# My Sister, My Friend

By Barbara D. MacAdam

It doesn't really matter if we're together or apart,  
you're never really far from me, you're always in my heart.

I love the way we both can laugh, until we almost cry,  
yet hug each other tenderly, when real tears fill our eyes.

In some ways we're so different, yet our values are alike, so  
I know you'll always have my back; whenever trouble strikes!

You know my darkest secrets, and you never judge my pain.  
You validate my dreams, and let me know they're not in vain.

The face I often show the world, is who "they" need to see,  
but you accept me for myself, as God would have me be.

If I could turn one wish to prayer, it would be that  
you could see, how precious you are in  
my eyes, and how you'll always be.

For no matter where life leads us, from  
now until the end, I pray you'll feel  
my love for you, my sister,  
my best friend!

David Nathanson, 2007-04-30 After nearly three decades of providing medical care for women and men facing breast cancer surgeon S David Nathanson calls the survival rates today an ordinary miracle Ordinary because the vast majority of patients now do live at least 20 years after diagnosis due to enormous progress that has been made in medicine and a miracle too because of the intangible qualities such as faith and hope that seem key to success in battling the disease In this book survivors describe their experiences emotions and means to overcome the disease S David Nathanson is an esteemed longtime surgeon who calls the survival rates today for women and men facing breast cancer nothing short of an ordinary miracle Ordinary because the vast majority of patients live at least two decades after diagnosis due to great advances that have been made in early detection surgery radiation and chemotherapy But also a miracle because we know that key elements for a woman or man succeeding in a personal battle against breast cancer include completely intangible qualities of courage fortitude trust persistence faith and hope Although science cannot completely explain it a supportive network of family and friends with those qualities also empower patient survival and recovery In these pages Nathanson shares stories from his patients teaching us about the experience of breast cancer and explaining how they found and fueled the will and power to defeat the disease Even surgeon Nathanson himself cannot fully describe what goes through the hearts and minds of breast cancer patients as they discover deal with and finally triumph over the diagnosis So in this book he acts as a narrator letting his ordinary yet miraculous cancer survivors tell their stories certainly filled with fear of the known and unknown and with pain but opening up to courage love sometimes humor and finally hope It is hope

that firms up their resilience hope that initiates their fortitude Hope is an important component of healing says the surgeon
