My European Heritage Life Among Great Men Of Letters:

My European Heritage Brigitte Bermann Fischer, 1986 Thomas Mann's War Tobias Boes, 2019-11-15 In Thomas Mann's War Tobias Boes traces how the acclaimed and bestselling author became one of America's most prominent anti-fascists and the spokesperson for a German cultural ideal that Nazism had perverted Thomas Mann winner of the 1929 Nobel Prize in literature and author of such world renowned novels as *Buddenbrooks* and *The Magic Mountain* began his self-imposed exile in the United States in 1938 having fled his native Germany in the wake of Nazi persecution and public burnings of his books Mann embraced his role as a public intellectual deftly using his literary reputation and his connections in an increasingly global publishing industry to refute Nazi propaganda As Boes shows Mann undertook successful lecture tours of the country and penned widely read articles that alerted US audiences and readers to the dangers of complacency in the face of Nazism's existential threat Spanning four decades from the eve of World War I when Mann was first translated into English to 1952 the year in which he left an America increasingly disfigured by McCarthyism Boes establishes Mann as a significant figure in the wartime global republic of letters Open access edition funded by the National Endowment for the Humanities *The French-German Dynamic in an Age of Conflict, 1925-1963* Elana Passman, 2025-02-04 This book

investigates the radical transformation of the relationship between Germany and France neighbors whose border constituted one of the deepest fault lines of European history For generations the French and the Germans believed they were eternal enemies and this myth of primordial hatred was the lens through which they interpreted each other's every move Yet today a Franco-German war is unimaginable Passman locates the reshaping of the French-German dynamic in the civic organizations that made the very notion of cooperation credible After World War I and in the decades to follow Franco-German associations kept calling for an end to their animus Through journals cultural exchanges events and charitable ventures activists opened up the possibility of imagining friendship with the enemy The pursuit of French-German cooperation did not begin with politicians after World War II It took flight in the 1920s and persisted through decades of turmoil In anchoring the history of collaboration in a longer arc of French-German cooperation Passman illuminates how entangled were the histories of 1920s rapprochement Nazi era collaborationism and postwar reconciliation This volume will appeal to scholars students and general readers interested in the histories of modern France and modern Germany European integration and peace studies

Einstein's Pathway to the Special Theory of Relativity Galina Weinstein, 2015-06-18 This book pieces together the jigsaw puzzle of Einstein's journey to discovering the special theory of relativity Between 1902 and 1905 Einstein sat in the Patent Office and may have made calculations on old pieces of paper that were once patent drafts One can imagine Einstein trying to hide from his boss writing notes on small sheets of paper and according to reports seeing to it that the small sheets of paper on which he was writing would vanish into his desk drawer as soon as he heard footsteps approaching his door He probably discarded many pieces of papers and calculations and flung them in the waste paper basket in the Patent Office The

end result was that Einstein published nothing regarding the special theory of relativity prior to 1905. For many years before 1905 he had been intensely concerned with the topic; in fact he was busily working on the problem for seven or eight years prior to 1905. Unfortunately, there are no surviving notebooks and manuscripts, no notes and papers or other primary sources from this critical period to provide any information about the crucial steps that led Einstein to his great discovery. In May 1905, Henri Poincaré sent three letters to Hendrik Lorentz at the same time that Einstein wrote his famous May 1905 letter to Conrad Habicht promising him four works, of which the fourth one, Relativity, was a rough draft at that point. In the May 1905 letters to Lorentz, Poincaré presented the basic equations of his 1905 Dynamics of the Electron, meaning that at this point Poincaré and Einstein both had drafts of papers relating to the principle of relativity. The book discusses Einstein's and Poincaré's creativity and the process by which their ideas developed. The book also explores the misunderstandings and paradoxes apparent in the theory of relativity and unravels the subtleties and creativity of Einstein.

Adolf Busch, *Einstein Himself* Anthony McAuliffe, A more critical look at the man known today by most as one of the greatest scientists of all time. A unique and thought-provoking narrative quite at odds with the generally accepted dogma. How exactly did Einstein rise to become so revered today? This is also the story of Mileva Marić, a little-known woman who just so happened to be Einstein's first wife. When Einstein presented his famous Annus Mirabilis or Wonder Year papers in 1905, Mileva was of equal training in the fields of mathematics and physics and indeed more accomplished than Einstein in many other disciplines. He seems more an intuitive physicist, stated Chaim Weizmann, a promoter of Einstein. He is not an experimental physicist and though he is able to detect fallacies in the conceptions of physical science, he must turn his general outlines of theory over to someone else to work out. Historians report that Einstein collaborated with other scientists from 1907. In 1905, there was Mileva.

Year Book, 1988 My European heritage; life among great men of letters Brigitte Bermann Fischer, 1986 *The Publishers Weekly*, 1926 **The World & I**, 1986 Books As Weapons John B. Hench, 2016-10-15. Only weeks after the D-Day invasion of June 6, 1944, a surprising cargo of crates of books joined the flood of troop reinforcements, weapons, and ammunition, food, and medicine onto Normandy beaches. The books were destined for French bookshops to be followed by millions more American books in translation but also in English, ultimately distributed throughout Europe and the rest of the world. The British were doing similar work, which was uneasily coordinated with that of the Americans within the Psychological Warfare Division of General Eisenhower's Supreme Headquarters Allied Expeditionary Force under General Eisenhower's command. Books As Weapons tells the little-known story of the vital partnership between American book publishers and the U.S. government to put carefully selected recent books highlighting American history and values into the hands of civilians liberated from Axis forces. The government desired to use books to help disintoxicate the minds of these people from the Nazi and Japanese propaganda and censorship machines and to win their friendship. This objective dovetailed perfectly with U.S. publishers' ambitions to find new profits in international markets which had been dominated by Britain, France, and Germany.
