Moreover he examines ideas of reward and punishment purity and impurity the status of moral agents and patients imitation of God and the image of God in humanity Barton maintains that ethical thinking can be found not only in laws but also in the wisdom literature in the Psalms and in narrative texts There is much interaction with recent scholarship in both English and German The book features discussion of comparative material from other ancient Near Eastern cultures and a chapter on short summaries of moral teaching such as the Ten Commandments This innovative work should be of interest to those concerned with the interpretation of the Old Testament but also to students of ethics
