There has never been a book about Stephen Harper yet on June 28 he came close to being our prime minister If Paul Martin miscalculates Stephen Harper could be our next prime minister in months not years Who is this man Everyone knows that he became leader of the Alliance Party and against all odds gathered in the old Conservative Party to create a force designed to win power coming very close in 2004 Yet what are his core beliefs To what extent does he agree with his party s social conservatives who scared away voters in the last election Where will he take us if he gets power William Johnson has researched the Harper family background and the historical context that shaped his political career He paints a fascinating picture of a man who like Pierre Trudeau trained mentally for political power like an athlete training for the Olympics yet is not a natural politician and never really wanted the political leader s life By studying Harper s approach to the main issues in Canadian politics he shows that Harper is a sophisticated political operative far more complex and intellectual than the right wing Republican image that has been created for him This is a serious objective political biography short on gossip but long on clear discussion of Harper s political views and how he got them Johnson s message Don t underestimate this man

The Creation of States in International Law James R. Crawford,2007-03-15 Statehood in the early 21st century

remains as much a central problem as it was in 1979 when the first edition of *The Creation of States in International Law* was published. As Rhodesia, Namibia, the South African Homelands and Taiwan then were subjects of acute concern, today governments, international organizations and other institutions are seized of such matters as the membership of Cyprus in the European Union, application of the Geneva Conventions to Afghanistan, a final settlement for Kosovo and still relations between China and Taiwan. All of these and many other disputed situations are inseparable from the nature of statehood and its application in practice. The remarkable increase in the number of States in the 20th century did not abate in the twenty five years following publication of James Crawford's landmark study which was awarded the American Society of International Law Prize for Creative Scholarship in 1981. The independence of many small territories comprising the residue of the European colonial empires alone accounts for a major increase in States since 1979 while the disintegration of Yugoslavia and the USSR in the early 1990s further augmented the ranks. With these developments the practice of States and international organizations has developed by substantial measure in respect of self-determination, secession, succession, recognition, decolonization and several other fields. Addressing such questions as the unification of Germany, the status of Israel and Palestine and the continuing pressure from non-State groups to attain statehood even in cases like Chechnya or Tibet against the presumptive rights of existing States, James Crawford discusses the relation between statehood and recognition, the criteria for statehood especially in view of evolving standards of democracy and human rights and the application of such criteria in international organizations and between states. Also discussed are the mechanisms by which states have been created including devolution and secession, international disposition by major powers or international organizations and the institutions established for Mandated Trust and Non-Self-Governing Territories. Combining a general argument as to the normative significance of statehood with analysis of numerous specific cases, this fully revised and expanded second edition gives a comprehensive account of the developments which have led to the birth of so many new states.

Reflections on Canada's Past, Present and Future in International Law/Réflexions sur le passé, le présent et l'avenir du Canada en droit international Oonagh E. Fitzgerald, Valerie Hughes, Mark Jewett, 2018-06-30

Marking 150 years since Confederation provides an opportunity for Canadian international law practitioners and scholars to reflect on Canada's rich history in international law and governance where we find ourselves today in the community of nations and how we might help shape a future in which Canada's rules-based and progressive approach to international law gains ascendancy. This collection of essays, each written in the official language chosen by the authors, provides a thoughtful perspective on Canada's past and present in international law, surveys the challenges that lie before us and offers renewed focus for Canada's pursuit of global justice and the rule of law. Part I explores the history and practice of international law including sources of international law: Indigenous treaties, international treaty, diplomacy, domestic reception of international law and Parliament's role in international law. Part II explores Canada's role in international law governance and innovation.

Indigenous Peoples and the Future of Federalism Amy Swiffen, Joshua Nichols, 2023-12-18 As a settler state Canada's claims to sovereign control over territory are contested by Indigenous claims to land and to self-determination Indigenous Peoples and the Future of Federalism presents legal analyses that explore forms of federalism and their potential to include multiple and divided sovereignties This collection aims to advance reconciliation with Indigenous peoples in Canada and elsewhere by developing jurisprudence on the possibilities for a nation-to-nation relationship between Indigenous nations and Crown sovereignty Contributors use legal creativity to explore how federalism can be structured to include the constitutional jurisdiction of Indigenous nations Several chapters are grounded in the Canadian context while others connect the issues to international law and other settler colonial jurisdictions recognizing how Indigenous resistance to settler laws and government decisions can at the same time be the enactment of Indigenous legalities and constitutional cultures Ultimately Indigenous Peoples and the Future of Federalism offers innovative ways for Canada to move forward from this challenge using existing constitutional mechanisms to give life to a plurinational Canadian federalism inclusive of the jurisdiction of Indigenous peoples

Across Boundaries André Blais, Cristine de Clercy, Anna Lennox Esselment, Ronald Wintrobe, 2021-06-09 Why and how does secession happen How do different levels of government interact with each other Why do some multilevel governments work better than others What makes political extremism so virulent in today's society These are some of the most pressing questions in political science today These questions and research areas secession multilevel government and political economy were the focus of the writing and scholarship of Robert Bob Andrew Young 1950-2017 Canada Research Chair in Multilevel Governance at the University of Western Ontario and one of Canada's most distinguished political scientists In *Across Boundaries* Young's former colleagues and students bring together contributions from his extensive network which included academics government officials and media personalities These essays speak to Young's legacy while providing new insight into research in multilevel governance secession and political economy Young's body of work is exemplary in its attention to concrete policy issues as well as in the breadth of his interest across many subfields of political science *Across Boundaries* honours his distinguished career and gives students professors and practitioners further insight into his scholarship
