**The Roseate Spoonbill of Happiness** Marilyn Gear Pilling, 2002      *On Huron's Shore* Pilling Marilyn Gear, 2014-04-01

Marilyn Gear Pilling brilliantly displayed her competence in describing women in *My Nose is a Gherkin Pickle Gone Wrong* 1996 Showing them in all their nakedness the voice is neither sentimental nor fussy the prose spare and fresh Quill Quire She continued her explorations of Canadian women in *The Roseate Spoonbill of Happiness* 2002 a collection of stories shortlisted for the Upper Canada writing award by Leon Rooke Greg Gatenby and Sandra Martin Pilling has a confident quirky voice and her stories range in tone from the heartwarming to the humorous The domestic landscape is familiar but this book unlocks the strangeness beneath the familiar In every one of these stories the unusual and the unexpected give a perspective that enlarges the understanding and leaves the reader wanting more Since 2002 Pilling has produced five books of poetry and now with *On Huron's Shore* she has returned to fiction with a collection of linked stories about mothers daughters and sisters set in the landscape of the Huron County of the mid fifties juxtaposed with the Huron County of today Gear Pilling takes a humourous and sensual look at the female members of one family as it was then as it is now      *You Could Be Happy Here* Erin Van Rheenen, 2025-09-16 How far would you go to find your true home Lucy single childless in her thirties studies insects and ecosystems in part to make sense of human behavior That hard won insight is shattered when her mother dies prematurely her sister claims the California family home and Lucy learns that her biological father is apparently a Costa Rican they knew when the family spent summers in the coastal village of Palmita Reeling Lucy heads south in search of this phantom father But he is nowhere to be found and none of the locals seem to remember her The dreamy off grid paradise she recalls from childhood has become a hard edged town leery of outsiders Is Lucy an interloper too Or can she find a way to belong rethink her place in the world and expand her notion of kinship and home      **In hindsight, a happy accident** Partridge Boswell, 2008      **Room of One's Own** , 2003      *Rocket Ranch* Jonathan H. Ward, 2015-06-26 Jonathan Ward takes the reader deep into the facilities at Kennedy Space Center to describe NASA's first computer systems used for spacecraft and rocket checkout and explain how tests and launches proceeded Descriptions of early operations include a harrowing account of the heroic efforts of pad workers during the Apollo 1 fire A companion to the author's book *Countdown to a Moon Launch Preparing Apollo for Its Historic Journey* this explores every facet of the facilities that served as the base for the Apollo Saturn missions Hundreds of illustrations complement the firsthand accounts of more than 70 Apollo program managers and engineers The era of the Apollo Saturn missions was perhaps the most exciting period in American space exploration history Cape Canaveral and Kennedy Space Center were buzzing with activity Thousands of workers came to town to build the facilities and launch the missions needed to put an American on the Moon before the end of the decade Work at KSC involved much more than just launching rockets It was a place like none other on Earth Technicians performed intricate operations and hazards abounded everywhere including lightning fire highly toxic fuels snakes heat explosives LOX

spills and even plutonium The reward for months of 7 day workweeks under intense pressure was witnessing a Saturn V at liftoff For anyone who ever wished they had worked at Kennedy Space Center during the Apollo era this book is the next best thing The only thing missing is the smell of rocket fuel in the morning *The Ornithologist and Oölogist* ,1886 **The**

**Whooping Crane** Kathleen Kaska,2012-09-16 Millions of people know a little bit about efforts to save the whooping crane thanks to the movie Fly Away Home and annual news stories about ultralight planes leading migratory flocks But few realize that in the spring of 1941 the population of these magnificent birds pure white with black wingtips standing five feet tall with a seven foot wingspan had reached an all time low of fifteen Written off as a species destined for extinction the whooping crane has made a slow but unbelievable comeback over the last seven decades This recovery would have been impossible if not for the efforts of Robert Porter Allen an ornithologist with the National Audubon Society whose courageous eight year crusade to find the only remaining whooping crane nesting site in North America garnered nationwide media coverage His

search and his impassioned lectures about overdevelopment habitat loss and unregulated hunting triggered a media blitz that had thousands of citizens on the lookout for the birds during their migratory trips Allen's tireless efforts changed the course of U S environmental history and helped lead to the passage of the Endangered Species Act in 1973 Though few people remember him today his life reads like an Indiana Jones story full of danger and adventure failure and success His amazing story deserves to be told
