Prokofieff,2009 I asked Rudolf Steiner What will remain of your work thousands of years from now He replied Nothing but The Philosophy of Freedom But everything else is contained in it If one realizes the act of freedom described there one can discover the whole content of Anthroposophy Walter Johannes Stein Some people s path to Anthroposophy leads them directly to Rudolf Steiner s early work Intuitive Thinking as a Spiritual Path A Philosophy of Freedom which becomes the philosophical basis for further exploration Steiner referred to this as a safe approach However the destiny of many leads them directly to Anthroposophy itself perhaps through one of its practical initiatives such as Waldorf education or biodynamics sometimes making it difficult to relate to the cognitive basis of Anthroposophy In this unique study Prokofieff offers a fresh approach to Steiner s crucial book Intuitive Thinking as a Spiritual Path He shows why the book is so important to Anthroposophy as the work in which Steiner lays a foundation for his method of spiritual research In Steiner s own words One who is willing can indeed find the basic principles of Anthroposophy in my Philosophy of Freedom Prokofieff discusses the Christian nature of the anthroposophic means of cognition and how it is integral to freedom and love This in turn reveals the deeply Christian roots of Intuitive Thinking as a Spiritual Path and its importance for modern Christian esoteric work In considering its multifaceted cosmic and human dimension Prokofieff discusses Intuitive Thinking as a Spiritual Path in relation to the mystery of the Resurrection the work of the hierarchies the being Anthroposophia the Fifth Gospel Steiner s path of initiation the Rosicrucian and Michaelic impulses the life between death and rebirth the Foundation Stone the Christian mysteries of karma and the science of the Grail **Western Esotericism in Scandinavia** ,2016-06-21 This is the first encyclopaedic work on Western esotericism in Scandinavia Structured along the lines of the Dictionary of Gnosis and Western Esotericism 2005 it contains over 80 articles written by 47 specialists It consists of critical overviews of all the major esoteric currents in Denmark Finland Norway and Sweden ranging from Alchemy Anthroposophy and Astrology to Theosophy Traditionalism and UFO Movements This ground breaking work is of relevance not only for scholars and students of Western esotericism but for all with an interest in alternative religious traditions and Scandinavian intellectual history **Anthropology and mysticism in the making of initiation** Andy Hilton,2023-09-14 By the 1980s interest in initiation was at its peak it was being employed both theoretically and practically in gender politics and humanistic therapy How did that come to be how should we understand initiation and what can be its future This wide ranging book looks at the history evolution and contemporary idea of initiation It traces origins in the ancient Mysteries and early Christian texts through Renaissance rediscoveries to admission in Freemasonry and anthropological investigations in French Canada and British Australia It

introduces the initiation discourse as something that was constructed through centuries of translations and nineteenth century human science leading to the making of the modern concept It argues for a subject initiation studies that effectively secularised the eighteenth century rites of admission to produce the twentieth century rites of passage And it details as compensation for this hollowing out of the mystery the study of shaman spirit workers the idea of death and rebirth and the later sacralisation of the liminal in adolescent adult initiation Finally a contemporary revision is explored that incorporates neglected aspects like depth psychology and education for an idea of youth as a life stage And while ritual is now deemphasised the religious dimension is reaffirmed with a critical analysis of cosmic consciousness the enduring Great

Renewed Rudolf Steiner,2006-03 After Rudolf Steiner had left us in the body the gifts of the spirit that were offered by him in such overflowing measure could not continue It must now happen that a community of human beings takes over the results of his spiritual research takes them in such a way that they remain alive in the community People must come together in anthroposophic work united in such a way that Anthroposophy comes into its own Carl Unger Oct 29 1928 This volume provides perhaps the most comprehensive and profound exegesis of Rudolf Steiner s Anthroposophy especially his book titled Anthroposophical Leading Thoughts That book provides Steiner s final and most complete explanation of his Spiritual Science through brief aphoristic thoughts or meditations on the profound esoteric meaning of the modern spiritual path he called Anthroposophy In The Language of the Consciousness Soul Carl Unger unfolds and expands Rudolf Steiner s leading thoughts in 78 brief meditative chapters to help the reader comprehend the deeper meaning behind the Leading Thoughts Unger helps us see how Steiner created a mandala like image of Anthroposophy revealing an ever expanding cosmology and epistemology that goes far beyond mere philosophy or a belief system to a practical path of spiritual investigation and knowledge for modern humankind Rudolf Steiner had this to say about Carl Unger Dr Carl Unger for many years past has always been the most industrious and devoted collaborator in the anthroposophic movement At an early date Dr Unger saw that Anthroposophy before all needs a strong foundation of the theory of knowledge With a deep understanding he took up what I myself many years ago was able to give in my books Goethe s Theory of Knowledge Truth and Knowledge and Intuitive Thinking as a Spiritual Path A Philosophy of Freedom he developed independently what I had intimated Supported by mental discernment his goal was to see through the nature of the human process of knowledge in a clear analysis and from that to

form its true picture Dr Unger is not dialectical but an observer of empirical facts This is why through the years he has been able to give results of the highest value showing how the process of knowledge in ordinary consciousness produces always and everywhere out of itself the impulses to anthroposophic investigation Moreover Dr Unger s method of thinking trained through technical problems is free from subjective vagueness and thus his scientific collaboration in Anthroposophy is the most important that we can have The Language of the Consciousness Soul is an indispensable guidebook for group study and for individuals who wish to penetrate the depths of Anthroposophy and apply its principles both inwardly and to daily life This volume is an edited translation by Effie Grace Wilson of *Aus der Sprache der Bewusstseinsseele Unter Zugrundelegung der Leitsätze Rudolf Steiners* *The Appearance of Christ in the Etheric* Sergei O. Prokofieff, 2012 Dedicated to the centenary of Rudolf Steiner s first proclamation of Christ s appearance in the etheric realm of the Earth this book discusses various aspects of that event that had not previously been addressed adequately Sergei Prokofieff points to three themes of primary importance all of which are connected directly with the tasks of the Society that Rudolf Steiner founded The preparation of humankind for the Second Coming Working with Christ as the Lord of Karma Recognizing in Anthroposophy the spiritual language through which questions can be posed to the etheric Christ today Prokofieff describes these and other critical undertakings such as forging a strong relationship with Michael and the importance of recognizing the adversarial forces attempting to falsify Christ s Second Coming The Appearance of Christ in the Etheric is of relevance to every individual who wishes to take an active role in fulfilling the needs of our time **Access to Western Esotericism** Antoine
