The Army List, 1927 **Spectre of Invasion** Steve Dunn, 2025-06-30 Explores Britain's fear of a German coastal invasion during World War I examining raids defense efforts and the political and strategic fallout By 1900 the British government and public had become gripped by a new and growing fear of invasion not from traditional enemies such as France but from Germany Such terror was driven by lurid books and fanned by newspapers These anxieties sparked off a fight between those who wanted a defence based on a larger standing army with conscription to support it and those who believed the Royal Navy was sufficient to defend the coast and deprecated the expense and role of a standing land force With war declared in 1914 Britain's coastline came under attack Major German raids created terror and the fear of invasion drove naval and military planning and dispositions to protect Britain's littoral Coastal towns such as Scarborough Great Yarmouth Lowestoft Southwold and even the Outer Hebrides came under attack and landings by German troops were feared daily Running battles were fought with these attacking forces and both ships and lives ashore were lost **Spectre of Invasion** examines all of the raids made and the success or failure of them and relates these events from the point of view of naval and civilian participants It tells the story of the Royal Navy and its role in the defence of the British coast in the First World War and examines the strategic and political developments resultant from invasion fears And it considers how the plans laid for coastal defence fared under the test of conflict laying bare what it was like to be part of the battles around the British coast both as combatant and as citizen Finally it looks at Britain's inability to co-ordinate naval and military effort throughout the War This is a thought provoking book which combines a fast paced narrative with fascinating insights into Britain's predicament in the years leading up to and through the First World War It will appeal to anyone interested in this era of the country's history and the fear of invasion that stalked the country in those years **Monthly List, Government**

Publications India, 1927 Statistics of British India, 1915 The Tattie Lads Ian Dear, 2016-06-02 Enduring great danger and often terrible conditions in heavy seas the Rescue Tug Services worked tirelessly to bring to port damaged vessels and keep up the supply of food and essential items during two world wars They were first deployed towards the end of the First

World War to support and if necessary to salvage merchant shipping that had been damaged by U boat attacks During the Second World War they were needed even more urgently when ships bringing food and other essential supplies to a beleaguered Britain were attacked by both air strikes and submarines Although part of the Royal Navy the contribution of the Rescue Tug Service remained curiously absent from the naval history of the Second World War Yet the Service had developed what a wartime American newspaper called a new type of naval vessel the British fighting escort tug and had saved millions of tons of shipping both warships and merchant ships not to mention the crews and the precious cargoes The official history of the Merchant Navy did not mention the Service either nor did numerous other books on the war at sea In 2014 author Ian Dear was given access to the archives of the Deep Sea Rescue Tug Service which were about to be disbanded His research here and elsewhere produced a view of the war at sea from an entirely new angle The result The Tattie Lads explores why the service might have been omitted from the official story and reveals its fascinating history in a full length book for the first time
