Scots Abroad Labour Capital Enterprise 1750 1914:

The Scots Abroad R. A. Cage, 2021-10-12 Originally published in 1985 this book examines the extent of Scottish migration and Scottish involvement in the process of development Although there are many books written on the Scots abroad this volume is unique in that it has a unifying theme each contributor has concentrated on the role played by the Scots in the economic development of their relevant country or area which include England Canada the USA Australia New Zealand India Latin America and Japan This will be of interest to both social and economic historians Elites, Enterprise and the Making of the British Overseas Empire 1688-1775 H. Bowen, 1996-07-24 This book examines the cultural economic and social forces that shaped the development of the British empire in the eighteenth century The empire is placed in a broad historiographical context informed by important recent work on the fiscal military state and gentlemanly capitalism This allows the empire to be seen not as a series of discrete unconnected geographical regions scattered across the world but as a commercial cultural and social body with its roots very firmly planted in metropolitan society **Scottish Society, 1707-1830** Christopher A. Whatley, 2000 This book challenges conventional wisdom and provides new insights into Scottish social and economic history Christopher A Whatley argues that the Union of 1707 was vital for Scottish success but in ways which have hitherto been overlooked He proposes that the central place of Jacobitism in the historiography of the period should be revised Comprehensive in its coverage the book is based not only on an exhaustive reading of secondary material but also incorporates a wealth of new evidence from previously little used or unused primary sources **Human capital and empire** Andrew Mackillop, 2021-09-14 Human capital and empire compares the role of Scots Irish and Welsh within the English East India Company between c 1690 and c 1820 It focuses on why the three groups developed such distinctive and different profiles within the corporation and its wider colonial activities in Asia Besides contributing to the national histories of Scotland Ireland and Wales it uses these societies to ask how poorer regions of Europe participated in global empire The chapters cover involvement in the Company's administrative military medical maritime and private trade activities The analysis conceives of sojourning to Asia as a cycle of human capital with human mobility used to access a key sector of world trade As well as providing essential new statistical information on Irish Scottish and Welsh participation it makes a significant contribution to ongoing debates on the legacies of empire Maritime Enterprise and Empire J. Forbes Munro, 2003 The 19C roots of globalisation demonstrated through an account of the enterprise network created by the Scottish merchant William Mackinnon WINNER OF THE 2004 WADSWORTH PRIZE WINNER OF THE 2004 SALTIRE SOCIETY RESEARCH BOOK OF THE YEAR AWARD This book explores the nineteenth century roots of globalisation through the activities of the enterprise network created by the Scottish merchant William Mackinnon It follows the rise of the family led business group from its modest origins in Scotland to its transformation into the world's largest maritime and mercantile conglomerate tracing the history of the various shipping firms within the group including the British India Netherlands India

and Australasian United companies and identifies the key factors behind its domination of coastal steamshipping around the Indian Ocean and into the western Pacific. It provides an analysis of the anatomy and dynamics of the enterprise network over time. The book also examines Mackinnon's relationship with the imperial statesman Sir Henry Bartle Frere which drew the network into the operations of British informal imperialism in the Persian Gulf, Red Sea and East Central Africa regions and eventually to its sponsorship of the ill-fated Imperial British East Africa Company. It breaks new ground in identifying the interplay of personal and business considerations behind Mackinnon's participation in the Scramble for Africa in its combination of maritime history with business history and imperial history to contribute to the current debate over gentlemanly capitalism and British overseas expansion. WINNER OF THE 2004 WADSWORTH PRIZE JOINT WINNER OF THE 2004 SALTIRE SOCIETY RESEARCH BOOK OF THE YEAR AWARD J. FORBES MUNRO is emeritus professor of international economic history, University of Glasgow.

Conquests and Cultures Thomas Sowell, 2021-08-10 This book is the culmination of 15 years of research and travels that have taken the author completely around the world twice as well as on other travels in the Mediterranean, the Baltic and around the Pacific rim. Its purpose has been to try to understand the role of cultural differences within nations and between nations today and over centuries of history in shaping the economic and social fates of peoples and of whole civilizations. Focusing on four major cultural areas that of the British, the Africans including the African diaspora, the Slavs of Eastern Europe and the indigenous peoples of the Western Hemisphere, *Conquests and Cultures* reveals patterns that encompass not only these peoples but others and help explain the role of cultural evolution in economic, social and political development.

Annexation and the Unhappy Valley Matthew A. Cook, 2015-11-16 *Annexation and the Unhappy Valley: The Historical Anthropology of Sindh's Colonization* addresses the nineteenth-century expansion and consolidation of British colonial power in the Sindh region of South Asia. It adopts an interdisciplinary approach and employs a fine-grained, nuanced and situated reading of multiple agents and their actions. It explores how the political and administrative incorporation of territory, i.e. annexation by East India Company, informs the conversion of intra-cultural distinctions into socio-historical conflicts among the colonized and colonizers. The book focuses on colonial direct rule rather than the more commonly studied indirect rule of South Asia. It socio-culturally explores how agents' perspectives and intentions vary both within and across regions to impact the actions and structures of colonial governance.

Britons Linda Colley, 2009-01-01 How was Great Britain made? And what does it mean to be British? This brilliant and seminal book examines how a more cohesive British nation was invented after 1707 and how this new national identity was nurtured through war, religion, trade and empire. Lavishly illustrated and powerful, *Britons* remains a major contribution to our understanding of Britain's past and continues to influence ongoing controversies about this polity's survival and future. This edition contains an extensive new preface by the author. A sweeping survey, evocatively illustrated and engagingly written. Harriet Ritvo, New York Times Book Review.
