Mykytiuk, 2004 The first comprehensive system for associating persons mentioned in the Hebrew Bible with persons mentioned in Northwest Semitic inscriptions This book applies this system in detail to a small number of Hebrew inscriptions the Mesa Inscription and the Tel Dan stele Appendixes updated through mid 2002 briefly evaluate potential identifications of over 75 biblical persons in over 90 Northwest Semitic inscriptions which are mostly contemporary with the person Resulting identifications and non identifications appear in six categories of strength or weakness from unmistakable to disqualified The final product is a first ever corpus consisting only of inscriptions that name biblical persons This technical book will appeal to scholars graduate students seminarians religious leaders and others who have a working knowledge of at least one Northwest Semitic language and to nonspecialists interested in questions about biblical historicity      *Edom at the Edge of Empire* Bradley L. Crowell, 2021-09-17 A comprehensive history of a state on Judah s border Edom at the Edge of Empire combines biblical epigraphic archaeological and comparative evidence to reconstruct the history of Judah s neighbor to the southeast Crowell traces the material and linguistic evidence from early Egyptian sources that recall conflicts with nomadic tribes to later Assyrian texts that reference compliant Edomite tribal kings to offer alternative scenarios regarding Edom s transformation from a collection of nomadic tribes and workers in the Wadi Faynan as it relates to the later polity centered around the city of Busayra in the mountains of southern Jordan This is the first book to incorporate the important evidence from the Wadi Faynan copper mines into a thorough account of Edom s history providing a key resource for students and scholars of the ancient Near East and the Hebrew Bible      *The Scribe in the Biblical World* Esther Eshel, Michael Langlois, 2022-12-05 This book offers a fresh look at the status of the scribe in society his training practices and work in the biblical world What was the scribe s role in these societies Were there rival scribal schools What was their role in daily life How many scripts and languages did they grasp Did they master political and religious rhetoric Did they travel or share foreign traditions cultures and beliefs Were scribes redactors or simply copyists What was their influence on the redaction of the Bible How did they relate to the political and religious powers of their day Did they possess any authority themselves These are the questions that were tackled during an international conference held at the University of Strasbourg on June 17 19 2019 The conference served as the basis for this publication which includes fifteen articles covering a wide geographical and chronological range from Late Bronze Age royal scribes to refugees in Masada at the end of the Second Temple period      **Ancient Ammon** B. MacDonald, Younker, 2023-11-13 This work is a

presentation on a people of Transjordan known to readers of the Bible as a neighbour and often an enemy of first millennium B C Israel Topics include a review of archaeological research in Ammon the emergence of the Ammonites and Ammonite territory and sites In the Service of the King Nili S Fox,2000-12-31 Titles have always been conferred on persons both to identify their functions in society and to assign honorary status In Egypt even more than in Mesopotamia function related and honorary titles were so valued that officials and functionaries of varying stations collected the titles accrued in their lifetime and preserved them in a titulary the ancient equivalent of a resume Israelites serving at the royal courts in Jerusalem and Samaria or in local administrations also held title but the sources suggest far fewer of them than their neighbors Nili Fox analyzes the titles and roles of civil officials and functionaries in Israel and Judah during the monarchy including key ministers of the central government regional administrators and palace attendants The nineteen titles fall into three categories status related titles function related titles and miscellaneous designations that could be held by a variety of officials Fox sets these Israelite and Judahite titles in their ancient context through extensive study of Egyptian Akkadian and Ugaritic records She also draws upon the corpus of Hebrew epigraphic material which allows her to explore economic components of state organization such as royal land grants supply networks and systems of accounting which would be impossible to understand on the basis of the Hebrew Bible alone Fox also treats the widely debated issue of whether Israelite state organization was influenced by foreign models and if so how much The evidence of non Hebrew sources offers little concrete material to substantiate theories that Israel modeled its government after a foreign prototype and Fox offers a more finessed approach Many features of Israelite administration are best explained as basic elements of any monarchic structure in the ancient Near East that developed to satisfy the needs of an evolving local system Other seemingly foreign features have a long tradition in Canaan and probably were naturally assimilated Fox recognizes the interconnections between the cultures in the region but emphasizes the need to closely examine the Israelite system with internal evidence *The Aramaeans* Edward Lipiński,2000 In order to present the Aramean history during some six hundred years down to the seventh century B C it was necessary to analyze a wide range of sources mainly cuneiform epigraphic and biblical Chapter I deals with Aramean pre history and proto history while chapter II examines the question of the alleged relationship between the Hebrew forefathers and the ancient Arameans Chapters III to XIV give a relatively accurate description of the territory of each historically attested Aramean group or state and present a detailed narrative of political events Chapter XIV the most extensive considers the situation of the Arameans in Babylonia also in relation to the Chaldeans and to the North Arabian tribes Chapters XV to XVIII deal with Aramean institutions economy legal practices and religion Special attention is paid to linguistic features of the available evidence when they can help resolving historical questions The book concludes with an extensive general index and with an index of biblical sources A Corpus of Ammonite Inscriptions Walter E. Aufrecht,2019-05-22 This second edition of A Corpus of Ammonite Inscriptions presents all of the published inscriptions that

have been identified as Ammonite in one volume Each entry is accompanied by a complete bibliography a physical description and details about its location a photograph and or drawing relevant linguistic information and a history of the inscription s interpretation The discovery of the Amman Theater Inscription Amman Citadel Inscription Tall S r n Bottle isb n Ostraca and Tall al Mazar Ostraca opened a new chapter in the study of ancient Northwest Semitic inscriptions with the recognition and analysis of the language and script of ancient Ammon These new discoveries prompted a reclassification of a number of epigraphs previously identified as Hebrew Phoenician or Aramaic Since the first edition of this corpus the discussion of the criteria used to classify inscriptions as Ammonite including provenance language onomastics paleography and iconography has advanced considerably In addition the number of known inscriptions has increased This updated edition includes 254 additional inscriptions four new appendixes and in many cases new and improved images The Adventure of the Illustrious Scholar Elizabeth Simpson, 2018-06-12 The Adventure of the Illustrious Scholar Papers Presented to Oscar White Muscarella edited by Elizabeth Simpson is a Festschrift celebrating the career of one of the foremost archaeologists of the ancient Near East Oscar Muscarella is a former curator at the Metropolitan Museum of Art and a formidable scholar who has excavated at sites in Turkey Iran and the United States He has published eight books and nearly 200 articles excavation reports and reviews on topics ranging from the arts of antiquity and the importance of connoisseurship to the difficulties of dating and the problems of forgeries the looting of ancient sites and the antiquities trade The forty seven contributors are experts in the areas of Muscarella s interests and are major scholars in their fields This volume constitutes an unusual important and timely addition to the archaeological and art historical literature **Leaves from an Epigrapher's**

*Early History of the Israelite People* Thompson, 2024-07-15 Through a review of historical scholarship of the past century and an analysis of data drawn from archaeological excavations and surveys and from written and historical records from the late second and early first millennium the author reconstructs the historical basis of Israel s origins within the contexts of geography anthropology and sociology Thompson argues that none of the traditional models for the origin of biblical Israel in terms of conquest peaceful settlement or revolution are viable The indigenous nature of the Israelite people has roots that lead back to the late Neolithic period The Iron I period is not the period in which the origins of Israel are to be sought Rather the geographical and regional expansion of settlements in this period reflects an economic response to drought conditions that affected the entire East Mediterranean basin The ninth and eighth century states of Samaria and Jerusalem had separate and independent origins rooted in the development of a Mediterranean economy and an expansion of trade brought about by Assyrian interests The development of the ethnic concept of biblical Israel with its roots in the United Monarchy finds its context in history first at the time of the Persian renaissance guided by the theological concepts of exile and restoration Finally Thompson argues that

biblical Israel is historically the creation of the tradition itself in the Persian period and attempts to outline both a historical context and an interpretative matrix for the Bible

**A Bibliography on Writing and Written Language** Konrad Ehlich, Florian Coulmas, Gabriele Graefen, 2011-06-01 The bibliography offers information on research about writing and written language over the past 50 years No comprehensive bibliography on this subject has been published since Sattler s 1935 handbook With a selection of some 27 500 titles it covers the most important literature in all scientific fields relating to writing Emphasis has been placed on the interdisciplinary organization of the bibliography creating many points of common interest for literacy experts educationalists psychologists sociologists linguists cultural anthropologists and historians The bibliography is organized in such a way as to provide the specialist as well as the researcher in neighboring disciplines with access to the relevant literature on writing in a given field While necessarily selective it also offers information on more specialized bibliographies In addition an overview of norms and standards concerning script and writing will prove very useful for non professional readers It is therefore also of interest to the generally interested public as a reference work for the humanities
