Street Practice Lori McNeil,2016-04-01 Presenting recent studies of non profit organizations involved in poverty relief services in New York City in comparison with programmes in existence across the US

Street Practice provides a front line ground level perspective on innovative research practices designed to solve community problems. It explores the manner in which organizations bridge the gap between research and policy advocacy with an account of the ways in which research contributes to alleviating or solving a community problem as well as details on successes and failures of advocacy work problems and limitations of their research funding constraints and political resistance. As such, this book not only offers compelling examples of social change in action but also serves to introduce models for research and policy advocacy that can be applied similarly in other urban areas. Adopting a case based learning approach that enables readers to better understand the dynamic process of research and policy advocacy, this innovative book will appeal to those with interests in poverty, homelessness, policy advocacy, social work and social change.

Introduction to Information Systems R. Kelly Rainer, Brad Prince, 2023-09-20 Introduction to Information Systems 10th Edition teaches undergraduate business majors how to use information technology to master their current or future jobs. Students will see how global businesses use technology and information systems to increase their profitability, gain market share, develop and improve their customer relations and manage daily operations. This course demonstrates that IT is the backbone of any business, whether a student is majoring in accounting, finance, marketing, human resources, production, operations management or MIS. In short, students will learn how information systems provide the foundation for all modern organizations, whether they are public sector, private sector, for profit or not for profit.
