Frederick L. Fuller,Thomas J. Watson,2013-10 This is a new release of the original 1938 edition **My Half Century** Anna Andreevna Akhmatova,1997 Anna Akhmatova is known as one of twentieth century Russia s greatest poets a member of the quartet that included Mandelstam Pasternak and Tsvetaeva This is the first paperback collection of her prose available in English The subjects of her memoirs are extraordinary she describes Modigliani as she knew him in Paris Blok near the end of his days and Mandelstam as a close friend The autobiographical prose section reveals the elusive poet s personality more clearly than any biography could including her thoughts about how difficult it was to be a poet at a time when women writers were rarely taken seriously Book Jacket **My Half Century as an Inventor** Frederick Lincoln Fuller,1938 **The Films**

of Charles and Ray Eames Eric Schuldenfrei,2014-12-05 The Films of Charles and Ray Eames traces the history of the Eameses work examining their evolution away from the design of mass produced goods and toward projects created as educational experiences Closely examining how the Eameses described their work reveals how the films and exhibitions they generated were completely at odds with the earlier objectives exemplified in their furniture designs Shifting away from promoting the consumer culture they turned their attention to the presentation of complex sets of scientific artistic and philosophical ideas During a critical period from the late 1950s to the early 1960s there was a moment of introspective self reflection in the West stemming from the events of the Cold War This moment of uncertainty was crucial for it provided the incentive to question the values and concerns of society as a whole In turn designers began to question their own sense of purpose temporarily expanding the purview of design to a broader field of inquiry In the case of the Eameses they identified an overriding problem related to consumerism and excess in America and sought to resolve the issue by creating a network of communication between universities governments institutions and corporations The solution of promoting greater education experiences as an alternative to consumerism in America required that different sectors of society functioned in unison to address political social economic and educational concerns The Films of Charles and Ray Eames reconsiders how design intersects with humanity culture and the sciences Before the Computer James W. Cortada,2015-03-08 Before the

Computer fully explores the data processing industry in the United States from its nineteenth century inception down to the period when the computer became its primary tool As James Cortada describes what was once called the office appliance industry he challenges our view of the digital computer as a revolutionary technology Cortada interprets reliance on computers as a development within an important segment of the American economy that was earlier represented largely by such instruments as typewriters tabulating machines adding machines and calculators He also describes how many of the practices of the office appliance industry evolved into those of the computer world Drawing on previously unavailable industry archives the author adds to our understanding of IBM s early history and offers short corporate histories of firms that include NCR Burroughs and Remington Rand Focusing on the United States but also including comparative material on Europe and Asia Before the Computer will be a unique source of knowledge about the companies that built office equipment and their enormous impact on economic life Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 My Happy Half-century Frances Elizabeth Willard, 1894 **IBM** James W. Cortada, 2023-08-01 A history of one of the most influential American companies of the last century For decades IBM shaped the way the world did business IBM products were in every large organization and IBM corporate culture established a management style that was imitated by companies around the globe It was Big Blue an icon And yet over the years IBM has gone through both failure and success surviving flatlining revenue and forced reinvention The company almost went out of business in the early 1990s then came back strong with new business strategies and an emphasis on artificial intelligence In this authoritative monumental history James Cortada tells the story of one of the most influential American companies of the last century Cortada a historian who worked at IBM for many years describes IBM s technology breakthroughs including the development of the punch card used for automatic tabulation in the 1890 census the calculation and printing of the first Social Security checks in the 1930s the introduction of the PC to a mass audience in the 1980s and the company s shift in focus from hardware to software He discusses IBM s business culture and its orientation toward employees and customers its global expansion regulatory and legal issues including antitrust litigation and the track records of its CEOs The secret to IBM s unequalled longevity in the information technology market Cortada shows is its capacity to adapt to changing circumstances and technologies **The Computer in the United States** James W. Cortada, 2016-09-16 This book studies how a technological innovation in this case the computer progresses from its origin as an idea in someone s mind to its eventual manifestation as a useable and marketable consumer product *The Mechanics' Magazine, Museum, Register, Journal, and Gazette* ,1840 **Mechanics magazine** ,1840 **Mechanic's**

Magazine, Museum, Register, Journal & Gazette ,1833 *Iron Perry Fairfax Nursey*,1833 **Mechanics' Magazine and Journal of Enigneering, Agricultural Machinery, Manufactures, and Shipbuilding** ,1840 *Reminiscences of Half a Century* William Glover,1889 **A Catalog of Books Represented by Library of Congress Printed Cards Issued to July 31, 1942** ,1942 **The Bee Keepers' Review** ,1894 *Critical Path* R. Buckminster Fuller,1982-02-15 The masterwork of a brilliant career and an important document of the crisis now facing mankind Today we find ourselves in the midst of the greatest crisis in the history of the human race Technology has placed in our hands almost unlimited power at the very moment when we have run up against the limits of our resources aboard Spaceship Earth as the crises of the late twentieth century political economic environmental and ethical determine whether or not humanity survives In this masterful summing up of an entire lifetime s thought and concern R Buckminster Fuller addresses these crucial issues in his most significant accessible and urgent work *Critical Path* traces the origins and evolution of humanity s social political and economic systems from the obscure mists of prehistory through the development of the great political empires to the vast international corporate and political systems that control our destiny today to show how we got to our present situation and what options are available to man With his customary brilliance extraordinary energy and unlimited devotion Bucky Fuller shows how mankind can survive and how each individual can respond to the unprecedented threat we face today The crowning achievement of an extraordinary career *Critical Path* offers the reader the excitement of understanding the essential dilemmas of our time and how responsible citizens can rise to meet this ultimate challenge to our future *Union Catalog of the Graduate Theological Union* Graduate Theological Union.
