Lives of Dust and Water María Luz Cruz-Torres, 2022-03-29 Along the coast of northwestern Mexico pink gold may mean wealth for some but the new global economy has imposed terrible burdens on many sectors of the population State and regional economic development policies have supported the use of natural resources for commercial export resulting in the rapid growth of agriculture and shrimp aquaculture Environmental pressures have contributed to the degradation of marine ecosystems and once self-reliant rural populations have been driven to wage and subsistence labor in order to survive This book eloquently explains how contemporary rural communities in southern Sinaloa have responded to economic and ecological changes affecting the entire nation A political ecology of human survival in one of the most important ecological regions of Mexico it describes how these communities contest environmental degradation and economic impoverishment arising from political and economic forces beyond their control Mar a Luz Cruz Torres evokes the rich and varied experiences of the people who live in the villages of Celaya and El Cerro showing how they invent and utilize their own social capital to emerge as whole persons in the face of globalization She traces the histories of the two villages to illustrate the complex variation involved in community formation and to show how people respond to and utilize Mexican law and reform Surrounded by limited resources poverty illness sudden death and daily oppression these men and women create innovative social and cultural forms that mitigate these impacts Cruz Torres reveals not only how they manage to survive in the midst of horrendous

circumstances but also how they transcend those impediments with dignity She details the participation of household members in the subsistence formal and informal sectors of the economy and how women use a variety of resources to guarantee their families survival A sometimes tragic but ultimately vibrant story of human resistance Lives of Dust and Water offers an important look at a little studied but dynamically developing region of Mexico It contributes to a more precise understanding of how rural coastal communities in Mexico emerged and continue to develop and adjust to the uncertainties of the globalizing world

Spanish for Gay Men (Spanish That Was Never Taught in the Classroom!) Jonathan L. Miguel de Unamuno's Quest for Faith Jan E Evans,2014-06-26 Miguel de Unamuno 1864 1936 was a extraordinary Spanish thinker a philosopher linguist poet novelist short story writer essayist playwright professor university administrator and Spanish public intellectual He had great intellectual integrity and moral courage Unamuno is not an easy philosopher to read He loved paradoxes and even at times contradictions Various interpreters have called him an atheist a sceptic a Protestant a pantheist a Catholic modernist and a good Catholic Passages can be found in his writings that can be

taken to support all of these interpretations In the present book Jan E Evans does an incisive and thorough job of sorting through the Unamuno corpus and arriving at a definitive interpretation of his views One great asset of Evans work is the insight she gains by comparing Unamuno s works with the philosophers whom he admired most and considered his fellow travellers in the tragic sense of life These include Blaise Pascal 1623 1662 William James 1842 1910 and especially Soren Kierkegaard 1813 1855 This book examines the life and work of Unamuno through the lens of his faith Those who are not familiar with Unamuno will find here a clear exposition of the most important themes in the thinker s work along with a framework through which one can profitably begin to read his primary texts

Decolonizing Language Learning, Decolonizing Research Colette Despagne, 2020-10-27. This volume explores the socio-political dynamics, historical forces, and unequal power relationships which mediate language ideologies in Mexican higher education settings, shedding light on the processes by which minority students learn new languages in postcolonial contexts. Drawing on data from a critical ethnographic case study of a Mexican university over several years, the book turns a critical lens on language learning, autonomy, and the use of the Common European Framework of Reference for Languages (CEFR) in postcolonial higher education settings and advocates for an approach to the language learning and teaching process which takes into account minority language learners' cultural heritage and localized knowledge. Despagne also showcases this approach in the unique research methodology which underpins the data, integrating participatory methods such as Interpretative Focus Groups in an attempt to decolonize research by engaging and involving participants in the analysis of data. Highlighting the importance of critical approaches in encouraging the equitable treatment of diverse cultures and languages and the development of agency in minority language learners, this book will be key reading for researchers in sociolinguistics, educational linguistics, applied linguistics, ethnography of communication, and linguistic anthropology.
