Shatt Al Arab Boundary Question A Legal Reappraisal:

The Shatt-al-Arab Boundary Question Kaiyan Homi Kaikobad, 1988 Using newly discovered maps of the river forming part of the disputed boundary between Iran and Iraq this book reexamines the history of this dispute within the framework of international law and proposes a solution to the problem

The Shatt-al-Arab Boundary Question Kaiyan Homi Kaikobad, 1988 The persistent problems presented by territorial disputes are among the most important of our time The Falklands War and the war between Iran and Iraq are but recent illustrations of the potential for mischief which attaches to issues concerning boundaries and the validity of title to territory including maritime rights The significance of these issues is in inverse proportion to the level of understanding exhibited by the media and by political scientists For the most part it has been left to lawyers and geographers with the occasional historian to study particular disputes The proper study of a boundary dispute calls for the careful teasing out of the strands of history politics diplomacy and law which go to make up the special universe of each boundary dispute Dr Kaikobad has brought the necessary qualities of patience and scholarship to his task and he has used an impressive variety of sources The result is not only a major work on the background to the Gulf War but a contribution of quality to the literature on territorial disputes to the development of a typology of disputes and to diplomatic history

International Law and Boundary Disputes in Africa Gbenga Oduntan, 2015-06-26 Africa has experienced a number of territorial disputes over land and maritime boundaries due in part to its colonial and post colonial history This book explores the legal political and historical nature of disputes over territory in the African continent and critiques the content and application of contemporary International law to the resolution of African territorial and border disputes Drawing on central concepts of public international law such as sovereignty and jurisdiction and socio political concepts such as colonialism ethnicity nationality and self determination this book interrogates the intimate connection that peoples and nations have to territory and the severe disputes these may lead to Gbenga Oduntan identifies the major principles of law at play in relation to territorial and boundary disputes and argues that the predominant use of foreign based adjudicatory mechanisms in attempting to deal with African boundary disputes alienates those institutions and mechanisms from African people and can contribute to the recurrence of conflicts and disputes in and among African territories He suggests that the understanding and application of multidisciplinary dispute resolution mechanisms and strategies can allow for a more holistic and effective treatment of boundary disputes As an in depth study into the legal socio political and anthropological mechanisms involved in the understanding of territorial boundaries and a unique synthesis of an African jurisprudence of international boundaries law this book will be of great use and interest to students researchers and practitioners in African and Public International Law International Relations and decision makers in need of better understanding the settlement of disputes over territorial boundaries in both Africa and the wider world

Iran, Iraq, and the Legacies of War L. Potter, G. Sick, 2004-11-12 Iraq and Iran are the two most important states in the Gulf region given

their population size military strength and the potential threat they pose to other states in the region This book enhances our understanding of the troubled relationship between Iran and Iraq placing it in historical context examining the rapid deterioration leading to the eight year war that started in 1980 and the effects of that trauma and exploring the ongoing issues that currently bedevil bilateral relations The authors cover such central issues as how each side has sought to use opposition groups in the other state to weaken it ethnic divisions the role of outside states especially the United States and a fascinating account of how the war affected a generation of Iraqis and Iranians The role of the U S in the region and how U S policy has affected the two states are also considered This book provides a basis for understanding the background of a tumultuous relationship that is entering a new era *Arab-Iranian Rivalry in the Persian Gulf* Farzad

Sharifi-Yazdi,2015-06-29 Iranian ambitions in the Persian Gulf and rivalries with Arab neighbours are subject to intense and heated speculation controversy and debate Here Farzad Cyrus Sharifi scrutinises the rival Arab Iranian claims to Bahrain the Shatt al Arab waterway and the Abu Musa and Tunbs islands in the years after World War II and before the Iranian revolution Through investigation of previously unexamined primary materials and interviews with leading players this book sheds new light on the evolution and dynamics of hegemonic and nationalistic Arab Iranian rivalries and how these rivalries began to find symbolic expression through territorial disputes Sharifi illustrates that these ongoing disputes and the deep seated tensions still prevalent in Arab Iranian relations are largely rooted in how they were constructed in the post World War II period making this book vital reading for researchers of the politics history international relations and diplomacy of the Middle East **Tony Allan** David Dent,Martin Keulertz,Michael Gilmont,2025-09-26 This book follows Tony Allan s

Iran Kuwait disputes in particular maritime boundaries the hydrocarbon dimension and concepts of shared political space With many newly drawn maps based on original research this volume stands alone as a comprehensive reader on an issue that plays a dominant part in the regional geopolitics of the Gulf and Arabian Peninsula **Law, Territory and Conflict Resolution** Matteo Nicolini, Francesco Palermo, Enrico Milano, 2016-05-02 Prompted by the de facto secession of Crimea in early 2014 Law Territory and Conflict Resolution explores the role of law in territorial disputes and therefore sheds light on the legal realities in territorial conflicts Seventeen scholars with backgrounds in comparative constitutional law and international law critically reflect on the well established assumption that law is part of the solution in territorial conflicts and ask whether the law cannot equally be part of the problem The volume examines theory practice legislation and jurisprudence from various case studies thus offering further insights on the following complex issue can law act as an effective instrument for the governance of territorial disputes and conflicts Ottoman-Iranian Borderlands Sabri Ateş, 2013-10-21 This book examines the making of the present day Iranian Iraqi and Turkish boundary shedding new light on some of the most contentious issues of today
