Chicano Nations Marissa K. López, 2011-10 This book argues that the transnationalism that is central to Chicano identity originated in the global postcolonial moment at the turn of the nineteenth century rather than as an effect of contemporary economic conditions which began in the mid nineteenth century and primarily affected the laboring classes The Spanish empire then began to implode and colonists in the new world debated the national contours of the viceroyalties This is where the author locates the origins of Chicano literature which is now and always has been postnational encompassing the wealthy the poor the white and the mestizo

Nuevas perspectivas desde, sobre Am3rica Latina Mabel Mora3a, 2000 El tema de la violencia es connatural a la historia de Am3rica Latina y por lo mismo resulta inagotable en cualquiera de sus mltiples manifestaciones materiales y simb3licas desde los or3genes coloniales hasta la actualidad A nivel continental la praxis y el discurso de la violencia pueden perseguirse desde la penetraci3n de la depredaci3n colonizadora con que Am3rica Latina es inscrita en el desarrollo cultural de Occidente hasta llegar a las m3s recientes y sutiles formas asumidas por la violencia de Estado pasando por las instancias de imposici3n de modelos culturales y econ3micos que el las distintas pocas impactaron radicalmente las culturas criollas y vern3culas Am3rica Latina ha sufrido as hist3ricamente las consecuencias de una violencia fundacional que la condenara a una posici3n perif3rica con respecto a sistemas globales cuyos centros han difundido en sus correspondientes reas de influencia la racionalidad de su propia reproducci3n cultural poltica y econ3mica De esta manera la trama social que resultara de la matriz colonialista registr desde el comienzo las huellas imborrables de la violencia que se manifestara tanto a nivel racial como econ3mico tanto en lo referido a las polticas de g3nero como en lo relacionado con la distribuci3n geocultural del poder en todos sus niveles Las dolorosas rep3blicas hispanoamericanas de que hablara Mart se han debatido desde entonces contra las formas naturalizadas de la violencia de la exclusi3n y el autoritarismo la miseria interna y la depredaci3n imperialista la penetraci3n cultural las intervenciones polticas siempre amparadas en la ret3rica legitimadora que las clases dominantes esgrimieran en cada caso para perpetuar su poder El presente vol3men que compila trabajos que fueran presentados y discutidos en la Segunda Conferencia Internacional de Estudios Culturales Latinoamericanos que se llevara a cabo en la Universidad de Pittsburgh en marzo del a3o 2000 tiene como foco principal una articulaci3n espec3fica en torno al tema de la violencia contempor3nea la que analiza los cruces y formas espec3ficas en que la violencia se manifiesta teniendo como escenario principal los centros urbanos de Am3rica Latina y las modalidades a partir de las cuales el fen3meno de la violencia es recogido y re presentado por los medios de comunicaci3n de masas tanto como por la cultura popular el arte la literatura y otras formas de discurso letras y la alta cultura

The theme of violence is natural to the history of Latin America and therefore it is endless in any of its multiple material and symbolic manifestations from its colonial origins to the present At a continental level the praxis and discourse of violence can be traced back to the spread of the colonising voracity that conditioned Latin America within the cultural development of the West followed by the most recent and subtle forms assumed by state violence including the instances of imposition of cultural and economic models that at the different times radically impacted the Creole and vernacular cultures Thus Latin America has historically suffered the consequences of a founding violence which condemned it to a peripheral position in relation to global systems which centres have spread in their corresponding areas of influence the rationality of their own cultural political and economic replication In this way the

social fabric resulting from the colonialist matrix has recorded from the beginning the indelible traces of violence that are displayed both at racial and economic levels both in terms of gender policies and in terms of the geocultural distribution of power at all levels The painful Spanish American republics of which Martí spoke have since fought against the normalisation of the violence of exclusion and authoritarianism the internal misery and imperialistic greed the cultural colonisation and political actions always condoned by a legitimising rhetoric that the ruling classes wielded in every instance to perpetuate their power This volume which compiles papers that were presented and discussed at the Second International Conference on Latin American Cultural Studies to be held at the University of Pittsburgh in March 2000 has as its main focus a specific articulation around the topic of contemporary violence it analyses the intersections and specific ways in which violence presents itself in the urban centres of Latin America as its main scenario and the modalities from which the phenomenon of violence is recorded and represented by the mass media as well as popular culture art literature and other forms of literary discourse and high culture

Anatomía de la frontera Juan Carlos Velasco Arroyo, 2025-02-27 En la época de la globalización del triunfo de Internet y de las redes sociales las fronteras se presentan a veces como secuelas de tiempos preterritos a las que habrá que jubilar de manera definitiva Otras veces en cambio emergen más inhiestas que nunca sobre la corteza terrestre Estas dos percepciones conviven simultáneamente aunque con vigor mutante a veces sus atributos aparecen como obsoletos y al poco dan muestra de un esplendor inusitado El espíritu de los tiempos se ha vuelto ambivalente y sopla en direcciones decididamente contrapuestas en lo concerniente a las fronteras territoriales que son objeto de elogios y diatribas expresiones de dos hemipléjicas equivalentes Fronteras en movimiento e imaginarios geográficos Federico Arenas, 2013 Los artículos reunidos en este volumen poseen el común denominador de considerar a Los Andes y los espacios fronterizos como sociabilidades cuya configuración es factible de ser historizada o enmarcada en una memoria colectiva que la explica En otras palabras y esto es clave comprender que la aprehensión del espacio requiere del marco que otorga su

contexto sociocultural donde el análisis temporal es fundamental para visualizar el proceso de construcción del sentido o significación espacial. Es necesario por tanto asumir que el espacio no se reduce a su simple materialidad y que como en este libro resulta importante en la geografía actual no perder de vista la dimensión espacial de lo social. Los imaginarios geográficos son procesos constructivos, son producciones espaciales, son representaciones con las que un grupo o un país se proyecta socialmente. Por lo mismo son producciones finitas, cambiantes, móviles. Sin embargo, ellas deben comprenderse, se materializan, se concretan, es decir, los imaginarios geográficos son el resultado de un relato social de acciones, de dispositivos, de mecanismos discursivos que afianzan en la retina colectiva un modo de mirar el espacio y por ende un modo de actuar en él.

Children Today, 1980. [The New Frontiers of Fashion Law](#)
 Rossella Esther Cerchia, Barbara Pozzo, 2021-01-13. Fashion law encompasses a wide variety of issues that concern an article of clothing or a fashion accessory starting from the moment they are designed and following them through distribution and marketing phases all the way until they reach the end user. Contract law, intellectual property, company law, tax law, international trade and customs law are of fundamental importance in defining this new field of law that is gradually taking shape. This volume focuses on the new frontiers of fashion law, taking into account the various fields that have recently emerged as being of great interest for the entire fashion world: from sustainable fashion to wearable technologies, from new remedies to cultural appropriation to the regulation of model weight, from advertising law on the digital market to the impact of new technologies on product distribution. The purpose is to stimulate discussion on contemporary problems that have the potential to define new boundaries of fashion law, such as the impact of the heightened ethical sensitivity of consumers who increasingly require effective solutions that a comparative law perspective renders more interesting. The volume seeks to sketch out the new legal fields in which the fashion industry is getting involved, identifying the new boundaries of fashion law that existing literature has not dealt with in a comprehensive manner.

Educación sin fronteras, Javier Ibáñez Aramayo, F. Javier Murillo Torrecilla, Amalia Segalerva Cazorla, 1995. Actas del seminario Educación sin fronteras para determinar los principios fundamentales que están en la base de una Educación Intercultural. [Hispanic Balladry Today](#)
 Ruth H. Webber, 2020-03-09. First published in 1989, The ballad or romance as it is commonly called has played a vital role over the centuries in Hispanic culture as an orally transmitted narrative song. It is characteristically the product of people who have had to look to themselves for entertainment. From the end of the fifteenth to the early seventeenth century the romancero balladry enjoyed a great vogue among learned poets and their audiences, especially in the Spanish and Portuguese courts.
