Complete Criminal Law Janet Loveless, Mischa Allen, Caroline Derry, 2018 Complete Criminal Law offer students a carefully blended combination of the subject's concepts, cases and commentary. A combination which encourages critical thinking, stimulates analysis and promotes a complete understanding. *Drugs, Crime and Corruption* R. Clutterbuck, 1995-05-31 Drug trafficking breeds massive crime which does more damage than addiction itself. The cure lies not where the drugs are produced but in consumer countries, mainly in the West. We are losing this war and Richard Clutterbuck examines four radical alternatives: suppression, severe enough to work without infringing civil liberties; decriminalization; Dutch style wider licensing of drugs under government control; and licensed legalization controlling drugs as we control alcohol. He urges debate, research and experiment to decide the best way. **Does Immigration Increase Crime?** Francesco Fasani, Giovanni Mastrobuoni, Emily G. Owens, Paolo Pinotti, 2019-09-05 The supposed link between immigration and crime is a highly contentious issue. This innovative book examines the evidence. **The Oxford Handbook of Criminology** Rod Morgan, Mike Maguire, Robert Reiner, 2012-04-12 The approach of the year 2000 has made the study of apocalyptic movements trendy. But groups anticipating the end of the world will continue to predict Armageddon even after the calendar clicks to triple Os. **A History of Police Reform in England and Wales** Timothy Brain, 2023-06-22 This book provides a comprehensive history of police reform, charting its history from its origins in the early 18th century to the most recent examples in the 21st century of the Labour Coalition and Conservative governments. Each key reform programme is explored in the social, political and intellectual context of its time: how the necessary legislation was passed, how each programme was implemented and what its legacy has been. This is the first study that concentrates on the key reforms that shaped the modern police service, their enduring legacies and their underlying flaws. It is an essential read for police historians, criminologists, police academics, policy makers and everyone interested in police history. The Guardian Index, 2002. **Entanglements of Life with the Law** John R. Campbell, 2020-11-09 This book examines the quality and nature of justice dispensed in London's magistrates' courts, which are the lowest level of the United Kingdom's Criminal Justice System. In 2016, approximately 230,000 individuals were prosecuted for a criminal offence in these courts, of whom about seventy percent pleaded guilty and were sentenced. Curiously, about eighty-five percent of those who pleaded not guilty were subsequently tried, found guilty and sentenced. This book addresses a central paradox of criminal justice: how is it that magistrates are able to reach a guilty verdict despite the elusive and complex nature of truth and reality? Research, together with observations of 238 remand hearings and 23 trials, has led the author to arrive at some uncomfortable conclusions about a legal system undermined by government austerity policies and lacking in transparency. This book shows that the police fail to investigate most offences that the Crown Prosecution Service is reliant on; the cases which the police want prosecuted; that the quality of legal representation is poor; that magistrates' decisions may be unjust; and that most defendants are not able to

understand or participate in their hearing Strikingly a large percentage of defendants are from London's precariat They are young men who are destitute or who rely on unstable incomes they are semi literate from Black and Ethnic Minority Communities and their basic rights as citizens are being eroded Because many are repeat offenders they are recycled through the Criminal Justice System with limited assistance to address the problems which cause offending Magistrates courts dispense summary justice in very short hearings which means that defendants have a limited opportunity to defend themselves In short summary justice lacks basic due process rights in a legal process which bears a striking resemblance to justice in authoritarian non democratic societies

Handbook on Crime Fiona Brookman, Mike Maguire, Harriet Pierpoint, Trevor Bennett, 2010-02-01 The Handbook on Crime is a comprehensive edited volume that contains analysis and explanation of the nature extent patterns and causes of over 40 different forms of crime in each case drawing attention to key contemporary debates and social and criminal justice responses to them It also challenges many popular and official conceptions of crime This book is one of the few criminological texts that takes as its starting point a range of specific types of criminal activity It addresses not only conventional offences such as shoplifting burglary robbery and vehicle crime but many other forms of criminal behaviour often an amalgamation of different legal offences which attract contemporary media public and policy concern These include crimes committed not only by individuals but by organised criminal groups corporations and governments There are chapters on for example gang violence hate crime elder abuse animal abuse cyber crime identity theft money laundering eco crimes drug trafficking human trafficking genocide and global terrorism Many of these topics receive surprisingly little attention in the criminological literature The Handbook on Crime will be a unique text of lasting value to students researchers academics practitioners policy makers journalists and all others involved in understanding and preventing criminal behaviour
