My Pet:

Health Acceleration Kit for My Pet's Mind, Body, and Soul Zeljka Roksandic, Robert Vincent Gerard, 2008 My Pet's Picture Book, 1873 **My Pet Wants a Pet** Elise Broach, 2018-03-06 A boy's mother reluctant to allow him even one pet is increasingly unhappy as each pet wants a pet of its own This charming picture book by a New York Times bestselling author cleverly captures a universal wish to love and care for something Full color x 11 **Eliminate Your Pet's Allergies** Devi S. Nambudripad, 2006 An informative book on Allergy Elimination of Pets through the innovative method called the NAET **For Pet's Sake, Do Something! Book Three** Dr. Monica Diedrich, 2008-10-01 What can I do to make my pet more comfortable when he or she has to cope with pain illness or a chronic condition How can I improve my pet's overall health I can't begin to tell you how many people have asked me these two questions during individual consultations and workshops At times their requests for information have compelled me to search for more effective answers than I was able to provide at the moment For that reason I'm very grateful to my clients and students since they've often piqued my curiosity to learn much more about topics I might never have researched any further on my own Because of their queries while I was writing my second book *Pets Have Feelings Too* ideas were already swirling around in my mind for a third book a how to book that would help as many pet parents as possible by answering those two questions and more My dream was to compile information all in a single book about as wide a variety of healing modalities as I possibly could However the single book quickly grew so large it soon developed into a series of three books They're all published under the umbrella title *For Pet's Sake Do Something* and they're each about how you can help your pets heal and enjoy optimum health every day I first discovered the importance of doing something myself when one of my own dogs seemed to be giving up on life At the tender age of two my Shih Tzu Chop Chop was in severe pain because of hip dysplasia and a pinched nerve He spent hours lying with his eyes fixed on the horizon as if his life had no more meaning for him I felt I'd most likely have to make a decision soon to give him the final respite he was looking for Meanwhile I was both desperate and discouraged because there didn't seem to be anything more I could do to help him He'd already been seen by two different veterinarians and each one had given him only a bleak prognosis Not only that but medications were no longer able to provide the hoped for relief It seemed he was very close to death and the next day I would probably have to make a final decision for him That night all I could do was to lie beside him on the floor crying buckets of tears but at least I was keeping him company and comforting him as best I could I'd known ever since I was eight years old about the special intuitive gift I had but at that moment my gift for being able to talk with animals was the farthest thing from my mind I was unable to think creatively or sense anything intuitively at all What happened next though as I lay on the floor beside my precious pet feeling utterly miserable and totally helpless would be one of the greatest lessons I would ever learn As clear as day I heard Chop Chop say to me You call yourself a healer so do something At first I had no idea what I could do to bring him any other relief In fact his words played over and over in my

mind for awhile before their meaning even became clear to me Finally with a flash of insight I realized there was something more I could do I d been using the technique of Cosmic Healing Energy to help people for some time but I d never before thought about using it to help pets However now that Chop Chop was prompting me to be an active participant instead of a helpless bystander I set aside my sense of desperation and immediately began sending him healing light energy I not only sent him healing light myself but I also asked the angels saints sages and healers of all space times and dimensions to join me as well as guide and help me be an effective transmitter of Spirit s ever present healing light and love Even when I consciously thought I was finished with the treatment my hands intuitively kept moving as if they knew exactly where to touch press and pull When the flow of healing energy stopped I thanked everyone for their help and was filled with gratitude and reverence When I went to bed that night it was with the confidence of knowing I d now been able to Do something positive for Chop Chop s highest good regardless of what the outcome might be What happened the next morning was nothing short of miraculous He stood up on all four legs and shook his mane He hadn t been able to do either of those things for quite some time because his hind quarters had been paralyzed Within a week of receiving regular healing treatments he was completely back to being his normal self Most of you won t ever be faced with quite such an extraordinary situation and it s important to realize that not every spiritual healing treatment brings about a physical cure as this one did but you will have many opportunities in everyday life when your pets need healing help in a variety of other ways too That s why it s been so important to me to write this series of books to empower you to be an active participant instead of a helpless bystander By implementing some of the healing techniques I ve shared with you you may be able to help your pet maintain optimum health manage more comfortably through chronic illness or pain or even recover from a serious illness or injury This third book of the series is designed to provide you with guidelines for using alternative and complementary methods of healing Many of them have a long and successful history of use and many that at first may seem to be unconventional are actually scientifically supported Some you ll be able to use right away after reading about them while others will require study or further research on your part in order to use them correctly You ll also learn about various healing modalities a professional can provide for your pet The topics we ll cover in this third book of the series include Flower Essences for restoring spiritual balance to help relieve both physical and emotional symptoms Essential Oils that quickly and effectively transport oxygen and nutrients into every cell of the body for physical and emotional healing Homeopathy a healing system based on the principle that like heals like Magnetic Therapy Reflexology and Massage for pain relief relaxation reducing anxiety and promoting overall wellbeing Sound in its many different healing forms which serves as a bridge between body mind and spirit Color that can influence how a pet feels and behaves Crystals as an effective means for focusing healing energy Incense fragrances for healing emotional and behavioral imbalances Animal Communication and the importance of healing at every level spiritual mental and emotional to bring about lasting physical healing Acupuncture and Acupressure to eliminate blockages in the

body's energy system Chiropractic to correct misalignments in a pet's body Hydrotherapy to promote healing in a weightless environment Another chapter you may find helpful shows you how to pre-test remedies before you buy or use them Using the techniques I've described may help you discover ahead of time whether or not a certain modality is the right one to use for your pet or this type of pre-testing may save you from spending money on something that wouldn't be beneficial for your pet It's also important to know how pets age what emergency kit supplies to have on hand and first aid procedures to use as well as how to provide for your pets when you're no longer there so I've included chapters about these topics also If you're able to ease your pet's pain or provide a better quality of life by implementing any of the healing techniques described in this book or in any of the books of this series the time and money you've spent will be well worth it My teacher and beloved animal friend Chop Chop finally did pass on at almost fourteen years of age but what he asked me to do when he was only two years old touched not only our own lives but also the lives of many other pets and pet parents as well Though he and I were both on the verge of giving up many years ago he taught me that I didn't have to be a helpless bystander and that I could Do something I hope you'll Do something for your precious pets too Remember we can't always do great things in life but we can do small things with great love This is exactly the lesson our animal friends teach us whatever you do do it with unconditional love You can learn more about the contents of each book in the series by turning to the Epilogue at the end of this book You can read Chop Chop's entire story in Chapter 1 of my first book What Animals Tell Me You can also learn how to use Cosmic Healing yourself in Chapter 6 of Book 1 of the series For Pet's Sake Do Something How to Communicate With Your Pets and Help Them Heal Sometimes my clients will ask if I still use Cosmic Healing to help people as well as pets Many years ago I did but there are so many animals who need my help today that I now devote all of my time to working exclusively with them

Book One](#) Dr. Monica Diedrich,2007-01-01 Where can pet parents go to find a compilation of information that will help them support their pets various physical emotional and spiritual needs A frequently asked question in my practice Dr Monica There usually comes a time toward the end of our pets lives when we need to let go and let nature take its course But in the face of most of the distresses and health challenges our pets encounter in daily living we don t need to stand by crying helplessly and feeling sad We can Do Something Yet where can pet parents go to find a compilation of information which will help them support their pets various physical emotional and spiritual needs As I finished writing my second book Pets Have Feelings Too it was this very question that impelled me to begin yet another book one that would be a how to guide for everyone who wants to do everything they can to help their pets especially when their pets are in distress or experiencing health challenges of any kind It all began with my desire to respond

to the question asked by so many of my clients and students over the years How can I talk with my pets But there were so many other topics which sprang to mind as I continued to write that before I knew it I had enough material for a series of three how to books How To Communicate With Your Pets and Help Them Heal How To Heal Your Pets Using Nutrition Herbs and Supplements and How To Heal Your Pets Using Alternative Therapies This the first book in the series begins by teaching you how to communicate with your pets about everyday things as well as their health challenges But discovering what your pets want to tell you is only the beginning Once you re truly aware of their needs you must then Do Something That something usually involves restoring balance and harmony in their lives So the second part of the first book shows you how to use spiritual and energetic healing methods as one way to bring about that balance and harmony There are also a series of guided meditations to enable you to help your pet cope with a variety of life situations The second book of the series covers the importance of nutrition herbs and supplements plus foods to avoid and recipes for pets with special needs The third book presents practical healing modalities including homeopathy flower essences incense essential oils crystals color sound massage magnets hydrotherapy acupressure acupuncture and chiropractic plus some other helpful guidance As I was writing all three books I knew many readers would wonder what qualifies me to teach people how to communicate with and heal their animals What experiences and training did I have that prepared me not only to do this but also to teach others to do the same To answer this question I d like to share a few of the highlights of my life with you I ve known that I can understand what animals are saying ever since I was eight years old However when I was young other children used to call me weird or crazy and that was very painful I didn t want to be different so I tried hard to push aside the images animals were sending me and make believe I wasn t receiving them But by my late teens I began to realize that what I was experiencing was a gift one that was becoming virtually impossible to ignore So I nurtured this gift and soon I grew more confident about using my abilities I began communicating with many different species of pets and was delighted to be able to help them and their humans better understand each other In time I realized that I d taken the first step on the path of what I considered to be my Life Assignment But I d also been searching for answers to many spiritual questions for the better part of my life The answers to those questions came one at a time over several years I read a lot of books and attended many classes One of those classes offered by a Vietnamese gentleman Master Tam Nguyen would change the direction of the rest of my life and teach me how to use my intuitive gift more fully From him I learned that healing is about restoring balance and harmony that healing is available to everyone and that we can bring about healing for ourselves and for others During the last week of Master Tam s class he was able to help me experience the Life Force Energy that always surrounds every living being This loving healing Light and Energy surrounded me in a way I d never felt it before When the class exercise was over I was crying For the first time in my life I d been able to feel this energy It came charged with such Love that I felt God had just embraced me Master Tam approached me after class and encouraged me to continue to learn to let this loving healing

Energy flow through me for the benefit of others He also invited me to come to his Center I think I went the first time because I was curious but I kept going back because I was learning so much about helping others to heal not only spiritually but also physically I was drawn to return again and again Observing many healing experiences filled me with the desire to further deepen my knowledge and understanding of metaphysics and it was this study that would gently lead me along the path of unconditional love And what better way to express unconditional Love for someone than by bringing balance and harmony into their lives through healing Through Master Tam s teachings I d already been introduced to the technique of Cosmic Healing which helps every living being function as it should in perfect harmony with the Universe Cosmic Healing doesn t use any physical modalities like touch or medicine Instead it s done spiritually from the heart and with love This type of healing requires direct communion with the Source of All Life God Spirit Life Force Supreme Being All That Is In the process of learning to tune in to this loving healing Energy the skeptic in me reacted by asking If healing energy always surrounds everyone all the time why isn t everyone accessing it more often And why do we see so much sickness around us What if anything can we do to bring healing to others or to help people find healing for themselves With patience and further experience I began to understand that often people in need of healing haven t learned to ask for help or they feel they don t deserve it Most of them know they want to be healed but they don t ask to be healed They may not even know how to ask So what should we do to find effective healing First we need to believe that healing is possible that it does take place and that we can heal ourselves We also need to have confidence that the healing energy of The Universe can flow through us or flow to us through others Above all the person needing healing and the person helping must take time to be in communion or attunement with the one true Source of All Life Then we must stop looking at the problem itself and start focusing on our connectedness to and our oneness with the Source of our Being the Source of our balance and harmony When we once again fully remember our oneness with Spirit we re then able to manifest abundant good health for ourselves and for others For a number of years I helped many people heal and I communicated with many pets about everyday things but I d never thought about combining my gift for healing with my gift for communicating with animals It was one of my own precious Shih Tzus who would show me the way Chop Chop was only two years old when one day he was lying beside me with his eyes fixed somewhere on the horizon He was giving up and death seemed to be looming not many hours away from him Unable to think clearly all I could do was to keep him company crying because there didn t seem to be anything else I could do to help him Two different veterinarians had already closely examined him Medications were no longer effective and the prognosis was very bleak I lay on blankets on the floor next to him to give him what comfort I could But as I reclined there beside him on the floor feeling very sad and miserable he sent me a telepathic message just as clear as day You call yourself a healer You ve helped a lot of people So Do Something He now looked me straight in the eye as he prompted me to be an active participant not just a sorrowful bystander What he said to me kept playing over and over again in my mind until I finally got it His plea

was very simple yet I hadn't thought to use spiritual healing for him or for other animals for that matter I'd only used it to help people But that was about to change He responded literally overnight to the first healing treatment I gave him and within a week of continued treatments he was completely back to being his normal happy self You can read the full account of his story in Chapter 1 of my first book *What Your Animals Tell Me* Thanks to the lesson Chop Chop taught me I knew then that it was time to combine my gift for healing spiritually with my gift for communicating with animals There were many other intuitives available to help heal people so from then on I resolved to dedicate my life exclusively to helping only animals My work now includes not only private consultations for pets but also presenting classes workshops and lectures as well as doing extensive research and writing books to share with others all that I've learned about how we can make life better for our beloved pets During the early part of my experience with Chop Chop I could only cry feel sorry for myself and for him and wait for the inevitable I felt completely inadequate totally devoid of ideas and utterly helpless Later on it occurred to me that many pet parents often feel just as I did whenever they're faced with their pets' illnesses But you don't need to go through those same feelings because there are so many things you can do either to help your pets heal or at least go through the process of their illness or pain with less discomfort To help you I've described as many healing modalities as possible in the three books of this series *For Pet's Sake Do Something* If you're able to ease your pet's pain or provide quality of life for another day week month or even longer by implementing any of the healing techniques described in these books your time and money spent on them will have been well worth it My teacher and beloved animal friend Chop Chop taught me that I didn't have to be a bystander Thanks to him when I was on the verge of giving up I discovered instead that I could Do Something I hope you'll Do Something too Healing can be brought about in many ways not only for your pets but also for yourself When you're able to be an active participant in your pet's care or bring peace and comfort to your pet because you've been able to Do Something your spirit will also be healed Dr Monica Diedrich Anaheim California USA November 2006
