Helena Wulff, 2020-05-18 This absorbing book is ballet's biography a revealing examination of a closed world its competition and camaraderie sexual politics intimacies pressures and not least of all its magic Ballet companies have endeavoured to hide what is going on backstage lest the reality of highly strung nerves constant fatigue and pain from injuries tarnish the illusion of ethereal figures and seemingly weightless steps in polished performances But the audience's perceptions of fairy tale worlds onstage are far removed from the experiences of the dancers themselves The author who trained to be a dancer has been given an entrance to this private world that few outsiders ever see Books on ballet tend to focus on performance In contrast this book which draws on extensive fieldwork with major companies such as London's Royal Ballet the American Ballet Theatre in New York the Royal Swedish Ballet and the Ballet Frankfurt is about dancers how their careers are made and unmade and what happens in dance companies offstage Anyone interested in the culture of ballet or the theatre as well as students of anthropology dance performance and cultural studies will want to read what really goes on when the curtain comes down      **Swedish Ballet and Dance** Horace Engdahl, 1992      **Nordic Dance Spaces** Petri Hoppu, 2016-05-06  
Dance has been connected to the practices and ideologies that have shaped notions of a Nordic region for more than a century and it is ingrained into the culture and society of the region This book investigates different dance phenomena that have either engaged with or dismantled notions of Nordicness Looking to the motion of dancers and dance forms between different locations organizations and networks of individuals its authors discuss social dancing as well as historical processes associated with collaborations in folk dance and theatre dance They consider how similarities and differences between the Nordic countries may be discerned for instance in patterns of reception at the arrival of dance forms from outside the Nordic countries and vice versa how dance from the Nordic countries is received in other parts of the world as seen for example in the Nordic Cool Festival at the Kennedy Centre in 2013 The book opens a rare window into Nordic culture seen through the prism of dance While it grants the reader new insights into the critical role of dance in the formation and imagining of a region it also raises questions about the interplay between dance practices and politics      **Revealing the Inner Contours of Human Emotion** Christine Neal, 2023-05-16 Antony Tudor stands as one of the pillars of twentieth century ballet choreography An English born choreographer who found a home in the United States Tudor gained renown as the most

innovative choreographer of his day He explored the inner contours of human emotion as he sculpted one act short stories about ordinary men and women Based on a series of interviews with the curators of the Tudor legacy Sally Bliss Trustee of the Antony Tudor Ballet Trust and four of the Répétiteurs the professionals tasked with restaging the Tudor ballets this book discusses the legacy of Antony Tudor and the restaging of his ballets to preserve their unique qualities that make them Tudor ballets

**Shifting Grounds** Ina-Maria Greverus, 2003 This 11th issue of the Anthropological Journal on European Cultures is dedicated to presenting ongoing and recent innovative ethnographic work on Europe Prompted by relentless social political and cultural reconfigurations on the ground the issue seeks to explore the challenges that these pose to ethnographic fundamentals In doing so it takes a broad and inclusive approach to what constitutes ethnography considering questions of theory and practice in and beyond the field and provocatively reflecting on what constitutes the field itself Fundamentals that are put under the Spotlight in the volume are place and space history and time disciplinarity relationships between ethnographic and other sites and modes of expertise and forms of representation and reception All of these as we show are in a state of movement they are all destabilised by ongoing change within the world and within anthropology itself A challenge for contemporary ethnography is to find ways of work

[Knowing How to Know](#) Narmala Halstead, Eric Hirsch, Judith Okely, 2008-04-01 This volume examines some crucial issues in the conduct of fieldwork and ethnography and provides new insights into the problems of constructing anthropological knowledge How is anthropological knowledge created from fieldwork whose knowledge is this who determines what is of significance in any ethnographic context and how is the fieldsite extended in both time and place Nine anthropologists examine these problems drawing on diverse case studies These range from the dilemmas of the religious refashioning of the ethnographer in contemporary Indonesia to the embodied knowledge of ballet performers and from ignorance about post colonial ritual innovations by the anthropologist in highland Papua to the skilled visions of slow food producers in Italy It is a key text for new fieldworkers as much as for established researchers The anthropological insights developed here are of interdisciplinary relevance cultural

studies scholars sociologists and historians will be as interested as anthropologists in this re evaluation of fieldwork and the project of ethnography     **Jerome Robbins** Deborah Jowitt, Jerome Robbins, 2004 Chronicles the life of American ballet choreographer Jerome Robbins discussing his career and private life his Russian Jewish heritage and his impact on dance and theater     **Constructing the Field** Vered Amit, 2003-12-16 Ethnographic fieldwork is traditionally seen as what distinguishes social and cultural anthropology from the other social sciences This collection responds to the intensifying scrutiny of fieldwork in recent years It challenges the idea of the necessity for the total immersion of the ethnographer in the field and for the clear separation of professional and personal areas of activity The very existence of the field as an entity separate from everyday life is questioned Fresh perspectives on contemporary fieldwork are provided by diverse case studies from across North America and Europe These contributions give a thorough appraisal of what fieldwork is and should be and an extra dimension is added through fascinating accounts of the personal experiences of anthropologists in the field
