Ellenberger,2015 An exploration of political culture in Britain in the last decades of the nineteenth century revealing how Arthur Balfour and his circle served as a clear bridge between the Victorians and the moderns in Britain s twentieth century political culture Arthur James Balfour 1848 1930 was born toward the beginning of Queen Victoria s long reign At her death in 1901 he was a year away from becoming the first prime minister of the Edwardian era In the quarter century after his entry into political life in the 1870s Britain experienced material changes and a sense of intensifying human interactions as dramatic to his generation as the forces of globalization are today Aristocrats watched anxiously as gifted boys from the middle classes rose to the top in professional life Culture wars over male and female behaviours erupted at home as small wars of empire proliferated overseas Politicians came to terms with electioneering among the masses and with a boisterous print culture that prefigured the mass media of the next century The first great era of advanced international capitalism affected every segment of British and imperial society including the rarefied domain of Arthur Balfour That changes of the magnitude that Balfour s generation faced would demand different skills career paths or political alignments is not surprising That they might also result in the creation of different emotional sets and interior worlds may be more so Balfour s World provides an intimate history of how Arthur and his friends George Herbert 13th Earl of Pembroke Laura and Margot later Lady Asquith Tennant Mary and George Wyndham helped to construct a new emotional regime among Britain s political elites at the fin de siècle The rich diaries letters and publications they left allow access both to public selves and to inner landscapes and the mix of psychological patterns and cultural assumptions that mediated their responses to the world As the new century began the demeanours modelled by habitus of Balfour s world would characterize many in the imperial elite marking them as a clear bridge between the Victorians and the moderns in Britain s twentieth century political culture NANCY W ELLENBERGER is Professor of History at the United States Naval Academy Annapolis Maryland **Words and Worlds** Alison Lurie,2019-05-14 In this candid and bluntly humorous collection of essays on a wide range of topics Lurie begins with a portrait of her life at Radcliffe during World War II when the smartest women in the country were treated like second class citizens the most scholarly among them expected to work in factories to support the war effort She moves on to her unheralded clumsy attempts and near failure to be a writer and finally having reached a level of recognition the good

fortune of forming close relationships with other writers and editors and great thinkers including Robert Silver of The New York Review of Books the poet James Merrill and the illustrator Edward Gorey On this fascinating journey we are amused by her insightful often delightfully funny meditations on topics such as deconstruction and beloved children s literature series such as The Lion the Witch and the Wardrobe Harry Potter and Babar Words and Worlds is a crowning reminiscence from a much beloved and celebrated writer
