The Scole Experiment Grant Solomon, 2006-04 [The Immortalization Commission](#) John Gray, 2025-06-25 A Globe and Mail Best Books of the Year 2011 Title At the heart of human experience lies an obsession with the nature of death Religion for most of history has provided an explanation for human life and a vision of

what comes after it But in the late nineteenth and early twentieth centuries such beliefs came under relentless pressure as new ideas from psychiatry to evolution to communism seemed to suggest that our fate was now in our own hands humans could cease to be animals defeat death and become immortal In *The Immortalization Commission* the acclaimed political philosopher and critic John Gray takes a brilliant and frightening look at humankind's dangerous striving toward a scientific version of immortality Probing the parallel faiths of Bolshevik God builders who sought to reshape the planet and psychical researchers who believed they had evidence of a nonreligious form of life after death Gray raises fascinating questions about how such beliefs threaten the very nature of what it means to be human He looks to philosophers journalists politicians charlatans and mass murderers who all felt driven by a specifically scientific and modern worldview and whose revolt against death resulted in a series of experiments that ravaged whole countries An urgent examination of Darwin's post religious legacy *The Immortalization Commission* is an important work from one of Britain's leading public intellectuals *The Wall Street Journal*

Radical Transformation Imants Barušs, 2021-01-28 In *Radical Transformation* Imants Barušs leads the reader out of the receding materialist paradigm into an emerging post materialist landscape in which new questions present themselves If consciousness has nonlocal properties then how are boundaries between events established If consciousness directly modulates physical manifestation then what is the scope of such modulation If consciousness continues after physical death

then how much interference is there from non physical entities As we face the threat of extinction on this planet is there anything in recent consciousness research that can help us Are there effective means of self transformation that can be used to enter persistent transcendent states of consciousness that could resolve existential and global crises The author leads the reader through discussions of meaning radical transformation and subtle activism revealing the unexpected interplay of consciousness and reality along the way

The Great Big Book of Ghosts Robert J Dornan,2024-07-18 The book you are about to read is a reference book that you can turn to for decades to come I made sure to add fifty true ghost stories from across the globe to spice up the book against the chapters of informative research I should mention that the ghost stories other than the London Tower are in a random order so as to eliminate country repetition You ll notice that no matter what country is being represented the stories all have similar backdrops meaning that ghosts are not only universal but far from unique to any specific culture Nor are they limited to a group of countries Every nation in the world has their own legends and haunted homes castles or battlefields I enjoyed every second of creating this reference book and I sincerely hope it is a learning experience for you as well as a thought provoking or creative muse to writers poets and filmmakers If you are someone considering a career in the paranormal or paranormal investigation you must read this book instead of relying on video nonsense Enjoy and try not to read too much before sleeping as many of these stories are not only engrossing but also horrifying

Manifesting Spirits Jack Hunter,2020-12-12 An exploration of contemporary trance and physical mediumship at a private spiritualist home circle called the Bristol Spirit Lodge Located in a garden on the outskirts of Bristol the Lodge is a wooden shed specially constructed for the purposes of mediumship development and spirit communication Through a combination of ethnographic observations in sances including his own experiences of mediumship development and interviews with spirits and their mediums Hunter delves into a sub urban world of trance states ectoplasm spirit lights and discarnate entities Issues relating to altered states of consciousness personhood performance and the efficacy of ritual are examined in order to make sense of the processes by which spirits become manifest in social reality A large part of Manifesting Spirits is given over to a broader discussion of anthropology s evolving attitudes toward the paranormal as a component of the life worlds of many people across the globe and argues for the development of a non reductive anthropological approach to the paranormal and mediumship in particular This emerging framework referred to as ontological flooding does not attempt to explain away the existence of spirits in terms of functional cognitive or pathological theories as most mainstream theorists tend to do but rather embraces a processual perspective that emphasises complexity and multiple interconnected processes underlying spirit possession performances and experiences

gathered in a series of paradigm shifting sances held in the United States Ever the thorough researcher she conducts fascinating follow up interviews with witnesses and experts in the field Her conclusions will stun you Dr Victor Zammit and Wendy Zammit Co authors of A Lawyer Presents the Evidence for the Afterlife and The Friday Afterlife Report Medium9 explores the fascinating phenomena of physical mediumship from interviews with participants as well as from the viewpoint of the authors experience For those readers who wish to understand the nature of our third dimensional reality as well as what lies beyond and how our world can interact with higher dimensional realities Medium9 is a unique study of consciousness Dr Susan Kolb MD FACS author of the The Naked Truth about Breast Implants From Harm to Healing [A New Science of the Afterlife](#) Daniel Drasin,2023-06-13 Reveals how the continuity of consciousness beyond the physical body can be objectively demonstrated Explores 15 promising avenues of post materialist scientific investigation currently underway Provides a succinct account of the experience of transition to the next life and what one might expect when one arrives there Explains how materialism has prevented us from realizing a deeper understanding of the nature of space time life death and consciousness Sharing his more than three decades of research into the afterlife and paranormal phenomena award winning documentary filmmaker Daniel Drasin shows that the continuity of human consciousness beyond the physical body and after death constitutes a legitimate area of scientific inquiry and that it can be objectively demonstrated Drasin begins by revealing how our belief in materialism through its effects on our social norms taboos and even language has deeply constrained our civilization s understanding of the nature of space time life death and consciousness However as Drasin explains our deeply ingrained cultural habits tied to materialism have begun to change He explores 15 promising post materialist scientific investigations currently underway focusing in depth on three examples that offer the most objectively irrefutable evidence for the survival of consciousness including electronic audio and visual communications from the other side the groundbreaking five year Scoble Experiment in physical mediumship and the profoundly evidential reincarnation case of James Leininger Looking at how language frames our perceptions about life and death the author presents thought experiments and simple exercises to help us see through materialist ideology and perceive a broader landscape of reality He provides a succinct account of the experience of transition to the next life and explores what the afterlife is made of where it s located how it works and what it s for Drasin shows how by thinking and speaking about death and the survival of consciousness in new ways we can facilitate a clearer more relaxed comfortable and rational conversation about what awaits us all sooner or later on the other side of life [True Tales of the Paranormal](#) Neil Ward,2024-10-01 In True Tales of the Paranormal author Neil Ward dives in to some of the most mystifying occurrences that cannot be explained by modern science Ranging from ghostly apparitions and mysterious premonitions to UFOs and extra dimensional beings the tales in this book will make you doubt everything you knew to be true and wonder what is really out there These spine tingling stories reveal a hidden world of spooky goings on that lie just beneath the surface of our seemingly mundane lives Are these stories delusions

or hoaxes or could there be an unsettling truth behind them At times terrifying uplifting and bizarre these tales shed light on a world you never knew existed [It Won't Rain Because There's Nothing to Stop It](#) Gary Holgate,2018-06-29 So why did I really write this book It dawned on me as I thought about my life in particular the early years how I demonstrated acts of spirituality without really knowing it This started with my acknowledgment of a force of energy larger than myself yet still small enough to make a difference in my life The use of the law of attraction or Secret was an interaction with the universe albeit for juvenile materialistic gain I am not ignorant enough to believe that I am alone with these stories I just don t think we realize or recognize our own spiritual interactions as they are often lost within the hustle and bustle of our lives This book covers many topics some mainstream others not so much but all relatable I wanted to demonstrate through my own experiences that you could explore your own adventure just by exploring your own untold stories that comprise your life

Critical Mediumship Joseph Haigh,2018-03 What is mediumship Why does the quality vary from being so accurate through to being vague and generalised This book asked both those questions and attempts to provide an honest factually guide to mediumship and psychic phenomenon The book initially looks at what it takes to become a medium in simple steps it then goes on to discuss some of the authors own experience and pitfalls when exploring the unknown Finally it then goes on to look at evidence from around the world including scientific and peer reviewed cases including that of the Scole Experiment Electronic Voice phenomenon Done in a light hearted easy to read manner with contributions from some of the individuals involved in the studies this book offers the reader an opportunity to explore the spirit world in open and honest way from a typical everyday person without the nonsense so often associated with supposed mediums and psychics
