Shakespeares Satire

Oscar James Campbell

Shakespeare's Satire:

Shakespeare's Satire Oscar James Campbell, 1963 **Aspects of Shakespeare's 'Problem Plays'** Kenneth Muir, Stanley Wells, 1982-02-18 These articles reprinted from various volumes of Shakespeare Survey concern three plays which have gradually become appreciated by critics and in the theatre Since the early years of this century they have been seen as an interrelated group with a peculiarly twentieth century appeal Measure for Measure concerned as it is with adolescents first encounters with sex love and death has a special appeal for young people Troilus and Cressida set in the Trojan War has been found deeply relevant to our own war troubled times and All's Well That Ends Well sharing these preoccupations is a necessary companion piece John Barton who has directed all three plays is interviewed in one of the articles which together illustrate the often heated controversy about the plays Reviews and photographs of post war productions at Stratford are also included The book as a whole is designed as a stimulating introduction to these plays and to conflicting interpretations of them **Shakespeare's Pluralistic Concepts of Character** Imtiaz H. Habib, 1993 The presentation of a complex character such as Shylock bears resemblance to the technique of anamorphic portraiture and trick perspective in the sense that seen one way he appears a villain but seen another way he appears a persecuted victim The clashing and merging of opposed frames of ideological reference that cannot be held apart or resolved and that remain in a kind of uneasy balance may be a technique of comic characterization that exploits relativism and ambiguity in the presentation of human personality and self on stage A similar technique can be seen at work in the Histories in the characters of Richard and Bolingbroke who as has long been noted compete contrarily for the audience's ideological sympathies over the course of the play *English Satire* James Sutherland, 1962-01-02 Professor Sutherland's Clark Lectures begin with a definition of satire distinguishing it from comedy and emphasising the special qualities of the satirical author's motives and his participation in and enjoyment of the use of his talent He then discusses primitive and popular forms and there follow four chapters in satire in verse in prose in the novel and in the theatre Each is historical ranging from the beginnings of modern English literature to Shaw and Orwell Due consideration is given to classical and medieval traditions but the real core of the argument is an analysis of the great English satirists their standpoint style and method with ample and enjoyable quotation Dryden Swift and Pope are given the most attention but in each chapter Professor Sutherland touches on a number of topics and authors including Fielding Austen Peacock Dickens and Thackeray A valuable unified account of the nature and resources of satire and the achievements of English satirists Satire in the Elizabethan Era William Jones, 2017-11-28 This book argues that the satire of the late Elizabethan period goes far beyond generic rhetorical persuasion but is instead intentionally engaged in a literary mission of transideological perceptual translation This reshaping of cultural orthodoxies is interpreted in this study as both authentic and activist in the sense that satire represents a purpose driven attempt to build a consensual community devoted to genuine socio cultural change The book includes

explorations of specific ideologically stabilizing satires produced before the Bishops Ban of 1599 as well as the attempt to return nihilistic English satire to a stabilizing theatrical form during the tumultuous end of the reign of Elizabeth I Dr Jones infuses carefully chosen modern day examples of satire alongside those of the Elizabethan Era making it a thoughtful vigorous read **A New Variorum Edition of Shakespeare CORIOLANUS Volume II** David George,2019-01-16
