Contemporary Korean Shamanism Liora Sarfati,2021-08-03 Once viewed as an embarrassing superstition the theatrical religious performances of Korean shamans who communicate with the dead divine the future and become possessed are going mainstream Attitudes toward Korean shamanism are changing as shamanic traditions appear in staged rituals museums films and television programs as well as on the internet Contemporary Korean Shamanism explores this vernacular religion and practice which includes sensory rituals using laden altars ecstatic dance and animal sacrifice within South Korea s hypertechnologized society where over 200 000 shamans are listed in professional organizations Liora Sarfati reveals how representations of shamanism in national commercialized and screen mediated settings have transformed opinions of these religious practitioners and their rituals Applying ethnography and folklore research Contemporary Korean Shamanism maps this shift in perception about shamanism from a sign of a backward undeveloped Korea to a valuable indigenous cultural asset *The Scythian Connection and the Shamanistic Crowns of Ancient Korea* Shirley Fish,2021-08-22

The Three Kingdoms Period in Korean history consisted of the kingdoms of Silla Koguryo and Paekche It was only the Silla kingdom which seemed to have had a connection to the ancient nomadic Scythians These people seemed so different from the indigenous inhabitants who were already living in Korea during the 3th to 6th centuries CE It is the author s opinion is that they were the descendants of the Scythians who although they would not have called themselves Scythians they were none the less the remnant members of nomadic tribes that pushed eastward from Central Asia and Siberia to the Korean peninsula Once in Southern Korea they established the Silla kingdom where their time honored beliefs are depicted in their mound burials wooden burial chambers gold crowns horse riding and also in their Siberian shamanism This time period of the gold crowns and the people who produced the royal headgear was the Maripgan Period and as mentioned they were the descendants of Scythians who although in Central Asia and Siberia were known to have existed as far back as 10 000 years BC they were always on the move searching for new pasturelands for their herds or to avoid conflicts and war with their enemies The Silla crowns were created around the 5th to the 7th centuries in Kyongju the former capital of the Silla people When they were discovered in various archaeological mound sites they were found to be in a highly fragile state The crowns were each designated as national treasures by the Korean government and most weigh about one kilogram Some of the crowns came in two parts an inner gold cap which may have been covered in silk fabric and sat inside of the crown and the crown itself The crowns were totally shamanistic in their symbolism and represented the belief systems of the Scythians of Central Asia and Siberia which eventually made its way to Korea and the ancient Kingdom of Silla **Encyclopedia of**

Hoare,2020-10-13 South Korea Republic of Korea is the more successful of the two Koreas in both economic and political terms Even the Asian economic crisis of 1997 1998 which hit badly was weathered successfully and when the next crisis came along in 2007 South Korea coped better than many other countries This economic strength taken with the steady progress of democratization since 1987 indicates that when the peninsula is eventually reunified as one day it probably will be a new unified Korea will follow the South Korea model rather than that of North Korea This fourth edition of Historical Dictionary of the Republic of Korea contains a chronology an introduction appendixes and an extensive bibliography The
