Piquero,David Weisburd,2009-12-16 Quantitative criminology has certainly come a long way since I was first introduced to a largely qualitative criminology some 40 years ago when I was recruited to lead a task force on science and technology for the President's Commission on Law Enforcement and Administration of Justice At that time criminology was a

very limited activity depending almost exclusively on the Uniform Crime Reports UCR initiated by the FBI in 1929 for measurement of crime based on victim reports to the police and on police arrests A typical mode of analysis was simple bivariate correlation Marvin Wolfgang and colleagues were making an important advance by tracking longitudinal data on arrests in Philadelphia an innovation that was widely appreciated And the field was very small I remember attending my first meeting of the American Society of Criminology in about 1968 in an anteroom at New York University there were about 25-30 people in attendance mostly sociologists with a few lawyers thrown in That Society today has over 3 000 members mostly now drawn from criminology which has established its own clear identity but augmented by a wide variety of disciplines that include statisticians economists demographers and even a few engineers This Handbook provides a remarkable testimony to the growth of that field Following the maxim that if you can't measure it you can't understand it we have seen the early dissatisfaction with the UCR replaced by a wide variety of new approaches to measuring crime victimization and offending
