This book will set you thinking about the great self trap which most of us are unwittingly caught in How can one get out of this bondage Can Singapore qualify to be a World Marathon City Do you know there are at least two Heritage trees at the East Coast Park Singapore What is the most important thing in this life The author describes how his life relates to some of the key points in his reflection For example would he choose a different lifestyle if he could get back

Dream Life J. Allan

Hobson,2011-03-11 A pioneer in sleep and dream science surveys his life and work through the lens of dreaming and consciousness J Allan Hobson s scientific experimentation began in childhood with a soot filled investigation into the capacity of a chimney to admit Santa Claus He discovered that even with the damper open the chimney was far too narrow Hobson s life as an experimentalist has continued through a pioneering career devoted to aligning psychology and biology and to investigating the relationship of dreaming and consciousness In *Dream Life* Hobson conducts an experimental investigation into his life and work Hobson charts his developing consciousness through a vividly imagined conception in October of 1932 birth and babyhood offering a theory about protoconsciousness in fetuses and infants He recounts his youthful zeal for scientific discovery his early sexual experimentation and his education He describes taking on the entrenched Freudians at Harvard Medical School in the 1950s as a maverick psychiatrist who wanted to replace psychoanalysis with biological science He describes his further studies his marriages and love affairs his travels and what he learned about the brain from his whiplash induced amnesia after a 1963 automobile accident and from his brain death after a stroke in 2001 Through it all Hobson uses his life as the ultimate case study for his theory that REM sleep provides a test pattern that allows the brain to develop offline Dreams most intense in REM sleep when the brain is active need no Freudian style decoding he says

Dreaming is a glorious mental state to be enjoyed and studied for what it tells us about consciousness
