Science Under Siege How The Environmental Misinformation Campaign Is Affecting Our Laws:

Science Under Siege Michael Fumento, 1993 A conservative scientist and journalist explodes the media hype surrounding such perceived threats as Alar Agent Orange dioxin and food irradiation in this provocative hard hitting defense of modern technology He exposes the political intrigues and agenda that have led to the media's one sided reportage of everything from video terminal fallout to Love Canal

Human and Ecological Risk Assessment Dennis J. Paustenbach, 2024-04-15 Understand the fundamentals of human risk assessment with this introduction and reference Human risk assessments are a precondition for virtually all industrial action or environmental regulation all the more essential in a world where chemical and environmental hazards are becoming more abundant These documents catalog potential environmental toxicological ecological or other harms resulting from a particular hazard from chemical spills to construction projects to dangerous workplaces They turn on a number of variables of which the most significant is the degree of human exposure to the hazardous agent or process Human and Ecological Risk Assessment combines the virtues of a textbook and reference work to introduce and analyze these vital documents Beginning with the foundational theory of human health risk assessment it then supplies case studies and detailed analysis illustrating the practice of producing risk assessment documents Fully updated and authored by leading authorities in the field the result is an indispensable work Readers of the second edition of Human and Ecological Risk Assessment will also find Over 40 entirely new case studies reflecting the latest in risk assessment practice Detailed discussion of hazards including air emissions contaminated food and soil hazardous waste sites and many more Case studies from multiple countries to reflect diverse international standards Human and Ecological Risk Assessment is ideal for professionals and advanced graduate students in toxicology industrial hygiene occupational medicine environmental science and all related subjects

Environmental Skepticism Peter J. Jacques, 2016-05-06 Environmental skepticism describes the viewpoint that major environmental problems are either unreal or unimportant In other words environmental skepticism holds that environmental problems especially global ones are inauthentic Peter Jacques describes both empirically and historically how environmental skepticism has been organized by mostly US based conservative think tanks as an anti environmental counter movement This is the first book to analyze the importance of the US conservative counter movement in world politics and its meaning for democratic and accountable deliberation as well as its importance as a mal adaptive project that hinders the world's people to rise to the challenges of sustainability Specific consideration is given to the threat of the counter movement to marginalized people of the world and its philosophical implications through its commitment to a deep anthropocentrism
