## **My Search For The Infinite:**

**My Search For Truth** Henry Thomas Hamblin, 2012 Henry Thomas Hamblin was an English mystic and New Thought author. In his autobiography *My Search For Truth* he gives deep insights on his spiritual life and unfoldment. *This Is No Secret* Joy Kapur, 2009-02-19 It is almost impossible to capture the richness and the beauty of the idea contained in this book within the confines of one book or thousand books. This is the essence of my own thinking and reflection based on my spiritual studies from various sources of knowledge and the wisdom of the ancient seers in the last forty years or so of my life. It will be more appropriate to say that it is a product of my new awareness or call it the gift of grace that I have been able to put together multi-faceted ideas about the Heart in a new frame of light. We hear about the heart everywhere whether it is in a romantic tune or about love from the heart or emotions emanating from the heart or somebody singing about his or her broken heart. Contrary to the popular belief that it is the brain that does everything and that it is mind or the brain that is the seat of consciousness, we now know that it is the heart, not the physical but the spiritual heart, that is linked to the source of infinite intelligence. Since ages in every culture and every religion much has been written about the heart metaphorically. As per the wisdom of the ancient Hindu seers, Greek and Buddhist scholars, heart is the seat of human consciousness. Here are the lines from Rig Veda X129 written more than 3 000 years ago: In the One arose Love. Love, the first seed of the Soul. The truth of this, the sages knew. Found hidden in their hearts. Seeking therein the essence of wisdom. The sages found that bond of union. Between the known and the Unknown. Mankind has reached the highest expression of life or perhaps coming close to the ultimate states of human evolution when it comes to emotions, feelings, perceptions and subtler or higher realms of consciousness. The natural laws of the universe are coaxing the humanity to seek the oneness, the unity and the harmony in the hearts of everybody and everywhere by rising above any barriers of divisiveness and separateness. It is true that we can observe the mind through that faculty of the mind which observes the mind, call it the faculty of reflection or self-introspection. It is the mind that observes the lower mind or the monkey mind and through developing this new awareness becomes the higher mind. Let us call this the super mind. This super mind has the faculty to absorb the heart-based consciousness beyond the limited and conditioned consciousness of the baser mind. In other words, it is only through the light of this new awareness that mind becomes the super mind. It is only through unity of the mind with the heart that the aspirant can experience a quantum leap in awareness and bestows the aspirant with keen intelligence. This keen intelligence is not a product of the lower mind but the mind that is soaked in the heart consciousness and the ennobling qualities connected with the heart. The heart is far more than a mere organ that pumps blood all day long; it is a generator of information, energy and its cells are storehouses of info-energetic memories. Heart is a feeling, thinking, receiving and communicating organ having spiritual powers. Heart is the most sophisticated internal cosmic antenna capable of receiving and remitting healing rays through thoughts, feelings and prayers in the form of positive vibrations. This is not based on some heresy or some old man's

tale or hunches it is based on self knowledge wisdom and discernment and qualities of head and heart It is your thoughts and passions deep down your heart that determine who you are and your core passions and what you will be based on knowing first and then implementing those passions through a plan of action When we know what we are deep down in our heart it is easy to go about following what we love and loving what we do All our desires ambitions fears loves and passions reside in embryonic form in our heart center We are naturally attracted to whatever we secretly harbor in our heart s DNA and whatever we harbor with passion has the p

**Search Without Idols** W. Horosz,2012-12-06 Search Without Idols is a study of human transcendence in the context of human striving projecting surpassing overcoming This power is central to man s search for wholeness Such transcendence makes reality tolerable It provides us with m impressive array of human responses which enable us to cope But it also provides the excesses that go beyond human striving Nothing seems to be off limits to this ubiquitous power Such a state of surpassing limits is what we find in the relation between the human search for wholeness and the quest for external totalities which lies beyond the human context Such soaring flights beyond the capacity of human striving are hard to control impossible to show responsibility for and beyond the reach of criteria The reach exceeds both our grasp and our control Transcendence then is a greatly used and much abuse human power Its activities have never ceased to amaze me its excesses have always troubled me even from the beginning of my studies This book is not an exercise in self clarification I have some thoughts on the matter which I wish to share with the reader Perhaps we can mutually appreciate the great gift without compromising our sanity Part I will provide a new look at the meaning of transcendence

**The Ladies' Companion** ,1861 *Your Destiny Is in Your Hands* Michael Cooper DTM,2023-09-20 It is said that by thought we attract the thing By taking action we receive the thing We decide what our thoughts should be As a man thinks in his heart so is he Prov 23 7 The book encourages us to think using the mind of God Phil 2 5 Thinking with the mind of God makes success inevitable because God knows all things The book encourages readers to let go of many things including the past But to never give up on the power of believing in oneself Readers are encouraged to allow their higher self to control the inner conversations Many people rent out their mind to sources void of credibility but get no compensation in return Furthermore they have no rental clause to protect them from their mind being highjacked More often than not even if their mind is returned to them it is under the control of envy jealousy fear worry and can t do Before the mind is returned to its original owner it would have forged an intimate relationship with lack procrastination and the past Who is controlling your mind

Beliefs of a Reasoning Mind Dr. V V Rampal,2012-07-26 The articles in this book are not thematically sequential but a record of thoughts that came from day to day They are however scattered around the core of religion and rationality You may find a few spots concerned with humanism and science Some thoughts are short and some spilling over to more than a page or two It is more in the format of a diary than a detailed discussion on one theme They represent a freethinking Many may disagree with them but that is what constitutes variety in thought
