experience in fighting wars as a soldier and politician **The Logistics and Politics of the British Campaigns in the Middle East, 1914-22** Kristian Coates Ulrichsen, 2010-10-14 An examination of how the logistical demands of the British military campaigns in Palestine and Mesopotamia led to a more intrusive and authoritarian form of imperial control in 1917-18 This early example of Western military intervention in the Middle East provoked a localized backlash in 1919-20 whose effects continue to be felt today *The Greater War* Jonathan Kraus, 2014-10-31 The Greater War is an international history of the First World War Comprising of thirteen chapters this collection of essays covers new aspects of the French German Italian and American efforts in the First World War as well as aspects of Britain's colonial campaigns *A Companion to World War II* Thomas W. Zeiler, Daniel M. DuBois, 2012-12-21 A Companion to World War II brings together a series of fresh academic perspectives on World War II exploring the many cultural social and political contexts of the war Essay topics range from American anti-Semitism to the experiences of French African soldiers providing nearly 60 new

Jackson,2001-08-08 By examining Mauritius and the Indian Ocean this unique synthesis of imperial and naval military history reveals the depths of colonial involvement in the Second World War and the role of colonies in British strategic planning from the eighteenth century In the century of total war the British Empire was fully mobilized The Mauritian home front became regimented troops were recruited for service overseas the Eastern fleet guarded the Indian Ocean and Mauritius became a base for SOE operations and intelligence gathering for Bletchley *Imperial Defence* Greg Kennedy,2007-11-21 This new collection of essays from leading British and Canadian scholars presents an excellent insight into the strategic thinking of the British Empire It defines the main areas of the strategic decision making process that was known as Imperial Defence The theme is one of imperial defence and defence of empire so chapters will be historiographical in nature discussing the major features of each key component of imperial defence areas of agreement and disagreement in the existing literature on critical interpretations introducing key individuals and positions and commenting on the appropriateness of existing studies as well as identifying a raft of new directions for future research
