Nuovo Discorso Sugli Italiani:

Nuovo discorso sugli italiani Franco Ferrucci, 1993 **Irresistible Signs** Paola Gambarota, 2011-01-01 Language is now understood as a key component of cultural identity but discourses on linguistic nationalism are only a few centuries old In *Irresistible Signs* Paola Gambarota investigates the connection between Italian language and national identity over four hundred years from late Renaissance linguistic theories to nineteenth century nationalist myths Challenging the consensus that linguistic nationalism originated with nineteenth century German philosophers *Irresistible Signs* advances a more nuanced theory of how culture and language become inextricably linked through literary and rhetorical elements Gambarota combines Anglo American theories of the nation with the most advanced Italian scholarship on language ideology and delves into ideas from Giambattista Vico Giacomo Leopardi and Melchiorre Cesarotti *Irresistible Signs* also explores how images of national communities are represented within vernaculars affirming their influence in shaping contemporary models of monolingual nationhood *The View from Vesuvius* Nelson Moe, 2006-05-17 This book shows that the Southern Question is far from just an Italian issue for its origins are deeply connected to the formation of European cultural identity between the mid eighteenth and late nineteenth centuries Jacket **L'Italia tra storia e memoria.
