Chinese Food and Foodways in Southeast Asia and Beyond Tan Chee-Beng,2012-08-01 Chinese cuisine has had a deep

impact on culinary traditions in Southeast Asia where the lack of certain ingredients and access to new ingredients along with the culinary knowledge of local people led Chinese migrants to modify traditional dishes and to invent new foods This process brought the cuisine of southern China considered by some writers to be the finest in the world into contact with a wide range of local and global cuisines and ingredients When Chinese from Southeast Asia moved on to other parts of the world they brought these variants of Chinese food with them completing a cycle of culinary reproduction localization and invention and globalization The process does not end there for the new context offers yet another set of ingredients and culinary traditions and the embedding and fusing of foods continues creating additional hybrid forms Written by scholars whose deep familiarity with Chinese cuisine is both personal and academic Chinese Food and Foodways in Southeast Asia and Beyond is a book that anyone who has been fortunate enough to encounter Southeast Asian food will savour and it provides a window on this world for those who have yet to discover it

Food Product Development M Earle, R Earle, A Anderson, 2001-09-18 Product development is the lifeblood of the food industry from refining an established product range to developing completely new products. It is however a process fraught with risk that often ends in failure. So what then are the keys to making the process a success? Drawing on a wealth of experience gathered over 40 years Food product development provides the answers. The first half of the book examines the four core elements of product development: the business strategy, directing product development, the various steps in the product development process, the knowledge required to fuel the process, the need for keeping the product development focused on the consumers needs and aspirations. The second part of the book looks at managing the product development process in practice with four case studies of successful product launches. It also discusses how to evaluate and improve the process to make future product innovation more successful. Filled with examples and practical suggestions and written by a distinguished team with unrivalled academic and industry expertise Food product development is an essential guide for R D and product development staff and all managers concerned with this key issue throughout the food industry. Provides comprehensive coverage of the complete product development process. Includes a range of international case studies from various sectors of the food industry. Written by a distinguished international panel of experts.

Food Safety in China Joseph Jwu-Shan Jen, Junshi Chen, 2017-03-14 From contaminated infant formula to a spate of all too familiar headlines in recent years food safety has emerged as one of the harsher realities behind China's economic miracle. Tainted beef, horse meat and dioxin outbreaks in the western world have also put food safety in the global spotlight. Food Safety in China: Science, Technology, Management and Regulation presents a comprehensive overview of the history and current state of food safety in China along with emerging regulatory trends and the likely future needs of the country. Although the focus is on China, global perspectives are presented in the chapters and 33 of the 99 authors are from outside of China. Timely and illuminating this book offers invaluable insights into our understanding of a critical link in the increasingly globalized complex food supply chain of today's world.
