**Wales since 1939** Martin Johnes, 2013-01-18 The period since 1939 saw more rapid and significant change than any other time in Welsh history Wales developed a more assertive identity of its own and some of the apparatus of a nation state Yet its economy floundered between boom and bust its traditional communities were transformed and the Welsh language and other aspects of its distinctiveness were undermined by a globalizing world Wales was also deeply divided by class language ethnicity gender religion and region Its people grew wealthier healthier and more educated but they were not always happier This ground breaking book examines the story of Wales since 1939 giving voice to ordinary people and the variety of experiences within the nation This is a history of not just a nation but of its residents hopes and fears their struggles and pleasures and their views of where they lived and the wider world

**Britishness since 1870** Paul Ward, 2004-04-15 What does it mean to be British It is now recognized that being British is not innate static or permanent but that national identities within Britain are constantly constructed and reconstructed Britishness since 1870 examines this definition and redefinition of the British national identity since the 1870s Paul Ward argues that British national identity is a resilient force and looks at how Britishness has adapted to changing circumstances Taking a thematic approach Britishness since 1870 examines the forces that have contributed to a sense of Britishness and considers how Britishness has been mediated by other identities such as class gender region ethnicity and the sense of belonging to England Scotland Wales and Ireland

**British Social Attitudes** Roger Jowell, John Curtice, Alison Park, Katarina Thomson, Lindsey Jarvis, Catherine Bromley, Nina Stratford, 2000-11-23 I've always enjoyed reading the British Social Attitudes survey which shows what the British people really think as opposed to what journalists and politicians like to pretend they think John Pilger Britain is a well documented nation We know a lot about the characteristics of our society who we are and what we do We know much less about what we think and feel about our world and ourselves The indispensable annual British Social Attitudes survey fills this gap It compiles describes and comments on a range of current social attitudes The information is derived from interviews carried out by the National Centre for Social Research's own interviewers among a nationwide sample of around 3 500 people each year The series seeks to chart changes in British social values over a period of time in relation to other changes in society and is core funded by the Gatsby Charitable Foundation A full report is published each year The 17th Report summarizes and interprets data from the most recent survey as well as making comparisons with findings from previous years The data are publicly available through the ESRC Data Archive at the University of Essex
