Historical connections are made through narrative story telling that brings into vivid light a period in the South that describes family culture, color, race, religion, economics, opportunities, disadvantages, and more. Valvier Latease Harris Bright details her life from childhood to adulthood from Knoxville Tennessee to Montgomery Alabama. Many from both the North and the South, black or white, who were born in the forties through the sixties will recognize similar experiences and cultural touchstones including segregation and the civil rights movement. Bright chronicles her personal journey from childhood relationships through marriage, childbirth, and the death of both parents that transcends all ages. It is an inspiring, provocative, and endearing journey. She has crafted well a compelling and sensitive story descriptive of life for many, no matter what city or state. Her account of the meaningful journey travelled while in Montgomery was so nostalgic for those of us who encountered and can recall places, events, and moments in time so vividly painted through her words. Sheyann Webb Christburg, Civil Rights Activist and Co-author Selma Lord Selma. The telling of family history is sacred in that it honors those who have come before and keeps them alive for those who will follow. Valvier Bright's reverent exploration of her own life story and family roots range across multiple states, countries, and continents and lovingly paints a portrait that will enrich any reader. Millions of children have sampled the books in school, played out the roles of Laura and Mary, or visited Wilder homesites with their parents who may be fans themselves. Yet as Anita Clair Fellman shows, there is even more to this magical series with its clear emotional appeal, a covert political message that made many readers comfortable with the resurgence of conservatism in the Reagan years and beyond. *In Little*

House Long Shadow a leading Wilder scholar offers a fresh interpretation of the Little House books that examines how this beloved body of children s literature found its way into many facets of our culture and consciousness even influencing the responsiveness of Americans to particular political views Because both Wilder and her daughter Rose Wilder Lane opposed the New Deal programs being implemented during the period in which they wrote their books reflect their use of family history as an argument against the state s protection of individuals from economic uncertainty Their writing emphasized the isolation of the Ingalls family and the family s resilience in the face of crises and consistently equated self sufficiency with family acceptance security and warmth Fellman argues that the popularity of these books abetted by Lane s overtly libertarian views helped lay the groundwork for a negative response to big government and a positive view of political individualism contributing to the acceptance of contemporary conservatism while perpetuating a mythic West Beyond tracing the emergence of this influence in the relationship between Wilder and her daughter Fellman explores the continuing presence of the books and their message in modern cultural institutions from classrooms to tourism newspaper editorials to Internet message boards Little House Long Shadow shows how ostensibly apolitical artifacts of popular culture can help explain shifts in political assumptions It is a pioneering look at the dissemination of books in our culture that expands the discussion of recent political transformations and suggests that sources other than political rhetoric have contributed to Americans renewed appreciation of individualist ideals      *Watching TV* Harry Castleman,Walter J. Podrazik,2024-12-16 Castleman and Podrazik present a season by season narrative that encompasses the eras of American television from the beginning in broadcast through cable and now streaming They deftly navigate the dizzying array of contemporary choices so that no matter where you start on the media timeline *Watching TV* provides the context and background to this multi billion dollar enterprise Drawing on decades of research the authors weave together personalities popular shows corporate strategies historical events and changing technologies enhancing the main commentary with additional elements that include fall prime time schedule grids for every season date box timelines highlighted key text and selected photos Full of facts firsts insights and exploits from now back to the earliest days *Watching TV* is the standard chronology of American television and reading it is akin to channel surfing through history The fourth edition updates the story into the 2020s and looks ahead to the next waves of change This new edition is the first to also be available in a digital format      **Popular Series Fiction for K-6 Readers** Rebecca L.
