The Pull Ralph Nathaniel Wells, 2022-05-04 The story is about the history of an American family that experiences an unusual phenomenon which they call the pull A family member will begin to have disturbing dreams and be visited by very unusual strangers These are the events that coincide with the coming of the pull The story begins with the main character Raphael Wellington vividly recounting one of these ominous dreams of his which causes him to give a frightening warning to all who would read his story After the death of their mother Raphael and his sister Rachael attempt to move on with their lives by returning to their childhood home It was during this visit that Raphael makes a profound discovery He was not the only member of his family to have these dreams and to see the strangers He learns that these strangers have been visiting his family for generations Now Raphael finally realizes that the riddle of understanding the meaning of the dreams which have plagued his family for centuries and now are causing him nightmares as well has fallen squarely upon his shoulders to unravel And if that wasn't already enough he must also figure out just who are these mysterious strangers that have been visiting his ancestors for all these many years The discovery in his mother's attic is what begins to gradually put his family's strange history together for him and sends him on an unimaginable quest to discover the never before understood secret of the important role his family has had in the shaping of American history and the eventual role he has to play in the shaping of the future for this planet

Unjustifiable Risk? Simon Thompson, 2012-03-06 To the impartial observer Britain does not appear to have any mountains Yet the British invented the sport of mountain climbing and for two periods in history British climbers led the world in the pursuit of this beautiful and dangerous obsession Unjustifiable Risk is the story of the social economic and cultural conditions that gave rise to the sport and the achievements and motives of the scientists and poets parsons and anarchists villains and judges ascetics and drunks that have shaped its development over the past two hundred years The history of climbing inevitably reflects the wider changes that have occurred in British society including class gender nationalism and war but the sport has also contributed to changing social attitudes to nature and beauty heroism and death Over the years increasing wealth leisure and mobility have gradually transformed climbing from an activity undertaken by an

eccentric and privileged minority into a sub division of the leisure and tourist industry while competition improved technology and information and increasing specialisation have helped to create climbs of unimaginable difficulty at the leading edge of the sport But while much has changed even more has remained the same Today s climbers would be instantly recognisable to their Victorian predecessors with their desire to escape from the crowded complexity of urban society and willingness to take unjustifiable risk in pursuit of beauty adventure and self fulfilment Unjustifiable Risk was shortlisted for the Boardman Tasker prize in 2011 **The Zoologist** ,1868 **Southern Gardening All Year Long** Gary R.
