Amrine, Francis J. Zucker, H. Wheeler, 2012-12-06 of him in like measure within myself that is my highest wish This noble individual was not conscious of the fact that at that very moment the divine within him and the divine of the universe were most intimately united So for Goethe the resonance with a natural rationality seems part of the genius of modern science Einstein's cosmic religion which reflects Spinoza also echoes Goethe's remark Ibid Item 575 from 1829 Man must cling to the belief that the incomprehensible is comprehensible Else he would give up investigating But how far will Goethe share the devotion of these cosmic rationalists to the beautiful harmonies of mathematics so distant from any pure and direct observation Kepler Spinoza Einstein need not and would not rest with discovery of a pattern within behind as a source of the phenomenal world and they would not let even the most profound of descriptive generalities satisfy scientific curiosity For his part Goethe sought fundamental archetypes as in his intuition of a Urpflanze basic to all plants infinitely plastic When such would be found Goethe would be content for as he said to Eckermann Feb 18 1829 to seek something behind the Urphänomenon is futile Here is the limit But as a rule men are not satisfied to behold an Urphänomenon They think there must be something beyond They are like children who having looked

Cottrell, 2020-05-01 The essays in this collection range from close textual analysis to discussions of larger problems such as Goethe's relation to Christianity as illuminated by the theme of sacrifice in Faust This work is viewed with particular reference to Goethe's natural scientific epistemology and to the problems confronting Western man in our own times A study of Faust's blindness and the inner light complete the collection
