Shards Of Love Exile And The Origins Of The Lyric:

Shards of Love María Rosa Menocal, 1994 With the Spanish conquest of Islamic Granada and the expulsion of the Jews from Spain the year 1492 marks the exile from Europe of crucial strands of medieval culture It also becomes a symbolic marker for the expulsion of a diversity in language and grammar that was disturbing to the Renaissance sensibility of purity and stability In rewriting Columbus's narrative of his voyage of that year Renaissance historians rewrote history as was often their practice to purge it of an offending vulgarity The cultural fragments left behind following this exile form the core of *Shards of Love* as María Rosa Menocal confronts the difficulty of writing their history It is in exile that Menocal locates the founding conditions for philology as a discipline that loves origins and for the genre of love songs that philology reveres She crosses the boundaries both temporal and geographical of 1492 to recover the original medieval culture with its Mediterranean mix of European Arabic and Hebrew poetics The result is a form of literary history more lyrical than narrative and Menocal persuasively demonstrates more appropriate to the Middle Ages than to the revisionary legacy of the Renaissance In discussions ranging from Eric Clapton's adaption of Nizami's Layla and Majnun to the uncanny ties between Jim Morrison and Petrarch *Shards of Love* deepens our sense of how the Middle Ages is tied to our own age as it expands the history and meaning of what we call Romance philology

A Cultural History of the Emotions in the Late Medieval, Reformation, and Renaissance Age Susan Broomhall, Andrew Lynch, 2020-08-20 The period 1300-1600 CE was one of intense and far-reaching emotional realignments in European culture New desires and developments in politics religion philosophy the arts and literature fundamentally changed emotional attitudes to history creating the sense of a rupture from the immediate past In this volatile context cultural products of all kinds offered competing objects of love hate hope and fear Art music dance and song provided new models of family affection interpersonal intimacy relationship with God and gender and national identities The public and private spaces of courts cities and houses shaped the practices and rituals in which emotional lives were expressed and understood Scientific and medical discoveries changed emotional relations to the cosmos the natural world and the body Both continuing traditions and new sources of cultural authority made emotions central to the concept of human nature and involved them in every aspect of existence

Muwaššah, Zajal, Kharja Henk Heijkoop, Otto Zwartjes, 2004-05-01 This book is a comprehensive bibliography of publications on strophic poetry and music which originated in the urbanized society of al-Andalus in the 9th century and spread over the Iberian Peninsula Southern France North Africa Egypt and the Near East It contains an alphabetic catalogue of 2800 titles books articles congress papers reviews CD's and a movie Some titles have annotations The catalogue is followed by a register of kharjas and two useful indices of names and subjects A short introductory guide precedes the catalogue and a selective discography

ends the volume The bibliography is the first fully comprehensive list of publications on the theme after the pioneering discovery of the kharjas endings of strophic compositions muwa a and zajal by Samuel Miklos Stern in 1948 **Bob Dylan** Timothy Hampton,2020-09-01 A career spanning account of the artistry and politics of Bob Dylan s songwriting Bob Dylan s reception of the 2016 Nobel Prize for Literature has elevated him beyond the world of popular music establishing him as a major modern artist However until now no study of his career has focused on the details and nuances of the songs showing how they work as artistic statements designed to create meaning and elicit emotion Bob Dylan How the Songs Work originally published as Bob Dylan s Poetics is the first comprehensive book on both the poetics and politics of Dylan s compositions It studies Dylan not as a pop hero but as an artist as a maker of songs Focusing on the interplay of music and lyric it traces Dylan s innovative use of musical form his complex manipulation of poetic diction and his dialogues with other artists from Woody Guthrie to Arthur Rimbaud Moving from Dylan s earliest experiments with the blues through his mastery of rock and country up to his densely allusive recent recordings Timothy Hampton offers a detailed account of Dylan s achievement Locating Dylan in the long history of artistic modernism the book studies the relationship between form genre and the political and social themes that crisscross Dylan s work Bob Dylan How the Songs Work offers both a nuanced engagement with the work of a major artist and a meditation on the contribution of song at times of political and social change *Transmitting Jewish Traditions* Yaakov Elman,I. Gershoni,2000-01-01 This book examines the impact of changing modes of cultural transmission on Jewish and Western cultures over the past two thousand years The contributors to the volume survey some of the ways conscious and subconscious in which cultural elements are selected shaped and transmitted and some of the ways they in turn shape the future of their cultures Focusing on a range of Jewish cultures from late antiquity the Middle Ages and the modern period the authors consider both the transformation of traditions in their travels from one contemporaneous cultural context to another and their transformation within a single culture overtime Some of the studies in the book deal with the transition from mixed oral written cultures to ones in which written print is nearly exclusive Other chapters deal with the processes of transmission such as anthologizing translating teaching and sermonizing By contextualizing Jewish culture within Western culture and including a comparative perspective the book makes an important contribution to Judaic studies as well as to other areas of the humanities concerned with questions of textuality and culture *Troubadour Texts and Contexts* Courtney Joseph Wells,Lisa Shugert Bevevino,Sarah-Grace Heller,2024-12-03 New interpretations of different aspects of troubadour texts and lyrics from their main themes and motifs to their reception and influence Nearly a millennium after their songs of love politics war satire and redemption began to fill the courts of Europe the troubadours continue to fascinate modern audiences However many aspects of their work such as the supposedly adulterous nature of fin amor the Frenchness of the troubadours the biographical veracity of the vidas and the inherent misogyny of the troubadour lyric have long been taken for granted This volume takes a fresh look at these ideas questioning

many of the formative assumptions of troubadour scholarship and proposing alternative readings of many canonical texts Essays offer a reconsideration of the reception of works by such important figures as Guilhem IX Jaufre Rudel Peire Vidal Pistoleta Guilhem Adhemar Giraut de Borneil Perdigon Fulk of Marseilles and Arnaut Daniel There are also examinations of the lexicon and cultural uses of chess azure and tin and the changing landscape of the Rhone delta providing a deeper understanding of the imagery they furnished Other essays consider the later life of the manuscripts including the surprising story of how Napoleon demanded certain Occitan manuscripts after his conquest of Italy The collection as a whole is thus a fitting tribute to the pioneering work of Wendy Pfeffer who has made such a contribution to the field of troubadour studies

The Postcolonial Middle Ages J. Cohen, 2000-04-21 An increased awareness of the importance of minority and subjugated voices to the histories and narratives which have previously excluded them has led to a wide spread interest in the effects of colonization and displacement This collection of essays is the first to apply post colonial theory to the Middle Ages and to critique that theory through the excavation of a distant past The essays examine the establishment of colony empire and nationalism in order to expose the mechanisms of oppression through which aboriginal native or simply pre existent cultures are displaced eradicated or transformed
