England's Magnificent Gardens Roderick Floud,2021-06-15 An altogether different kind of book on English gardens the first of its kind a look at the history of England s magnificent gardens as a history of Britain itself from the seventeenth century gardens of Charles II to those of Prince Charles today In this rich revelatory history Sir Roderick Floud one of Britain s preeminent economic historians writes that gardens have been created in Britain since Roman times but that their true growth began in the seventeenth century by the eighteenth century nurseries in London took up 100 acres with ten million plants that were worth more than all of the nurseries in France combined Floud s book takes us through more than three centuries of English history as he writes of the kings queens and princes whose garden obsessions changed the landscape of England itself from Stuart Georgian and Victorian England to today s Windsors Here are William and Mary who brought Dutch gardens and bulbs to Britain William who twice had his entire garden lowered in order to see the river from his apartments and his successor Queen Anne who like many others since vowed to spend little on her gardens and instead spent millions Floud also writes of Frederick Prince of Wales the founder of Kew Gardens who spent more than 40 000 on a single twenty five foot tulip tree for Carlton House Queen Victoria who built the largest most advanced and most efficient kitchen garden in Britain and Prince Charles who created and designed the gardens of Highgrove inspired by his boyhood memories

of his grandmother's gardens We see Sarah Duchess of Marlborough who created a magnificent garden at Blenheim Palace only to tear it apart and build a greater one Deborah Duchess of Devonshire the savior of Chatsworth's 100 acre garden in the midst of its 35 000 acres and the gardens of lesser mortals among them Gertrude Jekyll and Vita Sackville West both notable garden designers and writers We see the designers of royal estates among them Henry Wise William Kent Humphrey Repton and the greatest of all English gardeners Capability Brown who created the 150 acre lake of Blenheim Palace earned millions annually and designed more than 170 parks many still in existence today We learn how gardening became a major catalyst for innovation central heating came from experiments to heat greenhouses with hot water pipes how the new iron industry of industrializing Britain supplied a myriad of tools mowers pumps and the boilers that heated the greenhouses and finally Floud explores how gardening became an enormous industry as well as an art form in Britain and by the nineteenth century was unrivaled anywhere in the world

Waddesdon Manor Michael Hall, 2009 Waddesdon Manor is one of the most extraordinary houses in England Over 125 years ago Baron Ferdinand Rothschild transformed a barren hill in the countryside outside London into the setting for this breathtaking estate Over the years he assembled an Two Rothschilds and the Land of Israel Simon Schama, 2023-05-27 Simon Schama has re-examined the role of Baron Edmond de Rothschild 1845 1934 and his son James 1878 1957 in the Jewish settlement of Palestine He refutes Herzl's charge that the colonies were a rich man's pastime to while away what would otherwise have been idle hours by illustrating how Baron Edmond's immediate concern in 1882 for the sanctuary of Eastern European pogrom victims was by the turn of the century translated into a total commitment to the development of a self-supporting Jewish homeland and finally a state Along the way Schama maneuvers skillfully through the cluttered detail of budgets expenditures equipment crop experimentation with wine tobacco and perfume border disputes and administrative problems providing occasional vignettes of local Palestinian conditions under Ottoman rule Baronial outrage at colonists ingratitude toward his centralized regime agents ineptness and encounters with Herzl Balfour and Weizmann Meanwhile the Baron evolves from a benevolent onlooker to an active accomplice and with Schama's thoroughly documented incisively written account he and his family take their significant places in Israeli history Kirkus To its credit Schama's work records that the re-establishment of large scale Jewish settlement in Palestine was not only marked by a struggle against its Arab inhabitants and later against its British overlords but primarily by a struggle against the sandy soil rocks and swamps which covered so much of the land available for Jewish settlement at the turn of the century The importance of this study is that it is the first to be based on the archives of PICA the Palestine Jewish Colonisation Association which Schama has used extensively He presents countless details concerning the early Jewish settlements and many fascinating vignettes of life in Ottoman Palestine he has written a highly readable account of aspects of life in Palestine in the late nineteenth and early twentieth centuries Ronald W Zweig *The Historical Journal* Schama's contributions are remarkable Schama's lively and intelligent discussion of the material hardships and economic realities of

the resettlement effort makes an important contribution The spare details of the economic problems of the Yishuv take on a sense of immediacy that is found only in the best economic history Todd M Endelman Jewish Social Studies Biographies of Baron Edmond de Rothschild have been written before But not until Schama's book which evidently had the support of family cooperation could we rely on a study based on archival as well as more readily available documentation It is fortunate that this material is now made accessible in the interpretation of a distinguished historian with a broad sweep of social and economic as well as political interests Benjamin Halpern Middle East Journal An important study Raphael Patai The American Historical Review Gilded Mansions Wayne Craven, 2009 The Gilded Age 1865-1918 saw the sudden rise of America's first High Society including such prominent families as the Astors, Whitneys and Vanderbilts As an aristocracy based on fortunes recently acquired these families endeavored to live like Europe's blue-blooded nobility shedding Puritan restraint as they joyously flaunted their new wealth especially where their homes were concerned They erected French chateaus and Italian palazzos on New York's Fifth Avenue at Newport and elsewhere often taking inspiration from Parisian styles of the Second Empire They rejected more modest American styles just as they rejected middle class society and for interior decoration they turned to such artisans as Tiffany, Herter Brothers and Allard's of Paris Immensely readable and illuminated with 250 stunning color and black and white illustrations this is the fascinating story of America's first millionaire society the way they lived and partied and the lush artistic and cultural legacy they established Who Will Rescue Us? Laura Hobson Faure, 2025-04-08 The first account of Jewish children's flight from Nazi Germany to France and their subsequent escape to America from the Vichy regime At the eve of the Second World War an estimated 1.6 million Jewish children lived in Nazi occupied Europe While 10,000 of them escaped to Britain in the Kindertransport only some 500 found a new home in France Here they attempted to begin again but their refuge would all too soon become a trap For the first time Laura Hobson Faure brings to life the experiences of these children and the Jewish and non-Jewish organizations who helped them Drawing on survivors' testimonies as well as children's diaries, letters, drawings, songs and poems Who Will Rescue Us? re-creates their complex journeys including how some of them eventually found safety in America Hobson Faure paints a moving portrait of these children and their escape uncovering their agency in the flight from Nazism and knits together the network of the many who aided them along the way **The Rothschilds: A Family Portrait** Frederic Morton, 2023-01-10 In the past two centuries the Rothschild family has been at the center of great events in Europe and the world such as the defeat of Napoleon at Waterloo and the development of the Suez Canal In this National Book Award finalist Frederic Morton brings the family to life starting with Mayer of Frankfurt, longtime adviser to Germany's princes who broke through the barriers of the Jewish ghetto and placed his family on the road to wealth and power followed by Lord Alfred in London, Baron Philippe in Paris and many others Morton's tale grows fascinating luxuriating in the social and human details of what happened once the Rothschild tribe had financed England bailed out the returning French Bourbons helped Austria intervene in Italy and lent
