MY KIND OF JAZZ

Jack Third Moon

Villa Jazz For Pete's Sake

Just One of Those Things

TONY SCOTT

Tony Scott, called by his friends "one damn contemporary jazz drummer," replaces in this collection his kind of jazz. These five recorded studies outline better than words the versatility of a genuinely unique swing talent, together with his ability to lay out a swinging phrase, and demonstrate clearly the unsurpassing imagination and liquid phrasing that have made Tony Scott a favorite with critics, musicians and the public at large.

A review of the full-band Third of Moon, as well as some of the

best musicians in the contemporary idiom. Tony has worked with such great musicians as Charlie Parker, Billie Holiday, Duke Ellington, Fats Domino, Ella Fitzgerald and many others. Much of his inspiration derived from Benny Goodman, and years of listening, playing and working hard developed the highly individual style that is his today. In this collection, working with original and Duke Ellington's Just One of Those Things, he presents a series of musical ideas that are fresh, refreshing and refreshingly able to overcome in their clarity and direction. This is Tony Scott's kind of music and musicians!

Robert Kennedy represents the optimum blending of the most advanced engineering and artistic techniques in the recording and reproduction of stereophonic sound.

The electrical and mechanical independence of the two channels is insured through the use of studio equipment specifically designed for stereo, and the most modern disc cutting equipment. Each channel is a complete high-fidelity system in itself, and the combination of the two provides the listener, whether with facilities to fully realize his stereo sensation, the addition to the usual left and right signals, a virtual center signal is provided by ingenious engineering use of the

available information channels. The channels are dimensioned "wide in the middle" which characterizes most stereo reproduction.

Best results will be obtained on wide range high-fidelity systems with the speakers spaced apart by about half the width of the wall against which they are placed. The RMA standard reproducing system should be used on both channels. The balance of the channels may be continuously adjusted by playing a signal record on the system, and adjusting the gain to make the reproduced sound seem to emanate from between the speakers.

My Kind Of Jazz:

My Kind of Jazz Brian Rust,1990 *The Invisible Clarinetist* Joe Licari,2004-09-14 He calls himself The Invisible Clarinetist since he never really achieved the kind of fame or notoriety he might have liked This story is about his musical life and about some of the people who have come to share and enrich it Music has always been his first love but his wife and family of ten children had to be his first priority and raising ten kids is another book all by itself This book celebrates his musical life as he lived it This accountability as he calls it is dedicated and intended for his children so they know how hard he had to work to support them and accounted for why he wasn't around much while they were growing up He had to work day jobs plus playing the music at night I guess if he had to blame someone for what some people may call neglect or child abuse it would have to be Benny Goodman the great Chicago jazz clarinetist He heard an early recording of Benny with the Ben Pollack band and fell in love with his hot playing
