Zaslow, 2009-11-09 Drawing on extensive research with a diverse group of seventy teen girls Zaslow offers a critical account of the girl power moment in which feminism and femininity are shrink-wrapped together in one market-friendly package With a focus on pop music and television Zaslow skillfully explores the negotiative processes of teen girls as they make sense of girl power's new cultural narratives of femininity as well as its failure to offer strategies for real social change Written in highly accessible language this book charts new territory as it offers a rich account of the ways in which teen girls understand style sexuality motherhood and feminism in girl power media culture and how their desires social experiences and imaginings of the future are shaped in their relationship with a neoliberal girl power discourse

'Girl Power' Dawn Currie, Deirdre M. Kelly, Shauna Pomerantz, 2009 *Girl Power: Girls Reinventing Girlhood* examines the identity practices of girls who have grown up in the context of girl power culture The book asks whether and which girls have benefited from this feminist-inspired movement Can girls truly become anything they want as suggested by those who claim that the traditional mandate of femininity compliance to male interests is a thing of the past To

address such questions the authors distinguish between girlhood as a cultural ideal and girls as the embodied agents through which girlhood becomes a social accomplishment The book identifies significant issues for parents and teachers of girls and offers suggestions for critical social literacy as a classroom practice that recognizes the ways popular culture mediates young people's understanding of gender Girl Power will be of interest to researchers of contemporary gender identities as well as educational professionals and adult girl advocates It is relevant for students in gender studies and teacher education courses as well as graduate student researchers

Don't Use Your Words! Jane Juffer, 2019-05-28 How children are taught to control their feelings and how they resist this emotional management through cultural production Today even young kids talk to each other across social media by referencing memes songs and movements constructing a common vernacular that resists parental educational and media imperatives to name their feelings and thus control their bodies Over the past two decades children's television programming has provided a therapeutic site for the processing of emotions such as anger but in doing so has enforced normative structures of feeling that Jane Juffer argues weaken the

intensity and range of children's affective experiences Don't Use Your Words seeks to challenge those norms highlighting the ways that kids express their feelings through cultural productions including drawings fan art memes YouTube videos dance moves and conversations while gaming online Focusing on kids between ages five and nine Don't Use Your Words situates these productions in specific contexts including immigration policy referenced in drawings by Central American children just released from detention centers and electoral politics as contested in kids artwork expressing their anger at Trump's victory Taking issue with the mainstream tendency to speak on behalf of children Juffer argues that kids have the agency to answer for themselves what does it feel like to be a kid
