McDermott, 1999-09-16 This broad ranging examination of Chinese court and state ritual from 1000 BC to AD 1750 represents the first modern comprehensive account of the subject in any language The essays demonstrate how and why ritual has played such a fundamental and often controversial role in the practice of Chinese politics By tracing the political and social development of particular rituals such as imperial funerals and popular religious practices or Buddhist ordination ceremonies and court audiences the authors set out to convey their historical significance Further discussion of the role of ritual in relation to language and elite and popular concepts of emperorhood is included in the volume The book will be of interest to students of Chinese history anthropology and religion as well as those seeking to understand the legacy of that history in modern China     *Shamanism in Siberia* Mally Stelmaszyk, 2022-03-28 The focus of this book is on the phenomenon of cursing in shamanic practice and everyday life in Tuva a former Soviet republic in Siberia Based on extensive anthropological fieldwork where the author interacted with a wide range of people involved in cursing practices the book examines Tuvans lived experience of cursing and shamanism thereby providing deep insights into Tuvans intimate and social worlds It highlights especially the centrality of sound how interactions between humans and non humans are brought about through an array of sonic phenomena such as musical sounds sounds within words and non linguistic vocalisations and how such sonic phenomena are a key part of dramatic cursing events and wider shamanic performance and ritual involving humans and spirits alike Overall the book reveals a great deal about occult practices and about social change in post Soviet Tuva Chapter 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license     **Routledge Handbook of**

State Healthcare and Yanomami Transformations José Antonio Kelly, 2011-10-01 Amazonian indigenous peoples have preserved many aspects of their culture and cosmology while also developing complex relationships with dominant non indigenous society Until now anthropological writing on Amazonian peoples has been divided between traditional topics like kinship cosmology ritual and myth on the one hand and the analysis of their struggles with the nation state on the other What has been lacking is work that bridges these two approaches and takes into consideration the meaning of relationships with the state from an indigenous perspective That long standing dichotomy is challenged in this new ethnography by anthropologist Jos Kelly Kelly places the study of culture and cosmology squarely within the context of the modern nation state and its institutions He explores Indian white relations as seen through the operation of a state run health system among the indigenous Yanomami of southern Venezuela With theoretical foundations in the fields of medical and Amazonian anthropology Kelly sheds light on how Amerindian cosmology shapes concepts of the state at the community level The result is a symmetrical anthropology that treats white and Amerindian perceptions of each other within a single theoretical framework thus expanding our understanding of each group and its influences on the other This book will be valuable to those studying Amazonian peoples medical anthropology development studies and Latin America Its new takes on theory and methodology make it ideal for classroom use

**State Formation** Christian Krohn-Hansen, Knut G. Nustad, 2005-09-20 What is the state and how can we best study it This book investigates new ways of analysing the state The contributors argue that the state is not a fixed and definite object Our perceptions of it are constantly changing and differ from person to person What is your idea of the state if you are a refugee Or if you are living in post apartheid South Africa Our perceptions are formed and sustained by evolving discourses and techniques these come from institutions such as government but are also made by communities and individuals The contributors examine how state structures are viewed from the inside by official state bodies composed of bureaucrats and politicians and how these state manifestations are supported reproduced or transformed at a local level An outline of theoretical approaches is followed by

nine case studies ranging from South Africa to Peru to Norway With a good range of contributors including Cris Shore Clifton Crais Ana Alonso and Bruce Kapferer this is a comprehensive critical analysis of anthropological approaches to the study of state formation
