**Dying for the American Dream** David Brown,2006-06 Confrontations between nations which were previously seen as wars on open battlefields changed dramatically during the Twentieth Century With volunteer units appearing to aid the participants on both sides of the fray These units varied from the AEF in England prior to the US entry into World War II and the Flying Tigers fighting the Japanese in China to the Chinese divisions aiding the North Koreans during the Korean war Suddenly the line between nations at war and those at peace became blurred and at times indistinguishable The true nature of the conflict was contained in the diplomat s pouch Such confrontations required brilliant and unorthodox solutions to eliminate the threat from hostile governments While this is a work of fiction set in the 1951 Korean conflict it illustrates the lengths to which governments will go to find acceptable resolutions Belly Of The Dragon is about military personnel detached to the CIA and trained as agents These civilians are to destroy a military objective a jet engine factory deep in the heart of China The real story emerges after the successful destruction of the target Two men of the nine who started are alive One now suffering from a severe head wound becomes part time brutishly insane part time childish coward Strong hatred on one

side and deep resentment on the other seethes under the surface as the two must temporarily put aside their differences in order to survive the five hundred mile trek to the coast Both are wounded and sick tall white men in a country of small yellow people Stolen trucks stolen motorcycles and stolen boats are their modes of travel always accompanied by their fear Living off the land they travel by night in darkened vehicles on unknown roads and trails Unable to steal enough food even unable to keep themselves clean Raiding a herbalist s shop in a small village they find by smell medicine they remember having used as a child Caught in the act by the herbalist they struggle and accidentally set fire to the village which burns like tinder bringing all the villagers out of their houses threatening to block their escape Capture is inevitable and a river patrol comes upon them as they sleep Beaten and humiliated they are being transported to the patrol headquarters but luck and savage resistance allows them to overpower their captors and steal the boat An early October winter storm adds to their peril as the temperature plummets and blinding snow and freezing rain obscures their passage Their wounds have become worse to the point that neither is able to go on and the will to live or fight is fast ebbing away Recklessly John forces the boat forward in spite of the weather and his actions lead to a crash on the rocks of mighty rapids The boat is destroyed and they are stranded on the rocks far from the shore One is trapped inside the boat rubble The other decides to leave him assuming he is dead but what if he is only wounded the Marine code of honor won t allow him to walk away Finally they are assisted by people who have been mistreated by the New Government of the People But it is still a long way to the coast and rescue too far to make it by the time the pick up team arrives unless the wounded man is left behind Who would ever know But it may be a moot point In Washington the President who knows the mission has been successful begins to hope that there are no survivors Survivors could become an embarrassment to the administration if word of the raid into neutral territory is discovered by the UN or the opposing political party Director Dolly of the CIA points out that if the President wishes there were no survivors such a thing can be arranged Although the thought
