Pope-Davis, 2003-07-23 Focusing on a wide range of professional settings this book provides a compendium of the latest research related to multicultural competency and the hands on framework to develop specialized multicultural practices

Diversity in Mind and in Action Jean Lau Chin, 2009-06-22 The editor of the award winning four volume Praeger set *The Psychology of Prejudice and Discrimination* brings her team back together to take a comprehensive look at the flip side of the issue diversity The importance of understanding supporting and acting to encourage cultural diversity across social psychological political legal career and educational avenues is addressed in this one stop source for the latest research developments and updates Social privilege for certain groups the oppression of others and methods to teach diversity necessary for our future are all addressed Contributors from psychologists to educators to social workers also take a close look at programs spurring success in diversity in the United States and globally This dynamic revealing work demonstrates

that we must expand and are expanding our definition of diversity to include not only race and ethnicity but also sexual orientation religion and disability The challenge for those who want a society that honors all is to establish equity for all While full victory in that challenge has been slow to come Diversity in Mind and in Action makes it clear that there are success stories to be shared and new avenues to be spotlighted

Teaching Research Methods in the Social Sciences

Mark Garner, Claire Wagner, Barbara Kawulich, 2016-04-01 How can excellence in the teaching of research methods be encouraged and ensured This question has become increasingly important following the adoption of research methodology as a core part of many postgraduate and undergraduate courses There has however been little discussion about the aims and methods of teaching the subject In this volume a number of authors from a variety of countries and disciplines employ their knowledge and experience towards the development of a pedagogical culture in research methods Their aim is to establish the extent of common concerns and challenges and to demonstrate ways in which these are being met Intended to provide both a stimulus and source materials for the development of a more substantial and systematic literature in the field the book will be of great interest to all those teaching research methods courses within social science disciplines
