

Nightmare Syndrome? Deaths of Laos Refugees Puzzle Officials

By BILL CURRY, Times Staff Writer

PORTLAND, Ore.—In search of freedom, opportunity and a new life, Yong Leng Thao brought his wife and eight young children to America from a Laotian refugee camp in Thailand last July. His search ended last month.

Instead of finding a new life, Yong Leng Thao touched off—with his death—a medical mystery, one that has left this city's and the nation's Hmong tribal communities in

Yong Leng Thao's death would have gone as unremarked as several other Hmong's already had, except that he was the second Hmong in Portland to pass across Dr. Larry V. Lewman's autopsy slab in three days.

And for both Yong Leng Thao and Xiong Tou Xiong, 29, there was no explanation, no suggestion of the cause of death—not even after an autopsy, microscopic examination of tissue, toxicology tests and lengthy interviews with surviving relatives. "Pending," Lewman, the county

coroner said that he had seen no indications of a pattern of death until Minneapolis doctors told him that although they had seen mysterious deaths in the Hmong population, they had not seen any mysteriously.
