Kovels' Antiques & Collectibles Price List 2006 Ralph & Terry Kovel, Ralph M. Kovel, 2005 Gives you an insider's edge when you are buying selling or collecting antiques or collectible Tempest Liz Skilton, 2019-06-01 Liz Skilton's innovative study tracks the naming of hurricanes over six decades exploring the interplay between naming practice and wider American culture In 1953 the U S Weather Bureau adopted female names to identify hurricanes and other tropical storms Within two years that convention came into question and by 1978 a new system was introduced including alternating male and female names in a pattern that continues today In *Tempest Hurricane Naming and American Culture* Skilton blends gender studies with environmental history to analyze this often controversial tradition Focusing on the Gulf South the nation's hurricane coast Skilton closely examines select storms including Betsy Camille Andrew Katrina and Harvey while referencing dozens of others Through print and online media sources government reports scientific data and ephemera she reveals how language and images portray hurricanes as gendered objects masculine named storms are generally characterized as stronger and more serious while feminine named storms are described as unladylike and in need of taming Further Skilton shows how the hypersexualized rhetoric surrounding Katrina and Sandy and the effeminate depictions of Georges represent evolving methods to define and explain extreme weather events As she chronicles the evolution of gendered storm naming in the United States Skilton delves into many other aspects of hurricane history She describes attempts at scientific control of storms through hurricane seeding during the Cold War arms race of the 1950s and relates how Roxcy Bolton a member of the National Organization for Women led the crusade against feminizing hurricanes from her home in Miami near the National Hurricane Center in the 1970s Skilton also discusses the skyrocketing interest in extreme weather events that accompanied the introduction of 24 hour news coverage of storms as well as the impact of social media networks on Americans tracking and understanding of hurricanes and other disasters The debate over hurricane naming continues as Skilton demonstrates and many Americans question the merit and purpose of the gendered naming system What is clear is that hurricane names matter and that they fundamentally shape our impressions of storms for good and bad

The Craft & Art Show Calendar #29 , **Istanbul** Orhan Pamuk,2006-12-05 From the Nobel Prize winner and acclaimed author of My Name is Red comes a portrait of Istanbul by its foremost writer revealing the melancholy that comes of living amid the ruins of a lost empire Delightful profound marvelously origina Pamuk tells the story of the city through the eyes of memory The Washington Post Book World A shimmering evocation by turns intimate and panoramic of one of the world s great cities by its foremost writer Orhan Pamuk was born in Istanbul and still lives in the family apartment building where his mother first held him in her arms His portrait of his city is thus also a self portrait refracted by memory and the melancholy or h z n that all Istanbulus share With cinematic fluidity Pamuk moves from his glamorous unhappy parents to the gorgeous decrepit mansions overlooking the Bosphorus from the dawning of his self consciousness to the writers and painters both Turkish and foreign who would shape his consciousness of his city Like Joyce s Dublin and Borges Buenos Aires

Pamuk's Istanbul is a triumphant encounter of place and sensibility beautifully written and immensely moving **A Medic's Mind** Matthew Heneghan, 2022-07-11 A riveting read of the difficult and important things of what medics do Matthew Heneghan doesn't see people at their best. Instead, they come to him in desperate need. The experience of needing a medic can be like waking up in a foreign country. You frantically want to know: What is happening with me? The ability to reassure people to give the foreign country a name helps people. Author Matthew Heneghan always knew he wanted to be a medic. In this raw new medical memoir, he interweaves the stories of his growing up with the brutal realities of living with life and death each day. With sensitive observation and graceful writing, this book explores the highs and lows of being a paramedic in a world where everything is not always what it seems. Matthew writes that being a paramedic caused his soul to bleed. It is not about the practicalities of the job but about the evil of the world that he is forced to see day after day. He calls himself part of the walking wounded. In **A Medic's Mind**, Love, Loss, and All Things in between, Matthew Heneghan writes of the life-altering experiences and other struggles he faced in his journey to becoming a good medic from being a youth in a home where his mom struggled with mental illness to his medic training in the United States army. He tells of exhausting shifts as a paramedic and coming face to face with his own mortality and the socioeconomic dilemmas of his patients. It is a read not to be missed. **This Day in American History, 4th ed.** Ernie Gross, Roland H.
